REMARKS.

The preceding Table exhibits a general view of the Flour and Wheat Trade of the United States for forty-nine years. The first column shows the Exports of Wheat, which, in 1790, amounted to 1,124,458 bushels, and, in 1838, to only 6291 bushels. The following Statement shows the same, divided into periods of Ten Years, and their Annual Average:—

	Bushels.	Bushels per Annum.
1790 to 1799 - - -	5,359,190 - - -	535,919
1800 to 1809 - - -	2,723,360 - - -	272,336
1810 to 1819 - - -	1,340,359 - - -	134,035
1820 to 1829 - - -	175,272 - - -	17,527
1830 to 1838 - - -	685,290 - - -	76,143
Total - - -	10,283,471 bushels.	

Being a Yearly Average of 209,666 bushels.

No. 2.

STATEMENT exhibiting the quantity of the undermentioned descriptions of Grain and other Agricultural Produce raised in the United States during the Year 1840, *as returned by the Marshals appointed for taking the Sixth Census.*

The Duty on Flour and Meal is 50 cents = 2*s*. 2*d*. per 112 lbs.

No. 5.

Prices of Wheat and Flour, &c., at the following places in the United States *during the year* 1841, *abstracted from various American Prices-Current and Customs' Returns.*

[The American dollar is valued at 4*s*. 4*d*. sterling.]

NEW ORLEANS.

The average prices of Genessee flour, during the following years, were—

		dol^{rs}. *cts*.		*s.*	*d.*		*s.*	*d.*	
In 1837	per barrel	9 80	=	40	0	sterling, or	80	0	per Imperial quarter.
1838	,,	7 83		33	11	,,	67	10	ditto.
1839	,,	7 70		33	4	,,	66	8	ditto.
1840	,,	5 25		22	9	,,	45	6	ditto.

CLEAVELAND (OHIO.)

1841.

29 June. Wheat, per bushel 1$. 10*c*., or 38*s*. 2*d*. per quarter.

3 August. Ditto, flour, 5$. 25*c*. per barrel = 22*s*. 9*d*., or 45*s*. 6*d*. per quarter.

7 August. Ditto ditto. ditto.
Wheat comes in freely by waggons at 1 dollar = 4*s*. 4*d*. the bushel, but the quality was not so good as was anticipated from the neighbouring counties.

18 Septr. Wheat, 1$. 10*c*. = 4*s*. 9*d*. per bushel, or 38*s*. 2*d*. per quarter.

18 Septr. Ditto, flour, 4$. 75*c*. = 22*s*. 3*d*. per barrel, or 44*s*. 6*d*. per ditto.

5 October. The sales of wheat have been almost confined to southern parcels at, and above 1$. 12*c*. = 4*s*. 10*d*. per bushel, about 6000 bushels having been sold at or near that price. Flour not much in demand, and sales in small parcels at about 6$. = 26*s*. per barrel.

CINCINNATI (OHIO.)

1841.
17 Septr. Flour, per barrel, 5$. 25c. = 22s. 9d., or 45s. 6d. per Imperial quarter.

22 Decr. Ditto, from 5$. 31c. to 5$ 45c. = 23s. 1d. to 23s. 7d., or from 46s. 2d. to 47s. 2d. per Imperial quarter.

ROCHESTER MARKET (NEW YORK.)

1841.
17 July. The produce market has considerably improved this week. Flour for shipment at 5$. per barrel = 21s. 8d., or per Imperial quarter, 43s. 4d.

Wheat, at about 1$. 13c. = 4s. 11d. per bushel, (39s. 4d. per quarter,) and in good demand, but supply very small.

13 Septr. Wheat, 1$. 25c. per bushel = 5s. 5d., or 43s. 4d. per quarter.

13 Septr. Ditto, flour, 6$. 25c. to 6$. 50c. = 27s. 1d. to 28s. 2d. per barrel.

13 Septr. Barley, 50c., or 2s. 2d. per bushel = 17s. 4d. per quarter.

13 Septr. Maize, 50c. to 60c. per bushel = about 19s. 8d. ditto.

13 Septr. Oats, 25c. to 28c. ditto about 9s. ditto.

OSWEGO MARKET (NEW YORK.)

1841.
20 July. Flour has declined during the past week, and is now worth at the mills about 5$. 25c. = 22s. 9d. per barrel, or 45s. 6d. per Imperial quarter.

This fall has been occasioned by a corresponding one in the New York and Canadian markets, and by the improved prospects of the coming wheat crop.

At one flour mill 500 barrels changed hands at a price of 5$. = 21s. 8d. per barrel, while 5$. 12½c. = 22s. 2¼d. was refused at another mill.

CHICAGO MARKET (ILLINOIS.)

1841.
21 Septr. Wheat, 85c. to 87c. = 3s. 8d. per bushel, or 29s. 4d. per quarter.
Flour, 5$. 75c. = 24s. 11d. per barrel, or 49s. 10d. per quarter.
Barley, 36c. = 1s. 6d. per bushel, or 12s. per quarter.

BUFFALO.

1841.
1 Decr. Flour, 5$. to 5$. 25c. per barrel, or from 21s. 8d. to 22s. 9d.

Collector's Office,
Lower Black Rock, November 8, 1841.

A Comparative Statement of Wheat and Flour first shipped, chiefly to Canada, and toll received from the opening of Navigation to the 7th of November, 1840—41.

	Wheat.	Flour.	Tolls.
In 1841	146,772 bushels.	145,914 barrels.	72,658·42 dols.
1840	29,704 „	101,909 „	50,488·45 „
Increase in 1841	117,068	44,005	22,169·97

(Signed) A. BULL, *Collector*

No. 6.

Prices of Provisions at New York in 1841.

1841.

14 July. Mess Beef (country inspection), 9$. 50c. = 41s. 2d. per cwt.
Ditto (city ditto) 10$. = 43s. 4d. „
Prime Beef, 5$. 75c. to 6$. = 24s. 11d. to 26s. per cwt.
Mess Pork, 10$. 75c. to 11$. 50c. = 46s. 7d. to 49s. 10d. per cwt.
Prime ditto, 8$. 62c. to 9$. 50c. = 37s. 4d. to 41s. 2d. „
About 3000 barrels of Pork have been received from New Orleans. Hams and shoulders in plenty; 1,000 barrels of Lard have been taken out of the market at 6½ cents. = 2¾d. per lb.

Exports from the 1st *to the* 14*th of July.*

Beef	465	barrels.
Pork	3,810	„
Lard	628	kegs.

8 Sept*r*. Mess Beef (city inspection), 9$. 75c. = 42s. 3d. per cwt.
Prime ditto (quotation nominal.)
Mess Pork, 10$. to 10$. 25c. = 43s. 4d. to 44s. 5d. do.
A few hundred barrels of Mess Beef were sold at the above price for exportation. The stock of Mess Pork is very large, and the market closes rather heavily.
Lard is in good demand, and has sold for shipment to an ext[illegible] of 2,000 kegs at 7c. = 3½d. per lb.
Cheese, at 5½c. to 6¾c. = 2¾d. to 3½d. per lb.
Butter (prime) 18¾c. = 9¼d. per lb.

Exports from the 1st *to the* 8*th of Septemb*[illegible]

Beef	251	barrels.
Pork	407	ditto.
Lard	165	kegs.

11 October. Beeves.—The supply consisted of 150 head, left over, and 1,4[illegible] head from this and the neighbouring States. The mark[illegible] was heavy, and prices unchanged.
950 head sold at 4$. to 6$. 50c. = 17s. 4d. to 28s. 2d.
Or, at an average of 5$. 75c. = 24s. 11d. per 100 lbs.
Cows and calves, at 20$. to 40$. = 4l. 6s. 8d. to 8l. 13s. 4d. eac[illegible]
Sheep, at 1$. 50c. to 4$. = 6s. 6d. to 17s. 4d. per 100 lbs.
Lambs, 1$. to 2$. 75c. = 4s. 4d. to 11s. 11d. each.
Hay, loose, by the load, at 87½c. to 1$. 12½c. = 3s. 9½d. to 4s. 10½[illegible] per 100 lbs.

24 Nov*r*. The demand for Beef and Pork very limited; prices much th[illegible] same.

New Lard, at	8	cents.	=	4d. per lb.
Old „	6½	„	=	2¾d. „
Hams „	9	„	=	4½d. „
Bacon sides	6½	„	=	2¾d. „
Hogs (dressed)	4½	„	=	2¼d. „

Butter (prime) much in request.
Rice (extreme rates), from 3$. 37c. to 3$. 63c. = 14s. 7d. to 15s. 8d. per 100 lbs.
There is but little demand for rice, except for home consumption.

Exports from the 1st to the 24th of November.

Beef	3,282	barrels.
Pork	3,555	„
Lard	11,826	kegs.

1841.
22 Dec^r. The demand for various descriptions of Beef and Pork still continues, and prices are without improvement.

Lard (city) at	8	cents. =	4*d.* per lb.
Hams (new)	9	„ =	$4\frac{1}{2}d.$ „
Bacon sides	$6\frac{1}{2}$	„ =	$2\frac{3}{4}d.$ „
Beef (smoked)	7	„ =	$3\frac{1}{2}d.$ „

Rice (prime) for exportation, extreme value 3$. 37*c.* = 14*s.* 7*d* per 100 lbs.

Exports from the 1st to the 22nd of December.

Beef	384	barrels.
Pork	1,596	„
Lard	1,501	kegs.

No. 9.

CANADA.

Prices of Flour in the Montreal Market.

1841.

16 July. The price of Flour has not varied much, but the mark decidedly flatter.

American and Canadian fine Flour may be quoted at 29*s.* to 30*s.* the barrel, but the sales are unimportant.

17 Septr. The market still continues dull, and there are but few transactions. Holders are willing to sell at 33*s.* 9*d.*, which may quoted as the full market rate.

Sales of fine American Flour were made at 33*s.* 9*d.*, although price of 35*s.* per barrel is demanded for very fine bran Stocks are getting higher, and the receipts are falling off.

The Exports of Flour and Wheat from Canada to Great Britain, in 1841, were as follows:—

	Flour.		Wheat.	
Exports from Quebec . .	150,976	barrels.	149,584	bushels.
Export from Montreal . .	179,267	„	386,302	„
Total . .	330,243		535,885	

Exports of Beef, Flour, and Pork, from the Ports of Quebec and Montreal to the Eastern Provinces and to the West Indies, in 1841, viz.:—

	Quebec.		Montreal.	
Beef . . .	4,137	barrels.	552	barrels.
Flour . . .	21,231	„	6,807	„
Pork . . .	17,707	„	14,551	„

Total.—Beef, 4,689 barrels; Flour, 28,038 barrels; Pork, 32,158 barrels.

No. 10.

Extracts from the Appendix to Mr. Macauley's Report to Lord Sydenham.

Table of the Prices of Wheat per Bushel at Dundas, from the year 1831 to 1840, both inclusive.

	[illegible]y.		April.		July.		October.		December.	
	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.
1831	5 0	to 5 4	5 7½	to 5 11½		4 4½	4 0	to 4 3		4 1
1832		4 1		4 1		4 1		4 4½	3 9	to 4 1
1833		3 9		4 1		4 1	4 1	– 4 3		4 1
1834		4 1	3 3	– 3 7½		3 1½		3 1½	2 10	– 3 1½
1835		2 10	3 0	– 3 1½		4 4½		4 1		4 1
1836	4 1	– 4 4½	4 1	– 4 4½		4 4½	5 7½	– 6 6		5 11½
1837	5 11	– 7 6		7 6		7 6		5 0		5 0
1838		5 0		5 7½	5 0	– 5 4	6 3	– 6 10		6 3
1839		6 3	6 10½	– 7 6		5 7½		5 0	4 4½	– 5 0
1840		4 4½		4 4½	3 9	– 4 1	3 7	– 3 9		3 7½

NOTE.—The crop of 1836 being short, both here and in the United States, what was not purchased for exportation to that country was required for home consumption, and prices in consequence ruled very high. Upon the coming in of the abundant crop of 1837, they receded to the proportionate value for the English markets.

The principal part of the wheat and flour received from C[illegible] through the Ohio Canal, which connects the Ohio River with Lake E[illegible] terminating at Cleveland. Chilichote, about 280 miles from Cleveland, is the most southern point from which produce is brought to the Canada markets; all beyond that usually finds its way to New Orleans. The cost of Wheat and Flour from Chilichote to Montreal is nearly as follows, viz.:—

100 bushels of Wheat purchased at Chilichote at 2*s.* 6*d.* per bushel - - - - - - - -		£12	10 0

Cost of 100 barrels of Flour purchased in Chilichote, and delivered in Montreal - - - -		£113 18 0	

The price of Flour in Montreal in the month of October, for the last six years, has ruled readily as follows, viz.:—

October, 1835 - -	26*s.* 3*d.* — 28*s.* 9*d.*	per barrel.
—— 1836 - -	40*s.* — 41*s.* 3*d.*	„
—— 1837 - -	40*s.* — 42*s.* 6*d.*	„
—— 1838 - -	40*s.* — 42*s.* 6*d.*	„
—— 1839 - -	36*s.* 3*d.* — 37*s.* 6*d.*	„
—— 1840 - -	28*s.* — 30*s.*	„

The present price of Wheat (March, 1841).

At Chilichote, Ohio -	2*s.* 6*d.* per bushel	(20*s.* per quarter.)
— Cleveland, ditto -	3*s.* 6*d.* „	(28*s.* „)
— Gananogue, Canada	4*s.* 6*d.* „	(36*s.* „)

Flour in Montreal - -	27*s.* 6*d.* per barrel.
Wheat, ditto - -	5*s.* 6*d.* per bushel.

These prices just pay the persons engaged, the freight, commission, grinding, &c., &c., but no chance to make a profit, unless an advance takes place, and if it should fall in Montreal, there would be a loss.

4.—*Statement from Mr. Carfrae, Collector of Customs, Toronto.*

The following statement of the expense of forwarding Wheat and Flour from hence to Montreal, I have received from Mr. Thorne, and from the "*forwarders.*" I have taken it at the summer rates. The charges are all increased when forwarded late in the fall; but as only a small portion is sent down at that period, I have taken no notice of it.

Charges on 100 bushels of Wheat from Toronto to Montreal.

Lake freight - -	per bushel	4½*d.*
River ditto - -	,,	7½*d.*
Storage and shipping -	,,	3*d.*
Insurance - - -	,,	0½*d.*
100 bushels at 1*s.* 3½*d.*	is	£6 9 2

Supposing 100 bushels of Wheat to make 23 barrels of flour, the charge will be,—

Lake freight - -	per barrel	1*s.* 0*d.*
River ditto - -	,,	2*s.* 0*d.*
Insurance - -	,,	0*s.* 2*d.*
Storage - -	,,	0*s.* 4*d.*
23 barrels at 3*s.* 6*d.*	is	4 0 6
		£2 8 8

Thus leaving a balance in favour of Flour of £2 8 8 upon every 100 bushel of Wheat. The bean and shorts cover the expense of barrelling.

The average price of Wheat has been 4*s.* 0½*d.*, and of Flour 21*s.*

Custom-House, Toronto, 23rd March, 1841.

5.—*The following is a Statement of the Average Prices of Wheat and Flour in Montreal.*

	Wheat.		Flour.	
1837,	6*s.* 0*d.* — 8*s.* 0*d.*	per bushel	40*s.* 0*d.* — 43*s.* 9*d.*	per barrel.
1838,	9*s.* 0*d.* — 5*s.* 0*d.*	,,	50*s.* 0*d.* — 33*s.* 9*d.*	,,
1839,	8*s.* 0*d.* — 7*s.* 0*d.*	,,	40*s.* 0*d.* — 35*s.* 0*d.*	,,
1840,	5*s.* 0*d.* — 6*s.* 6*d.*	,,	33*s.* 9*d.* — 26*s.* 3*d.*	,,

In 1837 the wheat crop was a failure throughout the United States, and partially so in Upper Canada; and there were large importations of grain from England.

In 1838 the importations were still larger, from the same cause; therefore these years must be considered as anomalous in relation to the trade springing directly from the Country or States adjoining, and the effect must also have been felt in the year following.

6.—*Extract of a Letter from Chicago, dated 6th March,* 1841.

"It is only four years since the first shipment of Wheat was made on Lake Michigan. In 1840, 800,000 bushels (in Wheat and Flour) were shipped. This year there will not be more than half that quantity, owing to the destruction of the harvest by rust. The export next year, if the crop is good, will exceed a million of bushels. The average price paid to the farmer has been 2*s.* 6*d.* The downfall of American stocks, and the "*tinkering*" of currency by 26 States, and unwise Legislation here, have effectually put a stop to the Illinois and Michigan Canal, now more than half completed. It is a sad blow to this place, and blasts the hopes of many persons.

Average cost of transporting a ton of merchandise from New York Buffalo, by Erie Canal:—

	$.	c.	
Hudson River freight, 8c. per 100 lbs., by steam -	1	60	per ton.
Toll from Troy to Buffalo, 360 miles, at 18c. per ton per mile - - - - -	6	48	,,
Freight about the same as toll - - - -	6	48	,,
Warehouse charges at Buffalo - -	1	00	,,
Aggregate cost - dollars	15	56

Toll from Troy to Oswego, 200 miles - -	3	60	,,
Freight about equal to the toll - -	3	60	,,
Warehouse charges at Oswego - - -	1	00	,,
Welland Canal toll - - - -	1	00	,,
Freight from Oswego to Detroit, double the cost by steam on the Hudson - - -	3	20	,,
Aggregate cost - dollars	14	00	

Difference in favour of Oswego route for goods from Cleveland and Detroit, per ton dollars 1 56

—Comparative [illegible]nt of Expense of Transporting Products from the L[illegible]w York, by the Buffalo and Oswego routes,—say [illegible] ton of Agricultural Produce.

[illegible] Erie Canal route:—

	$.	c.	
Warehouse Charges at Buffalo - - -	0	50	per ton.
Toll, 9 "*mills*" per ton per mile, for 360 miles -	3	24	
Freight 1¼ the amount of the Toll as estimated by a Legislative Committee - - -	4	05	
Total - -	7	79	

Oswego and Lake Ontario route:—

Freight from Cleveland to Oswego, estimated at double the charge upon the Hudson, or 60 per cent. beyond that of steamers - - -	2	00	
Welland Canal Toll - - - - -	0	78	
Warehouse charges at Oswego - - - -	0	50	
Toll from Oswego to the Hudson River, 200 miles	1	80	
Freight 1¼ the amount of Toll - - - -	2	25	
Total - -	7	33	
Difference in favour of the Ontario route - per ton	0	46	

AGRICULTURAL PRODUCE AND SHIPPING
IN NORTHERN EUROPE.

COPY of INFORMATION concerning the COST and SUPPLY of various Articles of AGRICULTURAL PRODUCE, &c., in several Parts of NORTHERN EUROPE, obtained by *James Meek*, Esq., under Instructions from HER MAJESTY'S GOVERNMENT, dated 2d November 1841.

(Presented to Parliament by Command of Her Majesty.)

Ordered, by The House of Commons, *to be Printed,*
7 *February* 1842.

LETTER of INSTRUCTIONS to Mr. *Meek*, to obtain Information from Foreign Ports and Places therein named.

SIR, Board of Trade, 2 November 1841.

HER Majesty's Government being desirous of obtaining precise information concerning the cost and supply, in several parts of Europe, of various articles of agricultural produce, other than grain and pulse, used for food, or otherwise named in an annexed paper, I am directed to instruct you to proceed for that purpose, without delay, to the various ports and places named in the accompanying List marked (A).

Your inquiries will be principally directed to the following points:—

1. The quantity of each article of such agricultural produce usually exported from each port; stating the largest quantity in any one year since 1815, and the year in which it occurred.

2. The quantity of each article produced in the neighbouring district that might be afforded for exportation in the event of such an alteration of the commercial system of England being made as would cause a profitable trade in those articles with this country.

3. The prices of such articles in ordinary years, including the charges of shipment, i. e. the prices free on board; the highest and lowest prices experienced during the last twenty years; stating the years in which th[e] occurred; also, the prices at which any further considerable quan[tity] contemplated under the second head of inquiry, could be pr[ocured].

4. The present rates of freight to the various ports of [the United King]dom, both by British and Foreign ships, and the rates which [would] be demanded if the trade were permanently extended.

5. Whether any circumstances which may come to your k[nowledge] reason to expect that any important changes may be experienced in [the] years as respects any of the foregoing points (such, for example, as [the] construction of railroads or canals, and the consequent cheapening of t[he] cost of conveyance to the port of shipment).

6. The cost per ton of mercantile shipping when ready to commence the first voyage, and the rate per month at which ships of different sizes can be victualled and navigated.

7. Whether it is the practice, and to what extent, and in what articles, for British ships to call at any, and what, foreign ports, in order to take in provisions for their crews, and upon what voyages such ships are usually bound.

The List herewith marked (B.) will be found to comprise the articles of produce to which it is most desirable that your inquiries should be directed, but you will of course avail yourself of every opportunity for obtaining and recording information connected with the agricultural resources and capabilities of the different countries visited by you, together with such circumstances as may tend to their further and future development; and, on the other hand, you will not fail to notice any causes which, in your estimation, may tend to the future limitation of the quantities of agricultural produce which each country may have disposable for exportation.

In addition to the matters on which I have already dwelt, Her Majesty's Government will be desirous to avail themselves of all such authentic and recent information as you may be able to collect, without materially retarding your movements, upon the subject of the trade in corn, with respect particularly to the first cost of the various descriptions of grain at the market nearest to the place of growth, independent of any other charge, and to the expense of conveyance to the port from which they are imported, and to the charges attending shipment, as well as to those of freight and insurance to this country.

With

With a view to this purpose, the Reports of Mr. Jacob on foreign corn, and the Consular Returns lately printed, are herewith placed in your hands, and you are requested to give your attention to them.

On your arrival at any place in which one of Her Majesty's Consuls is resident, you will place yourself in communication with that officer, who having been already called upon by this Government to collect information of the same nature as that which is the object of your journey, will be in the condition to assist and materially to abridge your labours; the letters addressed to Her Majesty's Consuls with which you are furnished will insure to you this zealous co-operation.

I am, &c.

W. E. Gladstone.

A SUMMARY of the ANSWERS received from HER MAJESTY'S CONSULS, referred to in the preceding LETTER.

ANSWERS from Her Majesty's Consuls * at	QUERY 1. What Quantity of Grain, of each Kind, could be exported to England, from the Country or District in which you reside, if the Trade in Corn in England were made constantly open, at a moderate Duty.				QUERY 2. What would be the Average Prices free on Board? Per Imperial Quarter.								QUERY 3. What would probably be the Freight per Quarter to England?				QUERY 4. Would the Exportation be subject to any other Charges?	QUERY 5. Whether if there were a regular and steady demand in England for Foreign Corn, the Quantity of Corn produced in the said Country or District would, without much difficulty, and in a short space of time, be materially increased?	REMARKS.
	Wheat.	Rye.	Barley.	Oats.	Wheat.		Rye.		Barley.		Oats.

LETTER from *J. Meek*, Esq. to the Right Honourable the Earl of *Ripon*, accompanying the Information obtained.

My Lord, Admiralty, Somerset House, 5 January 1842.

HAVING in obedience to the orders of Her Majesty's Government, signified to me by Mr. Gladstone's letter of the 2d November last, proceeded to the Continent for the purpose of obtaining precise information respecting the cost and supply in several parts of Europe of various articles of agricultural produce, as well as for other objects pointed out in the said letter, I beg to acquaint your Lordship, that I landed at Ostend on the 5th November, and successively visited Antwerp, Rotterdam, Bremen, Hamburg, Kiel, Lubeck, Rostock, Stettin and Dantzig; and returned by Berlin, Magdeburg, Frankfort, Cologne, Liege and Brussels, and have this day arrived in London.

The accompanying statement will put your Lordship in possession of the information obtained at each place, as well from Her Majesty's Consuls as from intelligent merchants and other persons of consideration to whom I was fortunate enough to have procured introductions.

The information referred to is given in a tabular form, because it appeared to be the most simple mode, not only of keeping the several subjects distinct, but of avoiding repetition, as well as of contrasting at one view the information obtained at the different places with each other.

It is only common justice to Her Majesty's Consuls to state to your Lordship, that I invariably experienced the greatest readiness on their part to furnish me with every information on the various points to which my inquiries were directed, which it was in their power to afford, and that I met with the same attention from others with whom I was brought in contact; accompanied universally, whether they happened to be Her Majesty's subjects or foreigners, with the expression of a kind and friendly feeling towards Great Britain. Although the information that has been procured on this occasion might have been more perfect if more time had been occupied in its collection, I hope it may still be found to answer in some measure the object which Her Majesty's Government had in view when they directed me to proceed on this confidential mission.

I have the honour to be,

My Lord,

Your Lordship's most obedient humble Servant,

(signed) *James Meek.*

To the Right Honourable the Earl of Ripon,
President of the Board of Trade,
&c. &c. &c.

A TABULAR

A TABULAR STATEMENT,

CONTAINING

INFORMATION obtained by Mr. *Meek* from Her Majesty's CONSULS and other Persons in *Belgium*, *Holland*, *The Hanse Towns*, *Denmark*, *Mecklenburg*, and *Prussia*, respecting PROVISIONS, CORN, and other AGRICULTURAL PRODUCE, and SHIPPING, in November and December 1841.

PROVISIONS, &c.	page 8
CORN	30
SHIPPING	40
INFORMATION obtained at Berlin, Magdeburg, Frankfort, and Cologne	56
STATEMENT showing the Exports of Grain from the Kingdom of *Prussia*, in the years 1838, 1839, and 1840	60
Conclusion—warranted by facts contained in the Statements	62

QUESTIONS to which Mr. *Meek* was instructed to obtain ANSWERS at the Places enumerated in the following Statement.

1. WHAT is the quantity of each article usually exported?
2. What was the largest quantity exported in any one year since 1815?
3. In what year did it occur?
4. What is the quantity of each article produced in the neighbouring district, that might be afforded for exportation in case such an alteration of the commercial system of England was made as would cause a profitable trade in these articles with Great Britain?
5. What are the prices of each article in ordinary years, including the prices of shipment; i. e. the prices free on board?
6. What were the highest and lowest prices of each article experienced during the last twenty years, stating the years in which they occurred?
7. What would be the probable prices of each article, free on board, at which any considerable quantity could be procured in the event occurring which is described in Question 4?
8. Are there any circumstances within your knowledge that give you reason to expect that any important changes might be expected in future years with respect to any of the foregoing points, such as the contemplated construction of railroads or canals, and the consequent reduction of the cost of conveyance to the port of shipment?
9. What are the agricultural resources and capabilities of the country in the vicinity, beyond providing for its own population?
10. Are any circumstances foreseen which will tend to a future further development of those resources and capabilities?
11. Do any causes exist which are likely to tend to the future limitation of the quantities of agricultural produce, which each place, and its neighbourhood, may have disposable for exportation?
12. Is Salt a monopoly paying duty, or is it duty-free? and are there any means of increasing the production?

PROVISIONS, &c.

OSTEND, Nov. 6, 1841	EXPORTED. 1. Quantity usually exported.	2. Largest quantity in any year since 1815.	3. In what year.	4. Quantity likely to be exported if the commercial system of England was altered.	5. Prices in ordinary years free on board; or prices paid by the inhabitants for articles not exported.
Asses, Goats, Oxen, Cows, Calves, Stallions	not any exported			The country is already in so high a state of cultivation as not to be susceptible of any material increase of agricultural produce; but from its nearness to the London market, a stimulus would in all probability be given, by which the districts about Ostend would be benefited, particularly for breeding cattle.	Oxen, of 600 lb. 11 *l.* 8 *s.* Cows, 4½ *d.* per lb. Calves, 4½ *d.* per lb.
Geldings, Mares, Colts, Mules	100	280	1835		about 14 *l.* 14 *l.*
Sheep	not any exported				4⅔ *d.* per lb.
Swine	not any exported				4 *d.* per lb.
Bacon and Hams	not any exported				6 *d.* per lb.
Beef and Pork, salted	not any exported				beef, 5½ *d.* per lb. pork, 5 *d.* per lb.
Beer	not any exported				
Butter	in 1838, 770 cwt. in 1839, 2,706 „ in 1840, 5,088 „	5,088 cwt.	1840		10 *d.* per lb.
Cheese	not any exported				5½ *d.* per lb.
Poultry	in 1838, 951 *l.* in 1839, 864 *l.* in 1840, 2,825 *l.*	2,825 *l.*	1840		from 2 *s.* to 5 *s.* p' couple.
Eggs	4,000 *l.* in value	but little variation for the last ten years.			4 *s.* 6 *d.* to 5 *s.* per 100.
Herrings, pickled & salt^d.					
Cod-fish - ditto.					
Fresh meat of all kinds.					
Fresh fruits	in 1838, 1,440 *l.* in 1839, 3,720 *l.* in 1840, 1,714 *l.*	3,720 *l.*	1839		4½ *d.* to 5 *d.* per lb.
Horns	rarely any exported				
Honey	not any exported.				10 *d.* per lb.
Lard	not any exported.				8 *d.* „
Onions	not any exported.				8 *d.* „
Sausages	not any exported.				8 *d.* „
Potatoes & Vegetables, generally	not any exported				Potatoes, ¼ *d.* per lb. other vegetables proportional.
Tongues	not any exported.				2 *s.* 6 *d.* each.
Feathers	rarely exported				3 *s.* per lb.
Linseed and Rape-seed cake	in 1838, 20,860 cwt. in 1839, 1,778 „ in 1840, 20,484 „	20,860 cwt.	1838		generally in transit from France.
Hops, Hides	not any exported.				
Bark for tanning	in 1838, 74,660 cwt. in 1839, 49,205 „ in 1840, 76,345 „	76,345 cwt.	1840		6 *l.* per ton.
Salt, Fresh Fish, Beetroot for sugar, Tobacco, Hemp	not any exported				price varies.
Tow	in 1838, 10,320 cwt. in 1839, 10,000 „ in 1840, 5,216 „	10,320 cwt.	1838		
Flax	in 1838, 15,540 cwt. in 1839, 25,791 „ in 1840, 20,614 „	35,791 cwt.	1839		from 5 *l.* to 6 *l.* per 100 kilogrammes.
Cider, Starch, Tallow, Wool, Hay, Bones.	not exported.				
Peas	not any exported				36 *s.* 6 *d.* per quarter.
Beans	not any exported				28 *s.* 6 *d.* „
Madder.					
Spirits	not any exported				brandy, 8 *s.* 10 *d.* p' gal. rum - 8 *s.* 10 *d.* „ gin - 3 *s.* 2 *d.* „

- - - - - PROVISIONS, &c.

PRICES.						
6. Highest and lowest prices for the last twenty years.	7. Probable prices if the commercial system was altered.	8. Circumstances likely to cause any change in the quantity at present exported.	9. Agricultural resources and capabilities.	10. Circumstances likely to effect those capabilities.	11. Causes likely to limit future production.	12. SALT. Is it a monopoly? If not, what duty does it pay?
- - They cannot be furnished; but there has been little or no variation for several years.	- - It is not likely that any alteration would take place.	- - None whatever -	- - It has no capabilities of increasing its produce beyond what is necessary for the consumption of its own inhabitants.	- - Not any. It is very highly cultivated, but very populous.	- - Not any -	- - Salt is not a monopoly. Belgium imports all it requires, from England. It pays a duty of 17 frs. 63 cts. per 100 kilogrammes, when imported in Belgian vessels, and an additional duty of 24 frs. 24 cts. when imported in foreign vessels, which amounts to a prohibition.

ANTWERP, Nov. 9. 1841.	EXPORTED. 1. Quantity usually exported.	2. Largest quantity in any year since 1815.	3. In what year.	4. Quantity likely to be exported if the commercial system of England was altered.	5. Prices in ordinary years free on board; or prices paid by the inhabitants for articles not exported.
Asses Goats	not any exported	-- The exports cannot be furnished by the Custom-house without authority from the minister of finance.	-- See answer to the last question.	-- The quantity produced generally is not more than sufficient for the population, except of flax and bark, which are exported to a considerable extent. There is no published account of exports, and great difficulty in obtaining any information from merchants that can be depended on.	-- The prices of animals cannot be given with any precision, they vary so much in size and quality.
Oxen	-- imported from Holland and Germany.				
Cows Calves Stallions Geldings Mares Colts Mules	not any exported.				
Sheep	-- imported from Holland and Germany.				
Swine	not any exported.				
Bacon and Hams	- - - - - -	- - -	- - -		7 *d.* to 8 *d.* per lb.
Beef and Pork, salted	imported - - -	- - -	- - -	- - -	-- 60 *s.* to 63 *s.* 4 *d.* p'brl. of 200 lbs. American beef has lately been imported and sold at 45 *s.* per brl. of 200 lbs.
Beer	not any exported.				
Butter	-- imported from Holland. Exports trifling, only as ships' provisions -	- - -	- - -	- - -	8 *d.* to 10 *d.* per lb.
Cheese	not any exported - -	- - -	- - -	- - -	6 *d.* to 7 *d.* per lb.
Poultry	-- imported from Holland. Exports do not exceed 20 *l.* per annum -	- - -	- - -	- - -	2 *s.* to 3 *s.* each.
Eggs					3 *s.* to 4 *s.* per 100.
Herrings, pickled and salted	- - - - - -	- - -	- - -	- - -	3 *d.* to 4 *d.* each.
Codfish, d° - d°	not any exported -	- - -	- - -	- - -	36 *s.* 8 *d.* p'brl. of 350 lbs.
Fresh meat of all kinds	- - - - - -	- - -	- - -	- - -	4 *d.* to 6 *d.* per lb.
Fresh fruits	-- chiefly walnuts exported; about 20 *l.* - -	- - -	- - -	- - -	13 *s.* 4 *d.* to 26 *s.* 8 *d.* per 100.
Horns	not any exported - -	- - -	- - -	- - -	31 *s.* 8 *d.* to 41 *s.* 8 *d.* p'cwt.
Honey	imported.				
Lard	not any exported.				
Onions	not any exported -	- - -	- - -	- - -	8 *d.* to 1 *s.* per lb.
Sausages	not any exported.				
Potatoes and Vegetables generally	-- of small amount, chiefly as ships' provisions -	- - -	- - -	- - -	potatoes, 40 *s.* per ton.
Tongues Feathers	not any exported	- - -	- - -	- - -	8 *d.* to 1 *s.* per lb.
Linseed and Rape-seed cakes	exported 70 tons -	- - -	- - -	- - -	84 *s.* to 86 *s.* per cwt.
Hops	not any exported -	- - -	- - -	- - -	6 *d.* to 8 *d.* per lb.
Hides	-- imported largely from Buenos Ayres -	- - -	- - -	- - -	3 *l.* 5 *s.* to 6 *l.* per ton.
Bark for tanning	7,000 tons on an average	- - -	- - -	- - -	4 *s.* 4 *d.* per hectolitre.
Salt	imported - - -	- - -	- - -	- - -	very dear.
Fresh fish Beetroot for sugar	not any exported	- - -	- - -	- - -	none cultivated.
Tobacco	-- none legally exported, but much smuggled into France - - -	- - -	- - -	- - -	3 ½ *d.* to 6 *d.* per lb.
Hemp	imported from Riga -	- - -	- - -	- - -	30 *s.* to 38 *s.* 4 *d.* p'cwt.
Flax	-- exported and returned spun, about 7,500 tons	- - -	- - -	- - -	watered, 60 *l.* to 160 *l.* per ton; dew-wetted, 33 *l.* to 50 *l.*
Cider Starch	not any exported.				
Tallow Wool	imported - - -	- - -	- - -	- - -	38 *s.* 4 *d.* to 48 *s.* 4 *d.* p'cwt. 9 *d.* to 2 *s.* 4 *d.* per lb.
Hay	not any exported -	- - -	- - -	- - -	75 *s.* to 76 *s.* per load of 18 cwt.; exportation prohibited.
Bones Peas Beans Madder	imported - - -	- - -	- - -	- - -	13 *s.* to 15 *s.* per hectolitre of 23 gallons. 8 *s.* 8 *d.* to 12 *s.* 8 *d.* p'd°. 35 *s.* to 66 *s.* 8 *d.* p'cwt.
Spirits	- - - - -	- - -	- - -	- - -	gin, 1 *s.* 10 *d.* p'gallon. rum, 3 *s.* 9 *d.* per ditto. brandy, 5 *s.* 6 *d.* p'ditto.

PRICES.						
6. Highest and lowest prices for the last twenty years.	7. Probable prices if the commercial system was altered.	8. Circumstances likely to cause any change in the quantity at present exported.	9. Agricultural resources and capabilities.	10. Circumstances likely to effect those capabilities.	11. Causes likely to limit future production.	12. Salt. Is it a monopoly? If not, what duty does it pay?
- - Cannot be furnished.	- - It is not expected that any alteration which may take place in the duties levied in England on corn, provisions, cattle or horses, would in any degree increase their exports from Belgium; because Belgium, four years out of seven, imports corn for its own consumption, and exports no other articles to any extent, except bark for tanning, and flax, the latter of which is returned when spun, and butter, poultry, eggs, fresh fruits, onions, potatoes and vegetables generally; the three latter in small quantities, and of the others the quantity cannot be furnished.	- - Whenever the railroad from Cologne is finished, it is expected that the exports will increase, and the imports still more.	- - Not any, beyond providing for its own inhabitants.	- - Not any. It is already in the highest possible state of cultivation, and very populous.	- - Not any are foreseen.	- - Salt is not a monopoly. Rock salt is imported from Liverpool, and common grey salt from France. A low duty is paid on admission into entrepôt, and a heavy Excise duty of 17 frcs. 63 cts. per 100 kilogrammes, or 14*s.* 6*d.* per 221 ½ lb., when taken out for consumption.

ROTTERDAM. Nov. 12, 1841.	EXPORTED. 1. Quantity usually exported.	2. Largest quantity in any year since 1815.	3. In what year.	4. Quantity likely to be exported if the commercial system of England was altered.	5. Prices in ordinary years free on board; or prices paid by the inhabitants for articles not exported.
Asses, Goats, Oxen, Cows, Calves, Stallions, Geldings, Mares, Colts, Mules, Sheep, Swine	not any exported	There are no records from which this question can be answered.	See answer to the preceding question.	The country is already so highly cultivated, that it is not likely an increase would take place if the commercial system of England was altered. The Dutch farmers will be very unwilling to change their system of culture and course of crops.	30 *s.* to 3 *l.* each. 10 *s.* to 30 *s.* 12 *l.* to 13 *l.* 7 *l.* to 12 *l.* 5 *d.* per lb. 25 *l.* to 50 *l.* 15 *l.* to 40 *l.* 15 *l.* to 40 *l.* 5 *l.* to 10 *l.* 4½ *d.* per lb. 3 *l.* to 4 *l.*
Bacon and Hams	50 tons of hams from Rotterdam only; 100 tons from all other places				45 *s.* to 55 *s.* per cwt.
Beef and Pork, salted Beer	not any exported				Beef, 5 *d.* per lb. Pork, 50 *s.* per 110 lb.
Butter	about 8,000 tons	1,000 tons of butter from Rotterdam only	6,000 tons of butter from Friedland; none from other ports.		9 *d.* to 12 *d.* per lb.
Cheese		7,000 of cheese from Edam, Gouda and Cantar.	7,000 of cheese probably from other ports, chiefly Edam and Cantar		3½ *d.* to 4 *d.* per lb.
Poultry Eggs					
Herrings, pickled and salted Codfish, ditto	not any exported				7 *d.* to 8 *d.* per 100.
Fresh meat of all kinds					Beef, 4½ *d.* per lb. Mutton, 4 *d.* per lb. Veal, 5½ *d.* per lb.
Fresh fruits	apples exported, the quantity not known; perhaps 100 tons.				
Horns Honey Lard Onions Sausages Potatoes and Vegetables generally	not any exported.				
Tongues	about 60 tons from Rotterdam only	100 tons, perhaps, from other ports			40 *s.* to 55 *s.* per cwt.
Feathers	not any exported.				
Linseed and Rape-seed cakes	10,000 tons from Rotterdam, 10,000 from other ports				5 *l.* 10 *s.* to 8 *l.* per ton.
Hops	not any exported.				
Hides	400 tons from Rotterdam, 100 from other ports				4 *d.* to 6 *d.* per lb.
Bark for tanning	about 25,000 tons from Rotterdam and Dort only				3 *l.* 10 *s.* to 6 *l.* 10 *s.* per ton.
Salt Fresh fish Beetroot for sugar	not any exported.				
Tobacco	about 500 tons from Rotterdam only.				
Hemp	not any exported		* About 5,000 is the average export of the last 10 years, of which, the crops for five years were abundant, and for the other five very deficient. Its cultivation is very expensive and discouraging, as the farmers obtain better prices for corn, rape-seed and flax, which yield a quicker return.		50 *l.* to 60 *l.* per ton.
Flax	about 4,500 tons from Rotterdam and Dort; none from other ports				35 *l.* to 85 *l.* per ton.
Cider Starch Tallow Wool Hay	not any exported.				
Bones	about 1,500 tons				4 *l.* to 4 *l.* 10 *s.* per ton.
Peas	2,500 quarters				33 *s.* to 38 *s.* per quarter.
Beans	2,500 quarters			There are four different qualities of madder, bearing different prices, mulls, ghaunus, ombros and crops; the latter being of the first quality and highest price.	38 *s.* to 41 *s.* per quarter.
Madder	about 3,000 tons from Rotterdam and Dort: none from other ports*				10 *s.* to 70 *s.* per cwt.
Spirits	about 35,000 imperial gallons from Rotterdam; about 15,000 from other ports				2 *s.* to 2 *s.* 2 *d.* per gallon.

PRICES.						
6. Highest and lowest prices for the last twenty years.	7. Probable prices if the commercial system was altered.	8. Circumstances likely to cause any change in the quantity at present exported.	9. Agricultural resources and capabilities.	10. Circumstances likely to effect those capabilities.	11. Causes likely to limit future production.	12. Salt. Is it a monopoly? If not, what duty does it pay?
-- Cannot be furnished.	-- See answer to question No. 4.	- There are no such circumstances; the question is scarcely applicable to Holland.	-- Every inch of ground in the vicinity of Rotterdam being already profitably cultivated, it is not probable that the agricultural resources can be increased.	- Not any -	- Not any -	-- Salt is not a monopoly. It is chiefly imported from England, France and Portugal, but principally from England. The imports from France and Portugal have of late materially decreased.
-- Exclusive of municipal dues, which are from 1⅛*d.* to 1¾*d.* per lb.						

BREMEN, Nov. 17, 1841.	EXPORTED. 1. Quantity usually exported.	2. Largest quantity in any year since 1815.	3. In what year.	4. Quantity likely to be exported if the commercial system of England was altered.	5. Prices in ordinary years free on board; or prices paid by the inhabitants for articles not exported.
Asses Goats		--Cannot be furnished,	--See answer to the last question.	--No change in the commercial system of England would have any effect upon the produce of Bremen, because it does not produce enough for its own consumption.	
Oxen	- - - - -	- - -	- - -		26 *s.* 8 *d.* to 8 *l.* 4 *s.* per 100 lbs.
Cows	- - - - -	- - -	- - -		4 *l.* to 5 *l.* each.
Calves Stallions	not any exported.				
Geldings	- - - - -	- - -	- - -		10 *l.*, 20 *l.*, 30 *l.*
Mares	- - - - -	- - -	- - -		the same.
Colts Mules					
Sheep	- - - - -	- - -	- - -	- - -	27 *s.* 9 *d.* per 100 lbs.
Swine	- - - - -	- - -	- - -	- - -	34 *s.* 8½ *d.* per 100 lbs.
Bacon and Hams	--average of 1838–39–40, Bacon 633,932 lbs., hams 699,932 - -	- - -	- - -	- - -	about 4 $\frac{3}{4}$ *d.* per lb.
Beef and Pork, salted	--salted and smoked Beef, 210,261 lbs. -	- - -	- - -	- - -	25 *s.* per 100 lbs.
Beer	not any exported.				
Butter	- - - - -	- - -	- - -	- - -	55*s.* 6 ½*d.* to 69*s.* 5 *d.* p' 100 lbs
Cheese	imported - - -	- - -	- - -	- - -	44*s.* to 48*s.* 7*d.* p' 100 lbs
Poultry	- - - - -	- - -	- - -	- - -	2*s.* per couple.
Eggs	- - - - -	- - -	- - -	- - -	4 *d.* per dozen.
Herrings, pickled and salted	not any exported -	- - -	- - -	- - -	25 *s.* per barrel.
Cod-fish, ditto	- - - - -	- - -	- - -	- - -	20*s.* to 30*s.* per cwt.
Fresh meat of all kinds	- - - - -	- - -	- - -	- - -	4 *d.* per lb.
Fresh fruits	--imported from Germany and France.				
Horns	imported from Brazil.				
Honey	--imported from the Havanna.				
Lard	- - - - -	- - -	- - -	- - -	4 *d.* per lb.
Onions					
Sausages	- - - - -	- - -	- - -	- - -	13 *d.* per lb.
Potatoes and Vegetables generally	not any exported.

PRICES.						
6. Highest and lowest prices for the last twenty years.	7. Probable prices if the commercial system was altered.	8. Circumstances likely to cause any change in the quantity at present exported.	9. Agricultural resources and capabilities.	10. Circumstances likely to effect those capabilities.	11. Causes likely to limit future production.	12. Salt. Is it a monopoly? If not, what duty does it pay.
-- Cannot be furnished.	-- See answer to question 4.	-- None whatever. A railroad was proposed from Bremen to meet one from the Rhine at Minden, passing through Hanover; but the King of Hanover refused, and the intention has for the present been abandoned.	-- Viewing Bremen as a depôt for the exports of Hanover and Hesse, it is probable that the capabilities of those countries for increasing agricultural produce (particularly corn of all kinds), might lead to some extension of exports from Bremen, provided the alteration of duties, on the importation of corn into England, was so reduced as to give an impulse to increased cultivation; but to what extent it is impossible to say.	-- None but what are adverted to in the answer to the preceding question.	-- None whatever.	-- Salt is not a monopoly. It is chargeable with a duty of two-thirds per cent. on importation, like all other articles. It is imported principally from England. Some is also imported from the Hanoverian salines for export to other parts of the Hanoverian territory.

HAMBURGH, Nov. 22, 1841.	EXPORTED. 1. Quantity usually exported.	2. Largest quantity in any year since 1815.	3. In what year.	4. Quantity likely to be exported if the commercial system of England was altered.	5. Prices in ordinary years free on board; or prices paid by the inhabitants for articles not exported.
Asses.	-- No authentic export lists are published, and no farther accurate details can therefore be given for any articles except salt meat and butter.	-- See answer to question 1.	-- See answer to question 1.	-- The agricultural district of Hamburgh being very limited, does not produce enough for its own consumption. No alteration in the commercial system of England would therefore have any influence upon the export trade of its own growth and production.

PRICES.		8.	9.	10.	11.	12.
6. Highest and lowest prices for the last twenty years.	7. Probable prices if the commercial system was altered.	Circumstances likely to cause any change in the quantity at present exported.	Agricultural resources and capabilities.	Circumstances likely to effect those capabilities.	Causes likely to limit future production.	SALT. Is it a monopoly? If not, what duty does it pay?
- - No Statistical Tables have hitherto been kept, from which this question can be answered.	- - See answer to question No. 4.	- - It is difficult to foresee what may be the effect of any railroads which may be constructed through Hanover into Prussia, of which some are in contemplation; but it is probable that some increase of agricultural produce may take place from the additional facility which will be afforded. From Holstein and Mecklenburg, part of the produce is at present conveyed by water, and part by land.	- - Hamburgh may be considered as the depôt of Holstein, Mecklenburg, and Lauenburg for such produce as is not necessary for their own consumption. The capabilities of those provinces are great, but it is very questionable whether their produce will, under any change of circumstances, be materially increased.	- - See answer to the preceding question.	- - No causes are foreseen which would be likely to limit future supplies.	- - Salt is not a monopoly. It pays one-half per cent. duty on its import. Hamburgh has no saline salt; it is imported partly from England, and partly from Hanover. There are no means of increasing its production, so far as is known.

* KIEL. Nov. 21, 1841.	EXPORTED. 1. Quantity usually exported.	2. Largest quantity in any year since 1815.	3. In what year.	4. Quantity likely to be exported if the commercial system of England was altered.	5. Prices in ordinary years free on board; or prices paid by the inhabitants for articles not exported.
Asses.	-- No import or export lists are published, and no farther particulars can therefore be given than those opposite the principal articles of export, viz. butter, linseed and rape-seed cakes, bones.	-- See answer to question 1.	-- See answer to question 1.	-- Under the circumstances adverted to, it is probable that the produce of corn for exportation might be increased from 25 to 30 per cent. At present and for some years past the attention of the farmers has been more directed to grazing.

PRICES

6. Highest and lowest prices for the last twenty years.	7. Probable prices if the commercial system was altered.	8. Circumstances likely to cause any change in the quantity at present exported.	9. Agricultural resources and capabilities.	10. Circumstances likely to effect those capabilities.	11. Causes likely to limit future production.	12. Salt. Is it a monopoly? If not, what duty does it pay?
-- This question cannot be answered. Reference may be made to the Consular Quarterly Returns.	-- It would depend entirely on the demand which might take place in England in consequence of any reduction of duty.	-- In a government like Denmark, whose power is absolute, it is impossible to calculate on the effect which might be produced by the construction of railroads.	-- They are very great, and capable of being rendered from 25 to 30 per cent. greater; dependent, however, upon the extent to which duties may be reduced in England.	-- See answers to questions 4 and 9.	-- Not any	-- Salt is not a monopoly. It pays a duty of 18 *s.* per ton. It costs only 16 *s.* per ton in England, exclusive of freight. The whole that is consumed is imported from England.

LUBECK, Nov. 27, 1841.	EXPORTED. 1. Quantity usually exported.	2. Largest quantity in any year since 1815.	3. In what year.	4. Quantity likely to be exported if the commercial system of England was altered.	5. Prices in ordinary years free on board; or prices paid by the inhabitants for articles not exported.

PRICES.		8.	9.	10.	11.	12.
6. Highest and lowest prices for the last twenty years.	7. Probable prices if the commercial system was altered.	Circumstances likely to cause any change in the quantity at present exported.	Agricultural resources and capabilities.	Circumstances likely to effect those capabilities.	Causes likely to limit future production.	SALT. Is it a monopoly? If not, what duty does it pay?
- - No statements have been kept from which it is possible to answer this question.	- - See answer to question 4.	None whatever -	- - The resources of the countries in the vicinity of Lubeck (Holstein and Mecklenburg) are very great, but it is questionable whether the produce can be materially increased under any circumstances. The population has increased, and the means of the people also. More will therefore be required for home consumption.	- - See answer to the preceding question.	- - None whatever.	- - Salt is not a monopoly. It pays a duty of $\frac{1}{8}$ *d.* per sack of four bushels from England, France, Portugal and Spain, and of 1*d.* per sack from Lauenberg and Abersloe. Some however comes from Portugal and also from Hanover. There are no means of increasing the quantity produced.

ROSTOCK. Nov. 30, 1841.	EXPORTED. 1. Quantity usually exported.	2. Largest quantity in any year since 1815.	3. In what year.	4. Quantity likely to be exported if the commercial system of England was altered.	5. Prices in ordinary years free on board; or prices paid by the inhabitants for articles not exported.
Asses		It is impossible to furnish this information, no records having been kept.	See answer to the preceding question.	What effect might be produced by an alteration in the commercial system of England it is not possible to say. The probability is, that a large quantity of pork which at present is sent to Prussia, might eventually find its way to England if the alteration was such as to warrant it. The same may be said of beef as well as of other articles, the duties on which are at present prohibitory.

PRICES.						
6. Highest and lowest prices for the last twenty years.	7. Probable prices if the commercial system was altered.	8. Circumstances likely to cause any change in the quantity at present exported.	9. Agricultural resources and capabilities.	10. Circumstances likely to effect those capabilities.	11. Causes likely to limit future production.	12. SALT. Is it a monopoly? If not, what duty does it pay?
- - Most farmers and proprietors of estates keep from three to eight blood mares, and some a well-bred stallion.	- - Prices will always depend upon the demand from England, and upon the extent to which a reduction of duty may take place in any modification of the commercial system of England.	- - The most important circumstance is the a tention which is beginning to be paid to the improvement of the roads in Mecklenburg, several of which, to the extent of 205 English miles, have been completed, and others, to the extent of 150 miles, are actually being constructed.. A railroad from Berlin to Hamburgh is also contemplated. The governments of Prussia, Mecklenburg and Denmark have also given their permission to construct it; and the states of Mecklenburg have offered in aid thereof the sum of 300,000 thalers, or 52,000 *l.* sterling. A canal is also contemplated to be cut from the Warrow to the Lake of Cracow, and from thence to the Lake of Plain, where it will connect with a canal which joins the Havel, the Espree, and the Elbe. All these measures are calculated to give greater facility to the conveyance of produce to market.	- - They are very great, and capable of considerable extension.	- - There is every probability, if facilities were granted in England to the importation of agricultural produce, that from 400,000 to 500,000 acres more might be brought into beneficial cultivation in the course of time.	- - None whatever.	- - Salt is not a monopoly. It pays a very small duty. It is imported principally from England, from 2,500 to 3,000 tons, and a little from St. Ubes.

STETTIN.

DEC. 3, 1841.

EXPORTED.

	1. Quantity usually exported.	2. Largest quantity in any year since 1815.	3. In what year.	4. Quantity likely to be exported if the commercial system of England was altered.	5. Prices in ordinary years free on board; or prices paid by the inhabitants for articles not exported.
Asses	*	There are no means of furnishing this information.	-- See answer to the preceding question.	-- Scarcely any of the articles enumerated being articles of export, it is not likely that any change in the commercial system of England would occasion any material alteration in the produce of them.

PRICES.

6. Highest and lowest prices for the last twenty years.	7. Probable prices if the commercial system was altered.	8. Circumstances likely to cause any change in the quantity at present exported.	9. Agricultural resources and capabilities.	10. Circumstances likely to effect those capabilities.	11. Causes likely to limit future production.	12. Salt. Is it a monopoly? If not, what duty does it pay?
-- No record is kept; the question cannot therefore be answered satisfactorily.	-- That would depend upon the demand from England, and upon the impulse which might be given by the alteration which might take place in the commercial system of England.	-- A railroad on which they have been at work about nine months, is now being cut between Stettin and Berlin by a public company, and is to be ready by 1843. This railroad, when completed, will in all probability give a great increase to the trade of Stettin, as it will afford great facility for the conveyance to that place for exportation, and to the capital for consumption of all produce raised in the country bordering on the line through which it passes. And connected, as it will be, by a steam navigation company in contemplation for opening an intercourse between Stettin, Dantzic, Konigsberg and Stralsund, &c., it is impossible to foresee to what extent the country may be benefited, and its produce be increased.	-- They are very great. The exports already are considerable, and for the resources stated in the answer to the last question, are likely to be increased; more especially so, if any alteration should take place in the commercial system of England, which would have the effect of giving an impulse to agriculture, by introducing the use of artificial manures, and other means for improving the soil now lying waste.	-- None whatever, except those adverted to in the answers to the two last questions. But it may not be irrelevant to observe, that the quantity of spirits distilled from potatoes is so great, that very little is ow obtained from grain.	-- None whatever. Produce of every kind is much more likely to increase than to decrease.	-- It is a monopoly on the part of the government. Of the means of increasing its production, there are none. There are in Prussia four or five salinesprings, where it is made, and they manufacture all that is possible. White salt, for domestic purposes, is obtained principally from Great Britain, a little from France and Portugal. Rock salt, to the extent of two or three cargoes, is also imported from England for consumption near Stettin; but by far the greater part of the rock salt consumed in Prussia is brought from Bohemia.

DANTZIC, DEC. 8, 1841.	EXPORTED. 1. Quantity usually exported.	2. Largest quantity in any year since 1815.	3. In what year.	4. Quantity likely to be exported if the commercial system of England was altered.	5. Prices in ordinary years free on board; or prices paid by the inhabitants for articles not exported.
Asses		There are no records from which the question can be answered.	See answer to preceding question.	It is not probable that any alteration in the commercial system of England would lead to any increased export of the articles enumerated.

PRICES.		8.	9.	10.	11.	12.
6. Highest and lowest prices for the last twenty years.	7. Probable prices if the commercial system was altered.	Circumstances likely to cause any change in the quantity at present exported.	Agricultural resources and capabilities.	Circumstances likely to effect those capabilities.	Causes likely to limit future production.	SALT. Is it a monopoly? If not, what duty does it pay?
-- There are no records from which this question can be answered.	-- See answer to preceding question.	-- No such circumstances are foreseen.	-- None whatever of the articles enumerated.	-- None whatever.	-- None whatever.	-- It is a monopoly by the crown, and pays a duty. It is imported wholly from England.

ELSINORE, DEC. 1841.	EXPORTED. 1. Quantity usually exported.	2. Largest quantity in any year since 1815.	3. In what year.	4. Quantity likely to be exported if the commercial system of England was altered.	5. Prices in ordinary years free on board; or prices paid by the inhabitants for articles not exported.
	Average of 10 years.			It is not possible to state the probable quantity of each particular article specified, as the amount to be afforded of each would mainly depend upon the real extent of the encouragement held out to the producer, and upon the influence of the seasons. From the caprice of demand and the relative state of prices, the amount hitherto afforded of one particular article may decline, in consequence of the rise of another. Thus, for instance, while there is a large demand in foreign markets for salted beef at rising prices, the exportation of it will increase at the expense of live stock. If the importation of wheat is allowed in England at a moderate duty, less rape-seed and other products requiring a good soil will be grown in Denmark for exportation, and *vice versâ* in other cases. Generally speaking, any alteration in commercial legislation tending to open a regular and permanent market to foreign agricultural products, will promote their cultivation abroad, and consequently effect an increase in the amount of supplies received from Denmark in years of common fertility. On the whole, after making due allowance for the contingencies above mentioned, the surplus of raw agricultural produce for exportation from Denmark may be fairly estimated at an advance of 25 per cent. upon the quantities specified in the first column, in the event of the changes alluded to actually taking place in England.	
Asses.

PRICES.

6. Highest and lowest prices for the last twenty years.	7. Probable prices if the commercial system was altered.	8. Circumstances likely to cause any change in the quantity at present exported.	9. Agricultural resources and capabilities.	10. Circumstances likely to effect those capabilities.	11. Causes likely to limit future production.	12. Salt. Is it a monopoly? If not, what duty does it pay?
in 1839, 4 $\frac{3}{4}$*d.* to 5 *d.* in 1835, 2 $\frac{3}{4}$*d.* to 3 *d.* Pork in 1839, 60*s.* to 62 *s.* in 1834, 43 *s.* to 46 *s.* Beef in 1839, 52 *s.* to 53 *s.* in 1834, 36 *s.* to 39 *s.* in 1840, *s. d.* *s. d.* 60 3 to 70 6 in 1835, *s. d.* *s. d.* 40 3 to 50 9 in 1838, 2 $\frac{1}{4}$*d.* to 4 *d.* in 1834, 1 $\frac{1}{2}$*d.* to 3 *d.*	In the event of foreign corn being admitted for consumption in England on payment of a moderate duty, the immediate consequence would most likely be a general rise of prices at the respective places of production. This, however, would soon again find its level; and although, on the whole, prices may perhaps be kept from 10 to 15 per cent. higher than the average prices of the last 10 years, as shown in the 5th column, yet it may be reasonably expected that they will be more steady and less subject to fluctuation than they have hitherto been.	- - Considering the insular situation of Denmark, and the nature and extent of her trade, it is not likely that any material change will take place in the reduction of the cost of conveyance of produce to the port of shipment, unless it should arise from the improvement of the public roads, in which very little progress has hitherto been made. Denmark, with the exception of the west coast of Jutland and Sleswick, abounds in small shipping ports, and the distance of the place of production from these ports being comparatively small, the conveyance thither by land is attended with as little expense as by water, the country being intersected in every direction by navigable friths and channels. The commercial intercourse between the Danish islands and England has also been greatly facilitated of late years, inasmuch as vessels of small burthen may now avoid doubling Scaw Point by sailing through the Agger channel, a passage caused in 1825 by an irruption of the North Sea into Sinsfiord; thus completely isolating the northern part of Jutland. But the best plan that could be adopted for the benefit of the trade generally, would be the establishing a convenient harbour on the west coast of Sleswick, either at Tonning or Husum, in conjunction with a railroad extending between such port and Flinsburgh.	- - Previously to the year 1784, Denmark, with corn laws prohibitory of exportation, hardly raised corn sufficient for the support of her own population; but at that period the nobles were lords of the soil and the peasantry were serfs. It was in the year 1789 that the Danish peasant was emancipated from this degraded state; many salutary laws were passed for bettering his condition. The commons were divided—the land enclosed—and, by the sale of large estates, in convenient lots, a numerous class of small landholders was created. From that time agriculture has taken a fresh impulse in Denmark, and it has ever since been steadily but slowly progressing, notwithstanding the pressure under which it naturally laboured in more recent times from the effects of a protracted war and a depreciated paper currency. But such has been the ultimate success of persevering industry, that now this country not only produces what is required for the wants of an increased population, but has also an annual surplus of nearly 1,000,000 quarters of corn and grain for exportation, besides other agricultural produce. The resources of the country, however, are far from being exhausted, because, although large tracts of land have been brought under cultivation since the peace, still several hundred thousand acres are left waiting for the plough; besides which, a great part of the land already under cultivation, especially in Jutland, may still be rendered more productive by an improved mode of tillage than it has hitherto been.	- - Much remains still to be done for the further development of the resources and capabilities of the country. The tenantry belonging to most of the estates having manorial rights, are still bound at stated periods, and according to regulation, to perform personal services on the manor. The tithes, very oppressive when they are levied in kind, are an additional burthen upon the small landholder and the peasantry, as the privileged estates are exempt from them. The peasantry are liable, besides, to perform certain services to the crown, such as furnishing vehicles and horses for the conveyance of civil and military officers, and mending the public roads. They are also exclusively drafted for the military service. But most of their grievances having already been brought before the Danish government, or discussed by the provincial states, it may be confidently expected that restraints of such a nature imposed upon the most industrious part of the population, will gradually, and at no very distant period, be removed; more especially so, as public opinion, which has pronounced itself against their continuance, gains ground every day. The abolition or modification of these last vestiges of feudal tenure will no doubt produce the most salutary effects; and nothing will tend more to stimulate the energies of the Danish landowner, and urge him to further improvements, than the opening of the British markets for the permanent sale of his produce upon the payment of fixed and moderate duties. It is scarcely necessary to add that the country seems to be particularly well qualified for the supply of the English market to a certain extent, as well from its nearness as from its commodious harbours, which are accessible during the greater part of the winter.	- - Although the population of Denmark has increased one-third since the beginning of the present century, yet so thinly is it spread over the country, that the number of people living on a geographical square mile does not exceed 2,060. But it must not be lost sight of, that in proportion to the increase of population waste lands are brought under cultivation, and rendered productive; that only a small part of the population (181 in 1,000) are employed in industrial pursuits; and that the culture of beet-root for sugar is not likely to be encouraged at the expense of corn, so long as Denmark is in possession of her West Indian colonies.—Under these circumstances the period would appear to be far distant when she will cease to have a surplus of agricultural produce to dispose of for exportation.	- - Salt is not a monopoly in Denmark, as the salt mines at Oldesloe in Holstein do not now, and probably never will, produce a sufficiency for consumption. A considerable quantity is annually imported from Liverpool, on which a duty of 5 *s.* 8 *d.* per ton is levied.

CORN.

	OSTEND.	ANTWERP.	ROTTERDAM.	BREMEN.	HAMBURGH.
1. What quantity of each sort of corn was exported in each of the last seven years?	-- It is not possible to furnish it for seven years.	-- It cannot be furnished by the Custom-house without authority from the Minister of Finance.	-- There are no regular returns attainable by which this question can be answered. 1838: 1839: 1840: Wheat - - 41,730 31,310 35,610 Rye - - - 13,770 11,061 5,120 Barley - - - 3,080 2,940 8,480 Oats - - - 4,650 8,730 13,300	-- It can only be furnished for the last three years, and its accuracy cannot be depended upon. The number of quarters was as follows:	Of Wheat as follows:— Quarters. In 1834 - - - - 68,413 1835 - - - - 40,631 1836 - - - - 101,180 1837 - - - - 110,178 1838 - - - - 276,901 1839 - - - - 379,401 1840 - - - - 380,550 and to 20 Nov. 1841 - - - - 502,081
2. What is the first cost of the various descriptions of grain at the market nearest to the place of growth, independent of any other charge, and of the expense of conveyance to the port from which they are exported, and of the charges attending shipment, as well as those of freight and insurance to England?	-- The price of corn at Furnes, one of the principal corn markets of the province, and the most distant one from Ostend, is at present as follows: Hectolitre. Wheat, 21*f.* 12 *c.* Rye - 13*f.* 16 *c.* Barley, 12*f.* 12 *c.* Oats - 8*f.* 14 *c.*	*s.* *s.* Wheat - 42 to 52 Rye - - 26 to 32 Barley - 24 to 27 Oats - 14 to 17	-- The present prices of native corn, exclusive of the charges alluded to, are as follows: Per. Qr. *s.* *d.* *s.* *d.* White Zealand Wheat - 39 0 to 52 9 Rye - - 32 0 to 36 0 Barley - 10 6 to 12 6 Oats - - 14 6 to 22 6	-- Corn is purchased by dealers from the farmers, and is sent by the former to Bremen; this question as to the cost at the place of growth cannot therefore be answered. The price at Bremen at present is per quarter for— *s.* *s.* *d.* Wheat - 48 to 54 0 Rye - - 28 to 33 6 Barley - 17 to 23 6 Oats - 12 to 13 6 Rapeseed 67 to 69 0	-- It is difficult to answer this question satisfactorily, as Hamburgh has no such markets, receiving all her corn from other countries. The nearest present value of good wheat at the different great markets is 50*s.* per imperial quarter, subject to the expenses of conveyance to the port of export. At very distant markets it may be something less, to afford the expense of extra transport. The price at the port of shipment free on board will be from 55*s.* to 60*s.* according to quality, and even higher for very superior samples.
3. What quantity of grain could be exported to England if the trade in corn in England was made constantly open at a moderate duty?	-- Not any, Belgium not growing sufficient corn for the consumption of its own inhabitants. The quantity occasionally exported is not large, and it is invariably only a temporary measure, being immediately replaced by a corresponding importation from the northern ports. The nearness of the port of Ostend to the London market enables dealers to take advantage of its fluctuations, and induces them, when the duty is low, to throw in all they can collect, taking the chance of replacing it, which they generally do with inferior corn.	-- Of Belgium growth not any. In transit there might perhaps be some dependent on the demand from England.	-- It is not likely that the exportation of native wheat, rye, or barley would be materially increased; but oats, beans, and peas would in all probability be cultivated more extensively. The reasons are these:—Dutch wheat and barley are not much esteemed in England, and rye is seldom an article of export; whereas Dutch oats, beans, and peas are held in great estimation. To estimate the quantity is impossible.	-- The quantity exported from Bremen would in all probability be about as follows:— Of Quarters. Wheat 40 to 50,000 Rye - 20 to 30,000 Barley 20 to 30,000 Oats - 30 to 40,000	-- This would depend on the state of the crops, on the quantity that could be spared, and on the prices in England. High prices always produce substitutes, and leave the dear article disposable for exportation.

CORN.

KIEL.

-- Of wheat as follows:

	Quarters.
In 1836	7,740
1837	9,217
1838	24,025
1839	24,393
1840	38,177

No account can be given for former years.

-- In Holstein the produce is generally delivered by the farmers into the merchant's granary at Kiel free of all charges. The merchant incurs no expense. The price paid to the farmers depends upon the quality and upon the demand.

-- From 25 to 30 per cent. above the ordinary export in the course of three or four years, if the duty to be levied in England was such as would encourage the increased cultivation of corn.

LUBECK.

-- The average quantity of each description of corn exported in the last seven years was as follows:

	Quarters.
Wheat	26,571
Rye	4,429
Barley	11,300
Oats	1,057

	s.	d.		s.	d.
Wheat,	37	7	to	43	8
Rye	29	1	to	32	9
Barley	17	0	to	18	2
Oats	12	5	to	13	6

-- For the first ten years it would probably not much exceed the average of the last seven or 14 years; but a steady market might ultimately lead to a somewhat larger cultivation of grain, although as most lands are already in cultivation, the increase could not be very great.

ROSTOCK.

Of wheat—

	Quarters.
In 1835	43,095
1836	63,700
1837	75,533
1838	89,492
1839	84,747
1840	97,565
1841,	124,267

The latter is for the three first quarters only, but it will include the whole year or nearly so.

-- In Rostock the farmers deliver their corn free of all charge into the granaries of the merchants.

-- It might be increased from 20 to 25 per cent.; but that would almost wholly depend upon the extent of the duty which would be imposed in England. It is not likely that the exports will ever exceed those of 1840 and 1841.

STETTIN.

Of wheat—

	Quarters.
In 1834	4,752
1835	418
1836	8,235
1837	42,944
1838	43,738
1839	170,842
1840	426,300
1841	259,846

The latter is to the 30th September of wheat brought to Stettin market; but it has not been yet ascertained to what country exported; in all probability five-sixths to Great Britain.

-- The farmers deliver their corn free of all charge into the merchants' granaries at Stettin. The price at Stettin depends wholly upon that of the English market: at present it is about 194 thalers per last, or 44*s.* sterling per quarter. For that corn which is brought from the interior of the country by the Oder (Silesia and Poland) the price paid to the farmer is at present, in Silesia, for wheat, (and other corn in proportion,) 180 thalers per last, or about 38*s.* per quarter, and about the same in Poland; but the latter being generally purchased from the growers by Jews, the prices cannot be given with accuracy.

-- About the following quantities:

	Quarters.
Wheat	25,000
Rye	40,000
Barley	30,000
Oats	20,000
Peas	10,000

Stralsund, including the province of New Pomerania, might export of—

	Quarters.
Wheat	100,000
Rye	30,000
Barley	30,000
Oats	10,000
Peas	8,000

DANTZIC.

Of wheat—

	Quarters.
In 1834	71,043
1835	45,129
1836	129,035
1837	314,601
1838	458,440
1839	419,055
1840	496,776
1841	420,030

to all places, chiefly England.

Flour, 56,495 barrels, of 196 lbs. each, to England in bond for exportation.

-- Corn is generally purchased in Poland by Jews, who sell it again to the merchants in Dantzic.

There is no means of ascertaining the exact sum per quarter paid to the grower. It is generally understood that 25*s.* per quarter is paid to the farmer, and that it costs 10*s.* per quarter to bring it down.

-- It is not considered probable that any material increase of production would take place under any change of the English corn laws.

ELSINORE.

-- The average quantities of corn exported from Denmark, including Sleswick and Holstein, in each of the seven years from 1833 to 1839, according to returns published by authority, were as follows:

	Quarters.
Wheat	140,989
Rye	127,521
Barley	388,063
Oats	126,986

-- The present system amongst factors and corn merchants on the Continent is to state their prices free on board, the price in the market not being always a certain rule to guide the purchaser. Danish corn is sold in the markets of Copenhagen and Hamburgh free on board, to be shipped from ports in the Danish provinces. The present prices of good ordinary qualities are, for

	s.	
Wheat	40	Per Qr.
Rye	28	
Barley	17	
Oats	11	

These prices include all charges except the following:

Brokerage, Bill, Stamps, Postages	About one per cent.
Commission	2 per cent.

Kiln-drying, when required, will cost 2*s.* per quarter, to which must be added freight and insurance. There is no duty on corn exported from Denmark.

-- Denmark is more adapted for the culture of barley than wheat. The exclusive tendency of the British corn laws has prevented a regular and permanent market for surplus produce. The farmers have therefore turned their attention to the culture of barley for the supply of Norway, which always affords them facility for converting their stock into money. Many experienced persons are of opinion that if the trade in corn in England was made constantly open at a moderate duty, wheat and corn generally would be grown in Denmark to a much greater extent than it is at present. So that from 150 to 200,000 qrs. of wheat, from 250 to 300,000 qrs. of barley, and from 200 to 250,000 qrs. of oats would be the smallest quantity that might be expected to be shipped annually for Great Britain in years of common fertility.

(*continued*)

——	OSTEND.	ANTWERP.	ROTTERDAM.	BREMEN.	HAMBURGH.
4. What would be the average prices free on board, per imperial quarter, of wheat, rye, barley, and oats?	*s. d.* Wheat 50 0 p' qr. Rye - 32 8 – Barley 29 8 – Oats 22 3 –	--That would depend on the demand from England.	--The probable price would be, of *s.* Wheat about 55 per qr. Rye - – 25 – Barley 20*s.* to 22 – Oats - 15*s.* to 22 –	*s. s.* Wheat 35 to 45 p' qr. Rye - 27 to 30 – Barley 22 to 25 – Oats - 12 to 15 –	--Under a fixed duty, prices would be ruled by those of England, less the duty, freight, insurance, and charges, unless other markets were higher. Hamburgh, it must be recollected, exports to other places as well as England, principally to Holland, often to France and Belgium; and grain has been shipped largely at times to Russia, Friedland, Sweden, Norway, Denmark, &c., as well as to America, Canada, Cape of Good Hope, Brazils, and other distant markets.
5. What would be the probable rate of freight per quarter to England?	--From 2*s.* to 2*s.* 6*d.* per quarter to London.	--From 2*s.* to 2*s.* 6*d.* per quarter, with 10 per cent. primage to London, and other ports in proportion.	--From 2*s.* to 2*s.* 6*d.* per quarter, and 10 per cent. primage.	--The same as at present, from 2*s.* to 3*s.* per quarter.	--A fair average rate of freight would be 3*s.* 6*d.* per quarter; but it varies greatly, as shown in the answer to question No. 2.
6. Would the exportation be subject to any other charges than freight and insurance?	Not any - - -	--A low duty of 25 cents. per kilogramme, or 4*d.* per quarter, when exported, which however is generally prohibitory.	--To duty outwards, metage, shipping, factorage, and commission.	--Shipping charges, consisting of various small charges, amounting to about 1*s.* or 2*s.* per quarter, exclusive of a commission of 2 per cent. on the value.	--Receiving charges, carriage to lighter, lighterage, brokerage and commission, amounting in the whole to from 2*s.* to 3*s.* per quarter.
7. If there was a regular and steady demand in England for foreign corn, could the quantity produced in the neighbourhood be materially increased without much difficulty in a short space of time?	--It could not be materially increased under any circumstances.	--It is not likely that the growth of corn in Belgium would be influenced by foreign demand, as it with difficulty produces sufficient for its own inhabitants.	--It is not probable that any additional quantity of corn would be raised in the neighbourhood under such circumstances.	--The quantity of corn grown in the territory of Bremen does not exceed— Quarters. Wheat 1000 to 1500 Rye - 3000 to 4000 Barley 2500 to 3000 Oats - the same; and it is not susceptible of any increase. As a depôt for Hanover and Hesse, it is probable that some increase might take place in those countries under the circumstances referred to; but it could not be in a short time, nor is it possible to say to what extent.	--A steady demand would, no doubt, increase cultivation, but the last four years of high prices has already done so as far as is easily practicable, and no great increase could be made in a short time in the quantity produced, unless favoured by an abundant harvest.

KIEL.	LUBECK.	ROSTOCK.	STETTIN.	DANTZIC.	ELSINORE.
-- That would depend on the demand.	-- As a fixed trade and duty would enable distant places (Odessa, America, &c.) to compete with the ports in the Baltic, prices would probably be rather lower than higher under such an alteration of circumstances. At present, countries adjacent to England can take advantage of momentary circumstances or lowness of duty, an advantage which they would lose under the change adverted to. Corn at present can be bought and kept warehoused in ports not too distant, till a low duty enables it to be imported with advantage.	-- That would entirely depend upon the duty which was imposed, and upon the demand from England.	-- That would depend upon the demand from England.	-- The price would depend in a great measure upon the encouragement afforded by the English markets. If the duty was moderate, the demand steady, and the crop in quantity and quality of fair average, wheat would generally be shipped at Dantzic, *free on board*, at from 40 *s.* to 45 *s.* per quarter. The quality takes a range of from 20 to 30 per cent.	-- The prices of corn in Denmark have during the last 25 years averaged, for Per Qr. Wheat - - - 28 *s.* 10 *d.* Rye - - - 19 *s.* 9 *d.* Barley - - - 14 *s.* - Oats - - - 10 *s.* 6 *d.* Considering the depression of the corn market during the greater part of that period, and that the prospect of a permanent sale of corn in England will be likely to render the Continental markets more steady and firm than they have hitherto been, it is probable that the prices *free on board* would not be much below the following quotations :— Per Imperial Qr. Wheat, from 30 *s.* to 31 *s.* Rye - - - 22 *s.* to 25 *s.* Barley - - 16 *s.* to 20 *s.* Oats - - - 12 *s.* to 15 *s.*
-- That would depend upon whether good shipping was plentiful or scarce. The usual freight is 4 *s.* per quarter.	- The same as at present; about 4 *s.* per quarter.	-- From 3 *s.* 0 *d.* to 4 *s.* per quarter to the east coast of England, and from 4 *s.* to 4 *s.* 6 *d.* to the west coast, Liverpool, Bristol, &c.	-- From 4 *s.* to 5 *s.* per quarter, as at present.	-- From 4 *s.* 6 *d.* to 5 *s.* per quarter. No change of duty will make any difference in freight.	-- It is not likely that any alteration in the English corn laws would make any alteration in the rate of freight.
-- Not any. Sound dues are not paid by vessels sailing from Danish ports, except when they go through the Holstein Canal, which seldom happens. The dues are from 3 *d.* to 6 *d.* per quarter.	Not any - - - -	-- An export duty is charged of about 4 *d.* per quarter. Shipping charges, inclusive of lighterage and the above duty, are about 1 *s.* per ton.	-- Not any, except screening for the voyage, and a commission of 2 per cent. on the invoice.	-- The charges for shipping would be the same as at present, from 1 *s.* to 1 *s.* 6 *d.* per quarter, unless the Prussian Government (which is not probable) should impose an export duty.	-- The phrase, *free on board*, includes all charges, except commission, brokerage, and stamps, amounting to about 3 per cent., which must be added to the cost, as well as freight and insurance.
-- *See* Answer to Question 3. The increase of the produce of wheat might be from 25 to 30 per cent. more than it is, if the rate of duties was so moderate as to encourage the necessary outlay.	-- The quantity could not be materially increased in a short space of time. Some years would be required, and even then, no very large increase could be expected, because the population is on the increase, and most of the land already under good cultivation.	-- It could not be materially increased in a short time, not more than 5 or 10 per cent. The ordinary rotation of crops would not admit of it.	-- Corn has lately been cultivated to a great extent, and cannot be materially increased in the vicinity of Stettin, because the rotation of crops is such that it cannot be easily altered in a short time. Much rape is now grown for oil, and potatoes for distilling; and a certain portion of pasture is reserved for stock. Formerly, hemp, oil, and tallow were imported to a great extent from Russia. That importation has now nearly ceased, sufficient oil and tallow being produced in Prussia for home consumption.	-- It is not probable that any material increase would take place.	-- In case of a regular and steady demand in England for foreign corn, the quantity produced in Denmark and Sleswick Holstein might, without much difficulty, be considerably increased.

(continued)

—	OSTEND.	ANTWERP.	ROTTERDAM.	BREMEN.	HAMBURGH.
8. If trade in corn was open at a moderate duty and the demand was regular and steady, would not importation be made direct from places where grown instead of being kept in depôt in other countries?	Certainly	No corn is sent in depôt to Antwerp.	If England continues the *sliding scale*, it is probable that Holland would still remain a depôt for foreign wheat; but if a fixed duty be adopted, the country would then cease to be a depôt.	This question is not applicable to Bremen.	Some small places would, no doubt, send grain direct, but that would not increase the total quantity.
9. What has been the produce of the late harvest?	Indifferent; below an average crop.	Wheat one-fourth less than in ordinary harvest. Rye equal to an ordinary harvest, but of inferior quality. Barley one-third less. Oats an abundant harvest, of very good quality.	It is not possible to ascertain the exact yield. With respect to quantity, it is not considered to have been deficient; but in point of weight, wheat, rye, and barley are light. Beans and peas are a short crop. Oats are considered as a fair average, but are not so heavy as in good years. Of native corn, except oats, there will be none to spare; but if prices range high in England, exports will still be made, in which case Holland will have to import before next harvest, to supply her own deficiency.	Nearly an average crop in point of quantity, but generally of an inferior quality.	The late harvest is very small in produce, in many instances not not two-thirds of the yield of 1840. Silesia has been favoured both in quantity and quality, and some Polish wheats are very heavy, but the quantity is short.
10. Has it been such as to render it probable that there will be much for export in case prices in England warrant it?	Merchants would purchase and export the whole if the prices in England warranted it, unless exportation was prohibited, and supply Belgium from other countries. Exportation ceases by law when wheat is 24 frs. per hectolitre, or 54 *s.* 9 *d.* per quarter.	If the winter is not severe, a small quantity of other corn may remain for exportation, but not of wheat.	*See* Answer to the preceding Question.	Not more than the quantity usually exported, which was of wheat in Quarters. 1838 - - 41,730 1839 - - 31,310 1840 - - 35,610	High prices will cause export, whether it can well be spared or not. The rye-crop is deficient, and there is no stock of old grain, particularly wheat, throughout all Europe. A better period for altering the corn laws could not therefore exist; for if there were abundant crops the granaries would be full, and England might be oppressed by large supplies. At present she is likely to require more than she can conveniently get, while there is only the surplus of coming crops to depend on.
11. What are the charges attending corn lodged in depôt?	1 ¾ *d.* per qr. per month for corn lodged in entrepôt, and 2 *d.* per quarter for discharging, carrying, &c.	By measure in the granary, per hectolitre.	Metage and carriage to granary per qr. 5 ¼ *d.* to 5 ½ *d.*; turning and keep per month 1 *d.* to 1 ¼ *d.*; rent and insurance per month ⅜ *d.* If subsequently it be shipped out of bond, it is subject to export duty; 5 ½ *d.* per qr. porterage and metage; 5 *d.* factorage, if not charged at the time of purchase; 1 per cent. on the value; commission ditto; on amount of cost and charges 2 per cent.	From 1 *s.* to 1 *s.* 6 *d.* per month for 10 quarters, and landing charges are from 3 *s.* 4 *d.* to 4 *s.* per month for 10 quarters.	The import duty on all articles is ½ *d.* per cent. The export duty is ⅛th per cent.; but corn pays neither import nor export duty.

KIEL.	LUBECK.	ROSTOCK.	STETTIN.	DANTZIC.	ELSINORE.
-- This question is not applicable to Kiel.	-- Very probably if there were ports near at hand, but the capitals of large commercial towns will generally command the largest su pply.	Certainly -	-- Certainly, the injury to which corn is exposed in a low damp country like Holland is very great.	-- Dantzic sends no corn to be kept in depôt in other countries; but consignments are sometimes sent to Guernsey and Jersey in small quantities.	-- If the trade of corn in England was made constantly open, the natural consequence would be, that the British merchant would again become the principal agent for the regular supply of his own country with corn directly from the place of its growth, and that British shipping would be employed to a much greater extent than it is at present in the carriage of grain under the present system.
-- In Holstein, it is generally a deficient one, perhaps one-third less than an average one for an early crop. The two last harvests have been not only late but bad.	-- It is generally considered to be under an average crop, both in quantity and quality, but how much cannot at present be ascertained.	-- It is deficient both in quantity and quality; perhaps not more than two-thirds of an average crop.	-- In quantity there will be about three-fourths of an ordinary crop of wheat, rye, barley, and peas. Of oats, the crop is abundant. The quality is indifferent, except in Silesia, where it is excellent.	-- Generally supposed to be about one-fourth less. The wheat and rye of very good quality, but very short in quantity.	-- Wheat has yielded less than an average crop, and although on the whole it is superior in quality to that of the preceding year, it is inferior in point of weight. The produce of rye may be estimated at one quarter below an average crop, and its quality in many districts cannot be used without being mixed with old rye. The barley crop has been abundant, although less so than last year, and it is of inferior quality. Oats have yielded a good crop, fully equal to that of last year. The colour is bright, and the weight varies from 76 to 78 lbs. Dutch.
-- All the surplus crop of the present year not received for consumption will be available for exportation, perhaps from 80,000 to 100,000 quarters of wheat. Of barley but little, as the greater part will be given to the stock.	-- Of this year's crop but a small importation is probable.	-- There will not be more than 200,000 quarters of all sorts for exportation. Of wheat, perhaps, from 80,000 to 90,000 quarters.	-- About three-fourths of the quantity exported last year depended upon prices; but the quality will not be so good.	- The quantity for export will be something less than that of the present year.	-- As regards the exportation of wheat, it is not expected to exceed 100,000 quarters in the course of next year. The Danish market has been completely drained, owing to the continual demand from England, during these latter years. The exportation of barley and oats will, on the other hand, most likely take place on a large scale, if the prices in England at all warrant it.
-- About 2*d.* per quarter per month.	-- Brokerage, delivery, metage on entrance, corn porters, metage on delivery, lighterage, warehousing, turning and screening, about 11*s.* sterling.	- There is no corn in depôt. When stored by private traders, the charge is about 2*d.* per qr. per month.	-- Corn is not lodged in depot.	Upon 1,000 quarters. £. s. d. Metage in granary - - 5 – – Delivery - - - 1 4 6 Porterage down - - 9 – – Meter's fee - - - 2 – – Town dues - - - 3 15 – Lighterage - - - 10 – – Expenses to the roads - 2 10 – Commission 2 per cent. The above are the charges if bought and shipped from the granary, but if bought and warehoused previously to shipping, the following charges are incurred: Metage from Craft. Porterage up, meter's fees, and town dues - - } are the same. *Additional.* Granary rent - - 3*d.* Labourers - - 6*d.* Turning - - 7½*d.* Screening - - 6*d.* } per last of 10¾ quarters p. month Insurance against fire.	-- The charge generally established for grain sold and kept in the seller's store on purchaser's account, in order to avoid the expense attending its removal, is as follows: per Quarter. For measuring on delivery - - - 1*d.* Warehouse rent, per month - - - 1½*d.* Turning, per month 1½*d.* Exclusive of the loss in measure.

(*continued*)

	OSTEND.	ANTWERP.	ROTTERDAM.	BREMEN.	HAMBURGH.
12. At what price per quarter can corn of different descriptions be delivered in England in ordinary seasons?	-- This is difficult to answer, because Belgium does not export corn in ordinary seasons. It is only when there is an extraordinary demand in foreign countries that any export takes place.	-- The same answer as at Ostend. The present price is from 51 *s.* to 56 *s.* per quarter.	-- From 35 *s.* to 37 *s.* per quarter is considered to be a remunerative price to the Dutch farmer.	Per Quarter. Wheat - 38*s.* to 48*s.* Rye - - 28*s.* to 32*s.* Barley - 23*s.* to 28*s.* Oats - - 15*s.* to 18*s.* Peas - - 30*s.* to 35*s.* Beans - 28*s.* to 39*s.*	-- This question cannot be answered satisfactorily, as the price always depends upon so many contingencies.
13. 1. What is the ordinary price of corn per quarter at the place of growth?	-- The price of wheat at— Per Qr. Louvain, 51*s.* 2*d.* Brussels, 50*s.* 6*d.* Liege - 46*s.* 3*d.*	*s. d.* *s. d.* Wheat, 51 - to 56 2 Rye - 30 2 to 32 3 Barley, 25 - to 27 1 Oats - 13 6 to 16 8	-- *See* Answer to Question 2.	-- It cannot be given, for the reasons stated in Answer to Question No. 2.	*See* Answer to Question 2, where the subject is fully discussed.
2. What are the charges in carrying it to the port of shipment?	Per Qr. Loading - 10 cts. Lighterage, 35 – Commission at Louvain, 15 – Export duty Petty expenses, commission, &c.	- - -	-- On wheat, rye, barley, beans, and peas, about 8*d.* per quarter, and on oats from 1 *s.* to 1 *s.* 4 *d.* per quarter.	-- It varies, according to the distance from the port of shipment, from 5 to 10 or 12 rix dollars of 3 *s.* 4 *d.* each for 10 quarters.	Refer to No. 2, as above -
3. What is the amount of freight, insurance, and other charges, in exporting it to England?	-- Freight to London from 2 *s.* to 2 *s.* 6 *d.* per quarter. Insurance, ½ to ¾ per cent. in summer, and from 1 ¼ to 1 ½ in winter.	- - -	-- Freight, 2 *s.* to 2 *s.* 6 *d.* per quarter; insurance, ¾ to 1 per cent.; export duty is uncertain: shipping, about 5 ¼ *d.* per quarter; commission, ½ per cent.	-- Freight would be from 2 *s.* to 3 *s.* per quarter, and insurance from 1 to 1 ½ per cent. There would be no other charges.	Refer to No. 2, as above -
14. What is the estimated stock on hand?	Not any - -	Wheat - 70 qrs. Rye - - 86 – Oats - 2,414 – All of foreign growth, imported from Odessa and Riga, and warehoused in the general entrepôt for exportation.	About 85,000 quarters.	Wheat - 15,000 qrs. Rye - - 30,000 – Barley - 6,000 – Oats - - 7,000 –	-- There has seldom been so small a stock of grain on hand. It may almost be said that none remains.

KIEL.	LUBECK.	ROSTOCK.	STETTIN.	DANTZIC.	ELSINORE.
-- The farmers in Holstein will prosper as long as wheat can be delivered in London in bond at 35 *s.* per quarter, with a fixed duty of 8 *s.* per quarter.	-- Wheat at 45 *s.* per quarter, and other corn in proportion.	-- Wheat varies according to demand, from 20 *s.* to 50 *s.* per quarter, other corn in proportion. Wheat, at present rents, cannot be delivered in England at *s.* 40 Less than 40 Charges of sale, &c. - - 5 Per quarter 45	-- Cost at Stettin of one quarter of— *s. d.* Wheat - - - 35 – Freight - - - 4 6 Insurance - - 1 – Sound dues - - – 6 41 – Factorage, commission, metage, and expenses of sale - 4 6 45 6	-- Wheat from 40 *s.* to 45 *s.* per quarter, and other corn in proportion.	
-- The market price is that of Kiel. The price at Kiel depends on demand. At present it is 18 marcs per barrel.	-- The farmers deliver their corn into the merchant's store free of all charge.	-- The farmers deliver their corn into the merchant's store free of all charge.	-- 1. The farmers deliver their corn free of all charge into the merchant's stores.	-- The ordinary price of corn at the place of growth, as stated in *Answer* to Question 2, is understood to be 25 *s.* per quarter.	-- 1. The prices of corn per quarter paid in the interior are scarcely to be ascertained with any degree of accuracy. They vary considerably, almost each province, and even each town, delivering a different quality of grain. The prices that have been paid in the provinces during these latter years, so far as the same can be ascertained, appear not to have exceeded the following: Per Quarter. *s. d.* *s. d.* For Wheat - 23 6 to 29 – Rye - 17 – to 20 – Barley - 10 9 to 15 6 Oats - 8 6 to 10 6 And in 1841: For Wheat - - 35 – Rye - - 23 – Barley - - 16 6 Oats - - 11 – The prices, however, quoted for this year cannot be relied on implicitly, as a difference of opinion on the subject prevails, even among persons conversant with the matter.
-- None whatever. It is delivered by the farmers into the merchants' granaries, free of all charges.	-- Not any. *See* the above Answer to the preceding Question.	-- It is carried by the farmer's own waggons.	-- 2. Freight from Silesia is at present nearly 5 *s.* per quarter, owing to the want of water in the river. A general practice now prevails of buying corn in Silesia and Poland, deliverable at Stettin; the merchant thus releasing himself from all uncertainty as to charges for conveyance.	-- The charge in carrying it to Dantzic is said to be 10 *s.* per quarter.	2. The charges naturally vary considerably, according to the seasons of the year, distance, and mode of conveyance, &c. The freight of grain by water from the provincial ports to Copenhagen, Kiel, or Elsinore may be computed at from 1 *s.* 4 *d.* to 1 *s.* 8 *d.* per quarter, adding to the cost of conveyance the expense of removing, warehousing, and turning the grain, putting it into condition, loss in measure, and shipping charges. The total expense at the port of shipment would amount to from 2 *s.* to 2 *s.* 6 *d.* per quarter greater, on an average, for the several descriptions of grain.
-- Commission, 2 per cent.; insurance, 3 per cent.; freight, 4 *s.* per quarter.	-- Sound dues, 5 *d.* per quarter; freight, 4 *s.*, and insurance 2 per cent.	-- Duty, lighterage, metage, cartage, rent, and turning; commission, 2 per cent.; bill brokerage, &c.; freight; insurance, which varies very much, from 1 per cent. in May to 10 per cent. in January.	-- 3. Freight about 4 *s.* or 5 *s.* per quarter. Insurance in summer, ½ per cent.; in winter, as at present, 5 per cent. The total charge, including Sound dues, is about 6 *s.* per quarter; to which must be added the charges and expenses attending the sale when taken from the ships in England, about 4 *s.* 6 *d.* or 5 *s.* per quarter, making in the whole about 10 *s.* 6 *d.* per quarter when sold in England.	-- Freight, insurance, and other charges of exporting to London, about the same as at Stettin, 10 *s.* per quarter.	3. The rate of freight of grain from Copenhapen, Kiel, or Elsinore, to England, depends in a great measure on the season of the year, and the size of the vessel taken up. Large British vessels are engaged for less freight than smaller Danish ones, loading from 400 to 500 quarters, although the latter are well adapted for the corn trade. The freight of wheat to the east coast of England, in ordinary times, varies from 3 *s.* to 3 *s.* 6 *d.* per quarter in summer, and from 4 *s.* 6 *d.* to 5 *s.* per quarter in autumn; and for the other sorts in proportion. To the ports on the west coast and in the Channel the rate is generally from 3 *s.* to 6 *s.*, and sometimes even 1 *s.* higher, all with 5 per cent. primage. Insurance, including charges, according to the season of the year: to the east coast, 1 ½ to 3 per cent., to the west coast, 2 to 4 per cent.
-- None in the hands of the merchants; not 1,000 quarters of wheat, but little barley, and no oats, peas, or beans.	-- None of the old crop. Of the new— Qrs. Of Wheat - 4,800 Barley - 1,200 Oats - 600 Rye (old) 3,600 The exportation of oats has of late very much decreased; less has been grown, and more consumed.	-- Not more than 5,000 quarters.	-- About 5,000 or 6,000 quarters.	-- It will, at the close of the season, be about 80,000 or 100,000 quarters. Last year there was only about 40,000 quarters remaining.	Not any.

(*continued*)

—	OSTEND.	ANTWERP.	ROTTERDAM.	BREMEN.	HAMBURGH.
15. From what places is corn imported, and the quantities from each place?	Principally from Riga, Dantzic, and Odessa. In 1839, wheat was imported into Belgium, generally by land, from Prussia and Holland, 60,000 quarters; by sea, from Russia and Prussia, 65,000 quarters; and there was exported 12,400 quarters, one-half to France, one-half to England.	Principally from Odessa and Riga.	From the Baltic and the Rhine; but no returns are published from which the quantities from each can be ascertained.	1. From the interior of the country, Hanover, Brunswick, and the other States on the shores of the river Weser. 2. Coastwise, from the Hanoverian and Oldenburg territories; and, 3. By sea, from Denmark, Holstein, Mecklenburg, Prussia, and Russia.	From Holstein, Schubreck, Jutland, and all the Danish islands. Hanover, Brunswick, Mecklenburg, Prussia, Saxony, Silesia, Bohemia, and even Poland, as well as Russia, when prices are moderate there.
16. What are the present market prices?	Wheat from 51 *s.* 9 *d.* to 53 *s.* 4 *d.* per quarter.	Per Quarter. *s. d.* *s. d.* Wheat, 51 0 to 56 2 Rye - 30 2 to 32 3 Barley, 25 0 to 27 1 Oats - 13 6 to 16 3	Per Quarter. *s. d.* *s. d.* Wheat - 39 8 to 52 6 Rye - 32 8 to 36 8 Barley - 19 2 to 23 2 Oats - 15 6 to 23 4 These are the market prices, not the shipping prices free on board.	Per Quarter. *s. d.* *s. d.* Wheat, 48 0 to 54 0 Rye - 28 6 to 33 6 Barley, 17 0 to 23 6 Oats - 12 0 to 13 6	Per Quarter. *s. d.* *s. d.* Wheat - 50 10 to 62 8 Rye - 34 0 to 34 8 Barley - 21 6 to 23 1 Oats - 15 6 to 16 10
17. Has any corn of this year's growth been exported to England?	Not any.	Not any.	Not any.	About 3,000 quarters of wheat.	Not any.
18. Is any annual statement published of imports and exports?	One is published for the whole kingdom.	See the Judicateur d'Anvers, which shows quantities but not value.	A return is regularly transmitted every year from the consulate to the Foreign Office, showing the imports and exports.	An annual statement of exports has been published for the last three years.	No annual statement is published.
19. Is any tariff published of duties on imports and exports?	A tariff of duties is published.	One was published, but it has been out of print since 1839. A new one will be published in Feb. 1842.	A tariff is published. The last one was printed in 1828.	The duties on imports are two-thirds per cent., and on exports one-third per cent. upon the declared value given in by the importer or exporter on the faith of his oath as a citizen.	A list of imports is published, but not of exports.

KIEL.	LUBECK.	ROSTOCK.	STETTIN.	DANTZIC.	ELSINORE.
-- Corn is rarely imported into Kiel. It is all grown in Holstein.	-- From Holstein and Mecklenburg, but in former years it has been imported from Russia, Denmark, and Prussia, for re-exportation. For the last two or three years, corn has been exported to Russia and Sweden.	-- It is brought in by the farmers from the country.	From Poland - 1-10th Silesia - 6-10ths the Mark - 3-10ths	-- From Poland only	-- Denmark being a corn producing country, her importations are limited to rye and wheat from the Baltic in years when the harvest has proved deficient; the former for the purpose of mixing with the domestic article, and for the supply of Iceland and the Faroe Islands. Of late years from 20,000 to 30,000 quarters of wheat have been annually imported from Pomerania and the lower Baltic ports for the use of the flour mills at Copenhagen, from whence it is exported in the form of flour and ship biscuit to Newfoundland and other ports.
Wheat, 18 marcs per barrel. Barley, 20*s.* per qr. Oats } No price. Rye } Holstein wheat is inferior in quality to that of Dantzic.	*s. d. s. d.* Wheat, 47 0 to 48 6 Rye - 33 11 Barley, 21 3 Oats - 15 4	*s. d. s. d.* Wheat, 31 0 to 50 0 Rye - 20 0 to 33 0 Oats - 10 0 to 14 6 Barley, 15 6 to 18 3	*s.* Wheat - 50 per qr. Rye - - 27 – Barley - 18 – Oats - 14 – Peas - 27 –	*s. d. s. d.* Wheat - 43 0 to 54 0 Rye - 26 0 to 28 0 Barley - 16 0 to 22 0 Oats - 9 4 to 11 0	-- No transactions of importance have of late taken place, arising from the advanced state of the season, and prices must therefore be considered as merely nominal. They are as follows: *s. d. s. d.* Wheat - 32 7 to 42 0 Rye - 25 7 to 30 5 Barley - 16 0 to 17 6 Oats - 9 4 to 11 2 Their eventual rise or fall towards the re-opening of the navigation in the spring will mainly depend upon the state of the British corn market at that period.
-- Not any.	-- About 3,000 quarters.	-- Not any.	-- About 5,000 or 6,000 quarters.	-- Not any.	-- Not any.
-- An annual statement is published.	-- No annual statement is published.	-- No annual statement is published.	-- No annual statement is published.	-- One is published at the end of each year.	-- No official returns are ever published of imports, probably because it would tend to expose the fallacy of the present system of duties, by throwing too glaring a light upon the extent to which the illicit trade in manufactured goods is carried on in Denmark. An official statement of exports is published.
-- Exports are nearly free.	-- The import duty is very low, only ½ per cent. There is no export duty.	-- On imports generally the duties do not exceed 3 per cent. On exports not more. Since the year 1748, no alteration in the customs has been made. The latest tariff is of that year.	-- A tariff is published, but could not be obtained.	-- A tariff is published.	-- The Danish tariff is dated the 1st of May 1838. A translation of it, with a synopsis of the Danish customs laws, was sent to the Foreign Office, for the information of the Board of Trade, in 1839. Letter No. 12.

SHIPPING. - - - - - - -

Bark, 10 *s.* to 12 *s.* Linseed - - 10 *s.* Flax - - - 15 *s.* Tow - - - 25 *s.* And to other ports in proportion.	- To London, with 10 per cent. primage: Per ton. Hemp - - 20 *s.* Bark 12 *s.* to 5 *s.* Zinc - - - 7 *s.* Measurement goods from 3 *d.* to 4 *d.* per foot; and to other ports in proportion.	- - Corn, 2 *s.* to 2 *s.* 6 *d.* per last, and 10 per cent. primage; heavy goods, 8 *s.* to 10 *s.* per ton, and 10 per cent. primage; madder, 15 *s.* to 25 *s.* per ton; flax, 30 *s.* to 40 *s.* per ton, and 10 per cent. primage. There is no difference between British and Dutch vessels.	- - Corn 2 *s.* to 3 *s.* per quarter; linseed cake, 10 *s.* to 12 *s.* per ton; bones, 15 *s.* to 18 *s.* per ton.	- - Corn 1 *s.* 6 *d.* to 2 *s.* per quarter to the east coast, and from 2 *s.* 6 *d.* to 3 *s.* 6 *d.* to Liverpool. Wool, 2 *s.* per cwt. Linseed same as grain. Rapeseed, 2 *s.* per quarter. Bones, 12 *s.* per ton. There is no difference as to the rate of freight between British and other vessels, provided they are equally good.
2. What would be the probable rate of freight if the trade was permanently extended in consequence of any alteration in the commercial system of England? 1. In British ships. 2. In foreign ships.	- - It is not probable that there would be any alteration.	- - There would be no alteration.	- - This would entirely depend upon shipping being plentiful or scarce.	- - The rate of freight will always depend upon ships being plentiful or scarce. It is not likely, therefore, that there would be any difference.	- - None whatever. The rate of freight will always depend upon ships being plentiful or scarce. English vessels are in general plentiful from the quantity of coals brought to Hamburgh.
3. What is the cost per ton of mercantile shipping built at —— when ready to commence the first voyage? For foreign trade. For home trade.	12 *l.* per ton -	- - 16 *l.* 18 *s.* 4 *d.* per ton for a ship of 300 tons, coppered and copper fastened.	- - For East India trade, from 18 *l.* 10 *s.* to 21 *l.* per ton; for the home trade, from 11 *l.* to 13 *l.* per ton.	- - About 10 *l.* per ton, copper fastened, but not coppered.	- - A ship of 500 tons was built last year for a New York liner, and cost 4,500 *l.* sterling, or about 10 *l.* per ton. She was built of the best materials, coppered, and had two suits of sails, was complete for sea in all respects, and was victualled for the voyage to New York. For the home trade, not coppered, the cost would be about 8 *l.* per ton.
4. What is the rate per month at which ships of different sizes can be navigated from ——? 1. Victuals. 2. Wages.	- - Provisions 30 *s.* per month, or 1 *s.* per day. Wages 36 *s.* per month.	- - For provision, 35 *s.* per month, or 1 *s.* 2 *d.* per day. For wages from 33 *s.* 4 *d.* to 36 *s.* 8 *d.* per month.	- - For provisions for a ship of 500 tons and 30 men, from 54 *l.* to 62 *l.* per month, or from 35 *s.* to 40 *s.* per man per month. For wages of captain and crew from 65 *l.* to 75 *l.* per month, or 34 *s.* per man per month, for seamen.	- Provisions 7 *d.* per day or 17 *s.* 6 *d.* per month. Wages from 30 *s.* to 40 *s.* per month.	- - Provisions about 25 *s.* per month, or 10 *d.* per day. Wages about 30 *s.* per month.

SHIPPING.

KIEL.	LUBECK.	ROSTOCK.	STETTIN.	DANTZIC.	ELSINORE.
-- 4 *l.* per ton for wheat and all other grain in proportion, according to the printed London rates. There is no distinction between British and foreign vessels, provided they are equally good.	-- 3 *s.* 6 *d.* to 4 *s.* 6 *d.* per quarter for corn to the eastern coast, and about 1 *s.* more to the western ports.	-- Wheat, 3 *s.* 6 *d.* to 4 *s.* per quarter. Rape and oil cakes, 18 *s.* per ton. Linen rags, which are a great article of export, 2 *s.* per cwt. to the east coast of England. There is no difference between British and foreign vessels.	-- Corn to London and the east coast, 4 *s.* to 5 *s.* per quarter. To the west coast, 5 *s.* to 5 *s.* 6 *d.* Present freight, 6 *s.* to 7 *s.* There is no difference between British and Prussian vessels.	-- Corn to London and the east coast, 4 *s.* 6 *d.* to 5 *s.* per quarter. To the western coast, 5 *s.* to 5 *s.* 6 *d.* Freightage back with salt causes the difference to be so small. To Guernsey and Jersey, 6 *s.* Ships have been plentiful at Dantzic, and they have got good freights. At Memel freights have been bad. Upon the whole there have not been so many ships as usual in the Baltic this year.	-- The rates of freight in British vessels of small tonnage, are at present:—For wheat to the east coast of Great Britain, from 4 *s.* 6 *d.* to 5 *s.* per imperial quarter, with five per cent. primage. During the summer the rates are lower, and seldom exceed 3 *s.* 6 *d.* per quarter. For wheat to the west coast, the ports in the Channel, and Ireland, the present rate may be quoted at from 6 *s.* to 7 *s.* per quarter. In summer it generally varies from 4 *s.* 6 *d.* to 5 *s.* per quarter, and for other sorts of grain and seeds in proportion.
			For cattle-bones to the east coast, from 18 *s.* to 25 *s.* per ton is paid; and to the west coast a few shillings more. Large vessels homeward bound must submit to lower terms. The rates of freight in Danish vessels are nearly the same as in British vessels of a convenient size. Almost the whole of the export trade from the numerous ports of Denmark to Great Britain, is carried on in fast-sailing Danish vessels, particularly adapted to the grain trade, and loading from 400 to 500 quarters each.		
-- There would be no alteration. The rate of freight will always depend on the plentifulness or scarcity of shipping. The rates will always be the same for vessels of equal qualities.	-- The same as at present.	-- There would be no alteration. Vessels are always abundant.	-- There would be no alteration.	-- There would be no difference. The rate of freight will always be in proportion to the number of ships high or low, as they are scarce or plentiful. The rate of freight for British and foreign ships will always be the same where ships are of equal qualities.	-- No alteration in the commercial system of England would be attended with any material benefit to British shipping, so far as the grain trade from Denmark is concerned. The small Danish vessels are well adapted to that trade, and can afford to sail at low freights; whereas the British ships sent out to the Danish ports with coals or salt, are too large, being of the burthen of 200 tons and upwards, for which reason they generally depart in ballast to look out in some port of Russia or Prussia for a freight, which pays them better. It is not likely that the rates would improve in consequence of the alterations above alluded to. The chief advantage that might probably accrue to the shipowner would be that resulting from a more frequent, regular and direct intercourse between the two countries, founded upon a fixed duty on grain on the one hand, and upon a moderate *ad valorem* duty upon manufactures on the other.
-- 12 *l.* per ton. Oak built, whether for home or foreign service.	-- About 8 *l.* per ton, whether large or small, but without ornamental decorations.	-- The largest vessels belonging to Rostock are about 300 tons, the greater part not exceeding 200 tons. The cost would be about 8 *l.* or 9 *l.* per ton. Iron fastened.	-- Ships are built as large as 400 tons. The common size is from 150 to 200 tons. The cost is about 6 *l.* 15 *s.* per ton, whether for home or foreign trade.	-- About 9 *l.* per Normal ton of 1 ½ tons, or 6 *l.* per ton British.	-- The cost of a vessel built at Copenhagen, and intended for foreign trade, copper fastened, with two sets of sails, is, when ready to commence the first voyage, about 15 *l.* per ton. The difference of cost between Copenhagen and the outports is held to be about 10 per cent. in favour of the latter; in consequence of which many of the ships owned at Copenhagen are built at Svendborg, Apenrade, and other places in the provinces.
-- Provisions from 25 *s.* to 35 *s.* per man per month. Wages: masters, 4 *l.* per month, with 5 per cent. primage. Mates, 3 *l.* Seamen about 30 *s.*	-- Provisions about 30 *s.* per man per month. Wages about 40 *s.* per month.	-- Provisions about 20 *s.* or 22 *s.* 6 *d.* per man per month. Wages from 30 *s.* to 32 *s.* 6 *d.* per month.	-- Provisions about 22 *s.* 6 *d.* per man per month. Wages for seamen, 24 *s.* per month. Mates, 48 *s.* Masters, 4 *l.* with 5 per cent. primage. The Masters are always part owners.	-- Provisions about 15 *s.* per man per month. Wages from 30 *s.* to 32 *s.* per man per month.	-- The rate per month at which a vessel of about 200 tons can be navigated from Copenhagen, appears to be For victuals, about - 12 *l.* For wages, about - - 16 *l.* A vessel of 136 ½ commercial lasts, corresponding with about 316 English tons, is stated to expend per month— For victuals, about - 20 *l.* For wages, about - - 22 *l.* There are no other expenses immediately connected with the navigation of a vessel, except insurance, which on an average amounts to about ¼ per cent. per month.

——	OSTEND.	ANTWERP.	ROTTERDAM.	BREMEN.	HAMBURGH.
5. Is it the practice, and if so, to what extent and in what articles, for British ships to call at —— when bound from England to foreign ports, in order to take on board provisions for the voyage for the use of their crews?	-- It is not the practice.	-- No such instance has occurred.	-- British vessels rarely call at Rotterdam, but every British vessel leaving the port usually victuals for the voyage.	-- Not applicable to Bremen.	-- There is no instance except where ships have been chartered in England to proceed to Hamburgh for the purpose of taking out emigrants to Australia. On such occasions they have generally victualled at Hamburgh. Several colliers also bring out cargoes in the spring, when on their way to Canada for timber, and complete their provisions at Hamburgh; and 30 or 40 vessels annually conveyed bread, flour, and salt meat to Newfoundland; but prices having for some time been low in America, supplies of these articles for Newfoundland have of late been sent from there and Canada.
6. Upon what voyages are the ships alluded to in the last article, usually bound?	-- See answer to the last question.	-- See answer to the last question.	-- To Great Britain, the Baltic, or to the East and West Indies.	-- See answer to preceding question.	-- See answer to preceding question.
7. What number of merchant vessels belong to the port of ——?	Ostend, 24 - 2,772 Bruges, 12 - 1,772 Ghent, 13 - 2,378 49 6,922	- - -	-- Many vessels belonging to other ports winter at Rotterdam.	212 in No.	193 on 1 Jan. 1841. 47,625 tons.
1. Square-rigged vessels of 300 tons and upwards.	None	12 ships or barques from 180 to 432 tons.	-- 1.—115 vessels engaged in the trade to Java; 20 to 30 other trades.	80 in No.	10 in No.
2. Vessels of other descriptions under 300 tons exclusive of fishing vessels.	As above: 49 vessels - 6,922	- - -	-- 2.—There are no exact returns, but the number is estimated to be about 100 exclusive of fishing vessels.	130 in No.	183 in No. 193
3. Fishing vessels	No. 102 - - Tons. 3,440	- - -	-- 3.—There are no fishing vessels, but many belonging to neighbouring towns.	2 only 212	

KIEL.	LUBECK.	ROSTOCK.	STETTIN.	DANTZIC.	ELSINORE.
- - Vessels coming from Newcastle with coals, replenish their provisions at Kiel. About 20 of 200 tons each come there annually. See the consular annual reports.	- - Not applicable to Lubeck.	- - Not applicable to Rostock.	- - Masters of British ships often provide themselves with salt and fresh meat for the voyage, but not with other articles.	- - Not applicable to Dantzic.	- - British vessels bound from England and other parts for the Baltic, call at Elsinore in order to pay the Sound dues, but not, in general, for the express purpose of taking on board provisions for the use of their crews. In cases, however, where ships have been detained by contrary winds, they replenish their stock with the articles of which they stand most in need, and which are chiefly confined to the following articles, viz. Meat, either fresh or salted; ship biscuits, potatoes, and other vegetables; spirits, particularly Cognac brandy and Dutch gin; and sugar, tea, coffee, and tobacco. With these last six articles, however, ships are not supplied now at Elsinore to the same extent as they were before the introduction of the measure allowing them to take their stores out of bond in England. The falling-off in the supply of spirits has been most conspicuous at Elsinore of late years.
- - See answer to preceding question.	- - See answer to preceding question.	- - See answer to preceding question.	- - British ships generally return to England, but they occasionally go to Rio Janeiro and other foreign ports.	- - See answer to preceding question.	- - British ships passing the Sound proceed from the United Kingdom, from the Mediterranean, and other foreign ports in Europe, and from those of the American continent and the West Indies, and *vice versâ*. The following number of British vessels called at Elsinore in the year 1840: 1. *Upward-bound.* From ports of the United Kingdom: 1,925 ships, 346,643 tons From foreign ports: 122 ships, 21,340 tons Total: 2,047 ships, 367,983 tons 2. *Downward-bound.* For ports of the United Kingdom: 2,008 ships, 362,338 tons For foreign ports: 16 ships, 2,808 tons Total: 2,024 ships, 365,146 tons
40 in No. - about 4,000 tons.	61 in No.	230 in No.	200 in No.	70 in No.	- - In the year 1838 the Danish mercantile marine (exclusive of fishing boats) amounted to 3,842 ships, of the burthen of 119,174 tons, old measurement, reckoning the Danish commercial last equal to two register tons.

—	OSTEND.	ANTWERP.	ROTTERDAM.	BREMEN.	HAMBURGH.
8. What is the tonnage of each of the above description of vessels?	Tons. Tons. 49 vessels under 300 6,922 102 fishing vessels - 3,440 10,362	No. Tons. 12 - 3,186 85 - 11,411 7 - 196 104 14,793	The square-rigged vessels are from 300 to 1,200 tons each, the others from 75 to 300 tons. 1. The gross tonnage of the 115 East Indiamen is about 66,500 tons. 2. Of the other vessels, square-rigged, above 300 tons, about 10,000 tons, exclusive of fishing vessels, about 20,000 tons. The following is the number of vessels trading to the East Indies from the different ports of Holland: Rotterdam - - - - 115 Amsterdam - - - - 156 Dordrecht - - - - 23 Schiedam - - - - 9 Middleburg - - - 10 The Hague - - - - 2 Tiel - - - - - 1 Zierikzee - - - - 2 Bois le duc - - - - 1 Maas Sluis - - - - 2 Total - - - 321 or by estimate about 185,000 tons.	50,950 tons; the tonnage of each description cannot be given.	No. Tons. 10 - 5,070 183 - 42,555 193 - 47,625
9. What tonnage or other port dues are chargeable at — 1. On British ships? 2. On ships under colours?	A British vessel of 200 tons would pay 42*l.* 9*s.* 3*d.* A Belgian vessel of the same size, 39*l.* 6*s.* 10*d.*	A British vessel of 200 tons pays 640 guilders, or 53*l.* 6*s.* 8*d.* sterling. British and Belgian vessels pay the same tonnage duty.	The tonnage dues are about 1*s.* 7*d.* per ton, and the port charges for a vessel of 500 tons, including outward and inward pilotage, amount to 168*l.* whether British or Dutch.	They are charged at the same rate: very small from 6*l.* 10*s.* to 8*l.* for a ship of 600 tons as above, and for smaller vessels in proportion.	British and Hamburgh vessels pay the same. The rates vary according to their destination, from 4*d.* to about 1*s.* per ton. Hamburghers enjoy the same privileges as British vessels do, when proceeding from the Hanse Towns ports.
10. What number of vessels entered the port of — in 1840, and what number departed, and what was the tonnage?	Entered. 395 in No. 58,847 tons. Departed. 373 in No. 57,216 tons. of which were British— No. Tons. Ent. 183 24,843 Dep. 104 24,894	Entered. 1,170 in No. 187,955 tons. Departed. 1,106 in No. 179,892 tons.	Entered. 1,968 in No. Tonnage and number of men not reported. Departed. 2,054 in No. Tonnage estimated at 265,000 tons.	Entered. 1,004 in No. 131,144 tons. Departed. 1,094 in No. 148,416 tons.	Entered. 359 Hamburgh vessels. 55,652 tons. Departed. 347 Hamburgh vessels. 60,252 tons.
11. What was the amount of British and foreign trade in 1840?	This cannot be given. A statement is published showing the quantities, but not the value of the several articles imported and exported.	Imports in 1840: British vessels 168 Tonnage 31,311 No. of crews 2,239 For. vessels 1,002 Tonnage 156,644 No. of crews 6,507 The value of imports cannot be given. British vessels from British ports in 1841 - 113 Tonnage - 20,379 Exports. British vessels - - 164 Tonnage - - - 30,886 No. of crews - - 2,213 Foreign vessels - - 942 Tonnage - - - 149,006 No. of crews - - 6,190 The value of exports cannot be given. British vessels to British ports in 1841, chiefly in ballast 165 Tonnage - - - 31,736	Imports into Rotterdam in 1840, from all countries, amounted to 7,816,240*l.* sterling: those from Great Britain to 3,180,480*l.* sterling. The exports amounted to 5,982,200*l.* sterling; those to Great Britain to 1,097,280*l.*	Imports, 1840: Ships entered 1,004 Tonnage - 131,144 No. of crews 7,086 Ships from British ports - - 247 Value of imports, 2,909,147*l.* 7*s.* 4*d.* Exports: Ships departed 1,094 Tonnage - 148,416 No. of crews 7,339 Ships to British ports - - 330 Value of exports, 1,988,571*l.* 8*s.* 7*d.*	Imports, 1840: Ships entered - - 4,075 Tonnage - - - 492,642 No. of crews - - 27,764 No. of British vessels - - - - 940 Tonnage - - - 190,270 No. of crews - - 10,319 Exports: Ships departed - 4,038 Tonnage - - - 491,916 No. of crews - - 27,775 No. of British vessels - - - - 925 Tonnage - - - 187,120 No. of crews - - 10,327

Note.—Wages per month: British navy, 34*s.*; British merchant service, 40*s.* to 45*s.*

KIEL.	LUBECK.	ROSTOCK.	STETTIN.	DANTZIC.	ELSINORE.

No. of Vessels. Tons. Of upwards of 300 - - 16 - - 6,547 From 200 to 300 - - 62 - - 14,069 From 120 to 200 - - 149 - - 22,852 From 60 to 120 - - 297 - - 21,338 a great proportion of which are employed in the carrying trade of other nations. The vessels of smaller burthen, the most numerous part of the whole, find occupation in the trade with England, the Netherlands, the Hanse Towns, Norway, the Baltic countries, and particularly in the coasting trade, which is very considerable, owing to the insular situation of Denmark. In 1804, before the war, the tonnage of the Danish commercial marine is stated, on an average of five years, to have been 140,956 tons In 1814, soon after the peace, it had declined to - - - - - 83,868 - In 1824 it had again increased to 113,847 - In 1838 to - - - - - - - 119,172 - which may be considered its actual state; and thus it has remained nearly stationary for the last 20 years.
1 *s.* 2 *d.* per ton. -- There is no difference between British and Danish vessels.	-- For a vessel of 240 tons about 5 *l.* 5 *s.* There is no difference between British and Lubeck vessels.	-- Very small; the lowest in the Baltic. There is no difference between British and Rostock vessels.	-- They are at various rates, according to the size of the vessels. There is no difference between British and Prussian vessels.	-- All British and Prussian vessels pay the same, according to their tonnage.	-- The tonnage and other port dues at Copenhagen on Danish vessels, when arriving with a cargo and departing in ballast, amounts to 3 *s* 5 *d.* per ton. When laden, both inwards and outwards, 4 *s.* 6 *d.* per ton is chargeable; and when coming from trans-Atlantic ports, a trifle more. British ships are not liable to higher port dues than Danish vessels.
Entered. 2,181 in No. 54,414 tons. Departed. 2,181 in No. 54,414 tons.	Entered. 831 in No. 94,158 tons. Departed. 839 in No. 96,516 tons.	Entered. 702 in No. Departed. 700 in No. Tonnage cannot be given in either case.	Entered. 1,744 in No. 170,348 tons. Departed. 1,593 in No. 170,834 tons. No. of crew - - 10,375	Entered. 1,383 in No. 213,347 tons. No. of crew - 10,375 Departed. 1,455 in No. 206,434 tons. No. of crew - 10,079	-- The number of vessels that arrived at Copenhagen in 1840 amounted to 4,360 of all sizes; and the number of departures was 4,584. The tonnage is not stated. During the same period there arrived 89 British vessels, amounting to 16,408 tons, chiefly coal-laden; while 90 ships, of 16,508 tons, departed, the greater part of which went to the Baltic in ballast.
Imports, 1840: Ships entered 2,181 Tonnage - 54,414 British ships from England, 15 in No. Tonnage - 2,400 Value of imports, 210,000 *l.* Exports: Ships departed 2,181 Tonnage - 54,414 British ships to England, 15 in No. Tonnage - 2,400 Value of exports, 320,000 *l.*	Imports, 1840: Ships entered 831 (British, 203.) Tonnage - 95,158 No. of crews not known. The value of imports cannot be given. Exports: Ships departed 839 (British, 21.) Tonnage - 96,516 No. of crews not known. The value of exports cannot be given.	-- No records have been kept by which this question can be satisfactorily answered. The greater part of the trade is with England. The probable amount is 5,000,000 of thalers, or 900,000 *l.* sterling.	Imports, 1840. 1,328,900 *l.* Exports; 1,105,505 *l.*	Imports, 1840: 380,280 *l.* Exports: 1,798,722 *l.*	-- Returns of imports and exports are not published, and no satisfactory answer to this question can therefore be given. The masters of British vessels are not bound to deliver their cockets, or a copy of the manifest, to their consul. An insight into the nature and extent of the British trade carried on, can, in the absence of official details published by the Danish government, alone be obtained from that source.

Victuals per day:—British navy, 1 *s.* 1 *d.*; British merchant service, 1 *s.* 3 *d.*

ADDITIONAL DETAILS.

The following details contain such information obtained at the several places visited as could not conveniently be introduced into the limited space allotted for each place in the Tabular statements.

OSTEND.

In 1836 Mr. Curry, the Consul, made to the Foreign-office a long and comprehensive report upon the agriculture, trade, and commerce of the province of Bruges, in which Ostend is situated. To that report he refers as containing all that can be said on the subject. The principal exports to England of agricultural produce are butter, poultry, eggs, fresh fruits, linseed and rapeseed cake, bark for tanning, tow spun from hemp and flax. Of animals, very few. The exports of butter, poultry, and fresh fruits, are said to have increased considerably in the last three years.

The quantity and value of the principal articles of export for 1840 are as follows, so far as the same can be ascertained:—

	Cwt.		*£.*
Butter	5,088	Poultry	2,825
Linseed and Rapeseed Cakes	20,484	Eggs	4,000
Bark for Tanning	76,345	Fresh Fruits	1,714
Tow	5,216		
Flax	20,614		

A *tableau général du commerce de la Belgique avec les pays étrangers* is annually published by the government for its own use, and that of the members, but not for sale. Accurate returns for a series of years can only be obtained from the same. A copy of this work for the last year, or perhaps for several years, may, it is said, be obtained without difficulty, if application was made by the Minister at Brussels to the Belgian government.

A work containing similar information is said to be in the press, and is expected to be published very soon.

Although the country is in the highest possible state of cultivation, its population is so great that it produces scarcely corn enough for its own consumption.

Whenever the demand in England has occasioned an exportation of corn, the quantity exported has generally had to be replaced from other quarters, often with corn of an inferior quality.

The following Table contains a comparative Statement of Exports from Ostend to England for the last seven years, extracted from official documents:—

YEARS.	To England only.	To all countries—England included.
	£. sterling.	*£. sterling.*
1834	157,754	709,560
1835	128,980	563,360
1836	188,040	451,160
1837	146,720	668,600
1838	234,200	569,800
1839	166,040	278,840
1840	138,680	235,000

The decrease of the exportation generally, or rather the increase in the first years of the last seven, is accounted for by the difficulties that attended the commerce with Antwerp, on account of political circumstances, which occasioned a portion of her trade to be diverted to Ostend.

ANTWERP.

For the reasons stated in the remarks on Ostend, no returns can be furnished of the quantities of the several articles of agricultural produce exported to England; but they are nearly the same as those from Ostend. One great article of export to England is flax, which is returned when spun; but measures are said to be in progress for preventing it, by the imposition of an increased duty, so as to give encouragement to the flax-spinning establishments of the country. Belgium has of late imported a coarse description of flax from Ireland. She exports large quantities of woollen cloth and linen to America, and also to the Mediterranean. Salt meat is imported from Hamburgh, and lately it has been an article of import from the United States. Beet-root has become extensively cultivated in Belgium, for the purpose of being manufactured into sugar, but not in the vicinity of Antwerp. It is said to be produced equal to one-third of the consumption. As Belgium with difficulty produces sufficient for its own inhabitants, who are said to consume considerably more than any people on the Continent, it is not probable that any alteration which may take place in the provision or Corn Laws of England, would lead to any increase of its exports to that country, beyond those which it exports at present.

The

ROTTERDAM.

The principal articles of agricultural produce which Rotterdam exports to Great Britain are butter, cheese, hams, tongues, fresh fruits, linseed and rapeseed cakes, hides, bark for tanning, flax, bones, madder, and spirits. Rapeseed cake, which is used for manure only, has been so high in price for the last four years that but little has been exported to England. When it exceeds 4*l.* per ton English farmers cannot purchase it with advantage. In conversation with one of the leading merchants, he observed that Holland had protective duties as well as England, and if the latter reduced the duties on provisions, corn, and other agricultural produce, the former would no doubt soon do the same; that he did not think that any reduction in the duties on provisions would give such an impulse to the agricultural interests of Holland as to occasion any important change in its produce; nor did he consider the natural resources and capabilities of the country to be susceptible of any material extension, added to which, the habits of the Dutch farmer would render him averse to any change in the cultivation of his land. There might, however, be some increase of produce, as 30,000 acres had lately been recovered in one place, and 60,000 acres more were in the course of being drained and reclaimed in another. Wheat, he added, the produce of Zealand, was considered to be of excellent quality, and that the same remark was equally applicable to Dutch oats; but that the produce of neither the one nor the other was supposed to be capable of any extension. Rotterdam, he remarked, was a depôt for Rhenish, rather than for Baltic or Prussian corn, but that it was not considered probable that any great additional quantity would be produced by any modification of the English commercial system, and that all merchants on the Continent desired a change, and would prefer a fixed duty to a sliding scale, because they could base their operations on safer data, if the duty was fixed. Holland had a sliding scale as well as England, but it was not popular. This latter opinion as to a fixed duty was not confirmed in subsequent conversations on the subject with merchants at other places. At Rotterdam, as in Belgium, tabular statements of imports and exports are not published. They have, however, been transmitted regularly to the Foreign office by Her Majesty's Consul.

A report was made to the Foreign-office, by Sir James H. Turing, Her Majesty's vice-consul at Rotterdam, on the 22d November last, on the working of the Dutch corn law of 1836, by which it appeared, that, upon the whole, the system was defective, and inadequate to the attainment of the objects for which it was adopted.

From these statements it appears:—

That the imports in 1840 were	£.7,816,240 sterling.
Of which there was imported from England	3,180,480
And from all other places	4,635,760
That the exports in 1840 were	5,982,200
Of which the exports to England were	1,097,280
And to all other places	4,884,920
That for the first two quarters in 1841 the imports were	3,489,280
Of which the imports from England were	1,331,160
And from all other places	2,158,120
That the exports for the same period were	2,483,320
Of which the exports to England were	548,520
And to all other places	1,934,800

The export of linseed depends much upon the state of the hay and turnip crops in England.

BREMEN.

No change in the commercial system of England would have the effect of increasing the exports of the produce of Bremen, because it does not produce sufficient for its own consumption; nor is it probable that Hanover and Hesse, for which countries Bremen is the depôt, would be likely to increase any of their exports, except in corn. The following provisions and other articles have been exported from Bremen in the last three years:—

	1838.	1839.	1840.
Bacon *lbs.*	977,220	702,466	222,110
Hams —	701,539	822,041	576,215
Salted and smoked beef —	410,686	181,917	38,191
Linseed and rapeseed cakes —	4,621,741	3,681,230	4,776,376
Bark for tanning —	1,767,542	2,373,829	1,812,712
Bones —	3,184,742	4,213,082	4,601,925

The

The following quantities of Corn, &c. were imported into Bremen in the last three years :—

			1838.	1839.	1840.
			Qrs.	*Qrs.*	*Qrs.*
1. From the Upper Country	Wheat		27,800	33,650	38,100
2. Coastwise and by sea	Ditto		10,250	650	1,350
	1. Rye		5,750	250	9,500
	2. Ditto		15,650	64,500	2,850

	2. Ditto		6,350	3,100	4,900
	1. Oats		4,750	9,750	21,115
	2. Ditto		16,700	11,200	15,500
	1. Peas		1,350	800	2,400
	2. Ditto		none	none	none
	1. Beans		1,500	none	1,000
	2. Ditto		2,000	200	200

The duty charged on imports is two-thirds per cent., and on exports is one-third per cent. It is levied upon the declared value, as given by the importer or exporter "upon the faith of his oath as a citizen," and the same practice is observed in other Hanse Towns. In September last, at the time the low duty was expected to take place, in the anxiety of the corn merchants to export all that was possible, wheat was bought from the bakers, in as small quantities as eight and ten quarters from each person, and an easterly wind enabled the vessels by which it was shipped to arrive in time. On that occasion some new wheat, too damp for shipment, was exported, which must have sustained considerable injury had not the wind been so favourable. There is an admirable institution at Bremen, supported by the merchants, ship-owners, and masters and mates of vessels, for providing for merchant-seamen, and their widows and families. This society lays down rules for the examination of masters and mates of merchant vessels, before they can be employed as such; and none are permitted to be so employed, until they have undergone the time of service required, as well as the prescribed examination. Here, in a small community, this system works in the most satisfactory manner, and there is no reason why it should not do so in one that is much larger, where some such institution is much required for preventing persons brought up to the sea from being placed in situations of trust and authority, where the lives, property, and safety of others are at stake, before they have had an opportunity of acquiring proper experience, and had their qualifications properly tested.

HAMBURGH.

It is equally as difficult at Hamburgh as it is in Belgium or Holland to procure an authentic account of articles of commerce imported and exported. Whether the practice has its origin in commercial jealousy, or is in any way connected with former times, when much business was from necessity carried on in contraband, and it is said even to be the case at present; or whether, as is asserted, no accurate statement can be rendered, because a great quantity of goods in transitu, of which, as no duty is charged, no account whatever is taken, the fact remains that no periodical returns are published, as is the case in England, and that the full extent of the commercial operations of this important commercial city cannot therefore be satisfactorily ascertained.

But there is much business transacted by Hamburgh merchants in other places, as well as Hamburgh, as will appear by the following statement. The greatest part of the wheat exported from Hamburgh to England comes down the Elbe, from Bohemia, Saxony, Anhault, Mark, &c.

The natural place of export for those countries is Hamburgh, and it will remain so under any circumstances, for the accommodation given by the merchant at Hamburgh to the merchant in the interior, by paying in ready cash, is so great, that the latter will always avail himself of it in preference to any other course. The ports in Holstein (Kiel, Nieustadt, &c.), and in Mecklenburg (Rostock and Wismar), make their shipments in like manner, very much for account of Hamburgh merchants, and the shipments from the Prussian ports in the Baltic are reported to be in a great measure effected at Hamburgh, upon the same principle, as the merchant in those places finds it more to his advantage to sell to the Hamburgh merchant, at a fixed price banco, than in any other way, because he thereby avoids the risk of loss by exchange when he draws or takes his reimbursement on the Hamburgh merchant. By these means the corn trade of Hamburgh has within these few years greatly increased. These facts as to the influence of the Hamburgh merchants on the corn trade are fully confirmed by a representation from Mr. Macgregor, Her Majesty's Consul at Elsinore, who in answer to a question asked of him by letter, replied as follows :—

" If the trade in corn was made constantly open in England, the natural consequences would be that the British merchant would again become the principal agent for the regular supply of his own country with corn, directly from the place of growth, and British shipping would be employed to a much greater extent in the carriage of grain than it is at present. The English corn laws have a general tendency to disturb the ordinary course of trade, and, as regards this country (Denmark) in particular, they have had the effect—1st. To make this government persevere in its system of high duties upon British manufactures; and, 2dly, to throw the trade of Denmark into the hands of the Hanse Towns, who now almost exclusively supply her with colonial produce and manufactures, and receive the surplus of her corn in return, to meet foreign orders in their own market. Hamburgh in particular thus becomes more and more the centre of trade between the states of the German Custom-house Union, and the northern countries, and it is a positive fact that the Danish corn market is no longer at Copenhagen, but at Hamburgh."

The only articles of export from Hamburgh for which a statement of the quantity exported in 1840 could be obtained, were salted meat and butter. Of the former, 7,489,056 lbs. were exported, and of the latter 2,682,058 lbs.

The

The following statement of grain exported for the last 10 years, and for the present year down to the 20th November, was obtained from one of the most intelligent of the city of Hamburgh corn merchants:—

Years.	Wheat.	Rye.	Barley.	Oats.	Peas.	Beans.	Malt.	Buck Wheat.	Rape-seed.	Tares.
	Imp. Qrs. of 11,1⅜ per Hamb'ro' last.									
1831	220,697	73,323	80,660	6,426	759	154	202	23	871	153
1832	139,082	32,418	9,213	14,605	75	53	136	37	1,294	72
1833	95,447	29,518	9,100	3,662	671	258	109	284	1,002	85

1841 1 Jan. to 20 Nov.	502,081	52,052	54,213	4,127	1,052					

Corn at Hamburgh, Dantzic, and other eastern ports is always bought and sold by the Dutch sack of two bushels, less 5 per cent.

The expense of conveyance from the interior markets to Hamburgh varies according to the distance, whether from Holstein, Mecklenburgh, Magdeburg, Saal, Saxony, Silesia, or Bohemia. It is from 3 *s.* to 10 *s.* per quarter, and in some instances perhaps even higher. Freight is equally uncertain; as there are no regular traders returning to the ports from whence they came, they will take any freight that offers rather than return in ballast at a time when no goods may be shipping. Thus in the course of the present year, 7 *s.* 6 *d.* per quarter has been paid, and also 1 *s.* 6 *d.* With a regular trade, 3 *s.* 6 *d.* would be a fair average rate. Insurance also varies materially, from ½ per cent. in summer to 3, 4 and even 6 per cent. in winter; and then only covering the property if stranded or lost, no average being paid for damage unless the ship takes the ground. With regard to shipping it was observed, that under the English navigation laws, Hamburgh ships were not allowed to bring cargoes into England from other countries than their own, as other foreign vessels were. An alteration, it was said, had been made in the English navigation law, by which under a treaty made with Prussia in 1840, Prussian vessels, as well as those belonging to the German confederation, were allowed to load for England in any ports between the Eyder (in Holstein) and the Maas (Rotterdam) articles the produce of the League. It was also observed, that another treaty had been made with Austria about seven years ago, permitting Austrian vessels to load at any port in the Black Sea for England. Not being possessed of these treaties, it was impossible to give any satisfactory reply; it was possible that an erroneous view may have been taken of the matter, but at all events it was obvious from the way in which it was mentioned that it had excited not a little jealousy, and, as was represented afterwards, had created at Rostock and other places a similar feeling, more especially so as it was considered to be a relaxation of the English navigation laws, of a partial rather than of a general nature.

Salt Meat.

Hamburgh has for some time past got into great repute for the excellent salt meat which is cured there, of which a considerable quantity is sent to England and lodged in bond for exportation. The following information was obtained:—

The quantity exported to England in 1840 was—

Of Salt Beef	3,000 tierces.
Salt Pork	1,000 tierces.
Bacon, Hams, Tongues, Sausages, Smoked Beef	A small quantity only was exported to England.

The quantity that might be exported from Hamburgh annually, would be—

Of Beef	from 5,000 to 6,000 tierces.
Pork	from 8,000 to 10,000 tierces.

If any additional demand was made for salt meat to export to England, beyond that which exists at present, it would, it was said, have the effect of equalising the prices in England and Hamburgh, perhaps not to so great an extent the first year, as it would afterwards. In England the prices would fall. In Hamburgh they would rise. The price at which salt meat could be delivered in England in navy packages, would, if admissible, be as follows:—

	£.	s.	d.
A navy tierce of salt beef, containing 38 eight-pound pieces would be	4	3	–
Freight, insurance, and all other charges	–	5	–
Per Tierce	£. 4	8	–

	£.	s.	d.
A navy tierce of pork, containing 80 four-pound pieces, would be	4	6	–
Freight, insurance, and all other charges	–	5	–
Per Tierce	£. 4	11	–

There

There was no case, as far as was known, in which Hamburgh salt meat had been admitted for consumption in England, upon payment of the established duty of 12*s.* per cwt.; but surprise was expressed that it had not been so (perhaps not aware that the importation of meat, fresh and corned of all kinds, is prohibited), as after paying the duty and all charges, it would still have afforded a profit of from 10*s.* to 17*s.* 6*d.* per tierce.

The price of smoked beef, which loses 25 per cent. in drying, was stated to be about 5¼*d.* per lb. Last year 1,000,000lbs. were sold at that price to the French Government, for the use of the troops at Algiers; and 1,200,000 lbs. of hay were also sent there, at the rate of 5*l.* 5*s.* 3*d.* per ton; viz.—

	£.	s.	d.
Cost of 1,000lbs.	1	12	–
Freight and all other charges, 15*s.* per 1,000 lbs.	–	15	–
Per 1,000 lbs.	2	7	–
Or per Ton of 2,240 lbs. delivered at Algiers	5	5	3
The price of Hay this year is 20*s.* per 1,000 lbs., or per Ton	2	4	9

Salt Meat at Dantzic.

A rival establishment having been formed at Dantzic upon a still greater scale, which was subsequently visited, it may be as well, though not in exact order, to advert to it here while on the same subject.

Not having, in the neighbourhood of Dantzic, the advantage of such fine pastures as those which are to be found in Holstein, and the cattle being worked in the plough from four to eight years before they are attempted to be fattened, and then in a great measure upon the refuse of the distilleries, the meat is too sinewy, and the fat too loose to bear the pickling process. The curing of salt beef has, therefore, been given up; but with pork, the success has been perfect. The hogs are all corn-fed, and killed in the establishment, and the meat is therefore sure to keep, when properly managed. Everything seemed to be conducted in a proper manner, and the meat appeared to be of excellent quality. The quantity exported to England last year was 5,000 barrels, which was afterwards exported to Australia. The price obtained was from 61*s.* to 63*s.* per barrel of 200lbs.; the present price is 62*s.* per barrel, free on board, in Dantzic. The parties connected with this establishment were equally as anxious as those at Hamburgh to tender for salt meat for the navy, to be contracted for next year, if permission can be granted.

KIEL.

The same difficulty exists at Kiel as at other places in obtaining accurate returns of imports and exports. No official lists are published, and no other particulars could be obtained than the following; viz.—

Butter	4,000,000 lbs.
Linseed cakes	from 200 to 300 tons.
Rapeseed cakes	from 800 to 1,000 tons.
Bones	400,000 lbs.

The above, with corn, are the principal articles of export. The quantity of corn exported in the last five years was as follows:—

	1836.	1837.	1838.	1839.	1840.
Wheat	7,740	9,217	24,025	24,393	38,177
Rye	1,415	1,712	924	1,714	1,900
Barley	6,270	5,531	4,424	36,148	18,571
Oats	–	1,650	473	898	6,164
Buckwheat	210	–	–	323	1,000
Pease	1,847	1,594	1,680	1,711	330
Rapeseed	13,072	14,835	15,725	11,269	9,333
Linseed	1,774	751	789	–	500
Flour, tares, beans, &c.	760	699	203	599	—

Farming in Holstein is carried on with considerable neatness, and great care is taken in collecting manure. The houses and farming buildings also appear to be in neat and excellent order.

Pork is sent to Hamburgh in large quantities, for the purpose of being salted. The pigs are killed on the farms and sent to Hamburgh in waggons, when the salting takes place. There is none salted at Kiel, and but little beef, the latter principally for their own shipping. Butter is sent to England direct from Kiel, and also to Hamburgh. England takes from two to three millions of pounds direct from Kiel, and Hamburgh the rest. The quantity cured in 1840 was about 4,000,000 lbs. The quality has of late greatly improved, and it is in constant demand in England. The price at which it is purchased is such that it can bear the present duty of 20*s.* per cwt. and leave a fair profit.

England, it is said, does not produce sufficient for her own consumption. The supplies received from Kiel, Holland, and other foreign ports, are of course indispensable. In 1818 the butter exported from Kiel did not exceed 1,000,000 lbs. At present it is 4,000,000lbs., owing principally to less corn being grown, and more land converted into pasture, the fluctuating nature of the corn duties in England rendering it more advisable to keep cows and make butter, where the profit is moderate and the demand steady, than to incur the risk and uncertainty of the corn market. All the crop of corn of the present year, not reserved for consumption, will be available for exportation, perhaps to the amount of 100,000 quarters of wheat; of barley, but little, as the greater part will be given to the stock.

LUBECK.

No accurate returns of imports were to be obtained at Lubeck, for the same reason as in other places. No official statements are published. The following particulars as to exports were alone to be procured:—

Linseed cakes	75 tons annually for the last 10 years.
Rapeseed cakes	400 — —
Bones	3 or 4 cargoes of 100 tons each.
Peas	4,000 bushels per annum for the last three years.

The corn exported from Lubeck comes wholly in ordinary times from Holstein and Mecklenburg. The average quantity exported in the last seven years has been shown elsewhere. Some useful information respecting the present state of agriculture in Holstein and Mecklenburg will be found in a letter from Her Majesty's consul at Hamburgh to Mr. Bidwell, dated the 21st of September last. The merchants at Lubeck as well as at Rotterdam, Bremen, and Hamburgh, are desirous that the corn laws of England should remain unaltered; but they admitted at the same time, that it was for the interest of Great Britain, as well as foreigners, that some modification should take place, in order that speculation might be diminished, the trade rendered more steady, the supply more regular, and the country be relieved from the great drain on its treasure, to which it was occasionally and sometimes suddenly exposed. The question to which merchants on the Continent looked at the present moment with great anxiety and more than any other, was the course which England would pursue and the extent to which she would feel it necessary to continue to give protection to British agriculture. If she should adopt a fixed duty at too low a rate, they were afraid of the competition of Odessa and America. All were aware that some change would take place. The anxiety was to know what that change would be, and how far their respective countries were likely to be affected by it. If the duties in England were moderate, there was, it was said, a capability of Mecklenburg, by the use of artificial manure and an improved system of husbandry, to extend the produce of the country from 25 to 30 per cent. The means of the proprietors were increased.

Many who were formerly in debt had cleared their estates, and the same had been the case with the small farmers. The price of estates had within the last four years nearly doubled, and whenever an estate was now to be sold, the competition amongst purchasers was so great as to run them up to an extravagant price. The interest of money, which did not exceed 3 or 3½ per cent. either at Lubeck or Hamburgh, gave great facility on these occasions. In the course of conversation, it was admitted that wheat grown in Mecklenburg could be delivered in England at 40*s.* per quarter, to which, adding 5*s.* per quarter for the expense of landing in England and bringing to sale, gave 45*s.* as the ordinary rate per quarter at which Mecklenburg wheat ought to be chargeable with duty. In speaking of Mecklenburg, it is impossible not to advert to their breed of horses, which even on the farms show a good deal of blood, are light and active; and, generally speaking, superior to any that are to be seen elsewhere in the north of Germany. They were also very good in Holstein. On one occasion in Mecklenburg three farmers' waggons, each with four horses, were met—the first bays, the second chesnuts, and the third greys—that would have been admired amongst the best-horsed mail coaches in England.

It is quite common, it is said, for four or five blood mares to be kept for breeding on estates of any magnitude. The French lately bought, under a contract in Hamburgh, which is nearly completed, 1,000 horses for cavalry. Those for chasseurs at 400 francs, or 16 *l.* sterling, each; and those for dragoons at 500 francs, or 20 *l.* each. The horses were chiefly from Mecklenburg. No expense is spared, either by the Grand Duke or others, in procuring the best stallions.

Mecklenburg Schwerin is equal to 223 geographical square miles, or, at 640 acres per square mile, 3,200,000 acres. Mecklenburg Strelitz is about 450,000 acres. Of these 3,650,000 acres, about one-third, is in tillage. The population in 1816, was about 340,000: it is now rather more than 500,000. At that time the exportation of wool did not exceed from 600,000 lbs. to 700,000 lbs. per annum: at present it is four times that quantity. The cattle kept at that time were not half the number that are kept at present. Still the exportation of corn has by degrees increased in the same period nearly 50 per cent. in quantity and kind. Formerly much less wheat, and more oats, were exported. Of rye and oats there is now scarcely any exported, nearly the whole being consumed. The people generally eat rye and not wheat bread. The farmers in Mecklenburg, it is said, contemplate keeping cows, and making butter for exportation, not only as a profitable and steady mode of the employment of capital, but as a more effectual means of raising manure for enriching their lands, and thereby increasing their corn crops. To show the extent to which the value of land is increasing, the following facts were stated:—1. For an estate that four years ago was bought for 90,000 thalers, 180,000 has been offered and refused, 200,000 being demanded and expected to be obtained. 2. In another case an estate has been actually sold for 170,000 thalers, which was bought only four years since for 85,000 thalers. Money is easily procured in mortgage at from 3 to 3½ per cent. Provisions generally are 50 per cent. dearer than they were 15 years ago: every housekeeper knows this.

ROSTOCK.

It is the same at Rostock as at the Hanse Towns; no official returns are published of imports and exports, and none are to be had except such as are obtained from private sources, which must of course be received with more or less caution according to circumstances. Of articles exported, the following were the only particulars which could be procured, viz.—

Linseed cakes	42½ tons	Perhaps double the quantity.
Rapeseed cakes	280 tons	

Is it not probable that articles of various kinds pass in contraband to neighbouring countries, and that this is the true reason why official tables of Imports and exports are not to be found in any of the Hanse Towns?

Wool	418,000 from Rostock
—	282,000 from the rest of Mecklenburg

altogether 800,000 lbs. to Denmark, Sweden and Prussia, and England by Hamburgh.

Bones	1,550,000 lbs.
Peas	9,503 qrs. from Rostock.
—	33,627 from the rest of Mecklenburg.
Exported	43,130 in 1840. Annual average from 20 to 25,000 quarters.

The following Tables show the exports of grain in the last seven years, as well from Rostock as from Mecklenburg generally.

ROSTOCK ONLY.

YEAR.	WHEAT.	RYE.	BARLEY.	OATS.	PEAS	REMARKS.
1835 - - -	43,095	21,915	15,899	2,743	4,706

The subject of the Austrian and Prussian treaties, referred to under the head of Hamburgh, was again adverted to at Rostock, and in the same feeling, that a relaxation of the English navigation law had taken place in the treaties in question, which was of a partial instead of a general nature.

STETTIN.

Official returns of the imports and exports of Stettin can only be obtained on application to the Prussian government. The following statement of exports was furnished by Mr. Peterson, Her Majesty's Vice-consul, a very exact and intelligent merchant:

LINSEED AND RAPESEED CAKES IN

1834 - - - - - - - - - -	33,518 cwt.
1835 - - - - - - - - - -	27,038 —
1836 - - - - - - - - - -	56,581 —
1837 - - - - - - - - - -	70,643 —

IMPORTS

IMPORTS AND EXPORTS FOR SEVEN YEARS.

	£.	£.
1834	714,050	374,800
1835	841,670	280,000
1836	957,250	477,500
1837	975,500	406,865
1838	965,600	482,200
1839	1,169,000	813,000
1840	1,328,000	1,105,000

Of corn exported from Stettin about 1-10th comes from Poland, 6-10ths from Silesia by the Oder, and 3-10ths from the Mark. Farmers can grow wheat with profit, and deliver it for sale in England at 41*s.* per quarter when they have a fair average crop; viz.,

Wheat, 1 qr.		35*s.*
Freight	4*s.* 6*d.*	
Insurance	1 —	
Sound dues	— 6	6*s.*
		41*s.* —*d.*

To which, adding the expense of

Sale, Factorage, Commission, Metage, and other expenses of sale		4 6
brings the actual cost to		45*s.* 6*d.* per quarter.

exclusive of such duty as may be imposed. Landed property in the neighbourhood of Stettin has, within the last four or five years, risen in value from 50 to 75 per cent.

The quantity of spirits produced in Pomerania cannot be ascertained, but it is large. The exports this year out of the country amount to 1,904,000 gallons. The sum of 338,500 thalers, or 50,970 *l.* has been paid in bounty. The price of a hogshead, 48 gallons, is about 2 *l.* 17 *s.*; duty paid 40 per cent. over proof. The bounty on exportation is 1 *l.* 4 *s.* on 40 per cent. London over-proof.

All the potatoes grown, except some of a very small description raised for the table, are distilled into spirits throughout the northern and eastern parts of Prussia. Beetroot was getting into extensive cultivation for sugar; but an improvident treaty with Holland to allow the importation of lump sugar at a reduced duty for the use of the refineries, has almost ruined the beet-root-sugar manufacturers. That treaty, however, is on the point of expiring, and its renewal is very questionable: if renewed at all, there can be no doubt that it will be on less injurious terms. On wheat, rye, and malt for beer, consumed in the cities and large towns of Prussia, the following duties are paid:—

On wheat ground to flour, and made into bread	12 *s.* per quarter.
On rye - - ditto - - - ditto	8 —
On malt made into beer	12 —

This duty, or excise on grain, &c., is only paid when consumed in towns. Persons residing in the country and villages are exempt from such charge, but pay a small poll-tax in lieu.

DANTZIC.

Exclusive of corn the only material article of export from Dantzic to England is bones, of which there was exported in 1840 to the extent of 4,332,000 lbs. The following quantity of corn has been exported from Dantzic in the last seven years:—

YEARS.	WHEAT.	RYE.	BARLEY.	OATS.	FLOUR.
	Qrs.	*Qrs.*	*Qrs.*	*Qrs.*	*Barrels.*
1834	71,043	24,811	326	1,522	33,863
1835	45,129	13,860	95	2,898	28,392
1836	129,035	70,812	7,317	7,224	58,891
1837	314,601	109,989	2,357	8,085	67,612
1838	458,440	31,290	2,509	1,206	78,274
1839	419,055	134,253	65,919	8,379	45,251
1840	496,776	131,880	37,054	2,735	21,809
	1,934,079	511,895	117,597	31,749	334,092

And

And the following Table shows the number and tonnage of Prussian ships belonging to the several ports in each of the las five years.

The Imports into Dantzic, in the year 1839, amounted to - - - - - £. 380,280
Ditto, in 1840 - - - - - - - - - - - - - 380,415
The Exports in 1839 - - - - - - - - - - - - 1,798,722
and in 1840 - - - - - - - - - - - - 1,584,025

Wheat of moderate quality in ordinary seasons cannot be brought from Poland and delivered at Dantzic at less than 35*s.* pe quarter, and that only when no excitement exists in foreign markets. Some time since a very large accumulation of grain had in the course of several years, taken place in the granaries at Dantzic, but the great export which has occurred during the las three or four years has so reduced the magazines, that the stock at the close of the present season was not expected to exceed from 80,000 to 100,000 quarters. The demand has been so great during the last two or three years, that every effort has been made to collect in Poland all the supplies that were available, and to bring them to Dantzic for exportation. If the corn-trade in England was so modified as to be constantly open at a moderate duty, it is not likely, under such circumstances, that shipments of wheat from Dantzic would materially exceed that of the last two or three years. Not more than 5,000 quarters are consumed annually in Dantzic by a population of 62,000 persons, the people generally preferring and living upon rye bread Of the corn exported from Dantzic, one-third comes from that part of Poland which belongs to Prussia, and the remaining two-thirds from the Russian territory. Apprehensions were expressed here, as in other places, of the competition of Odessa and America, in the event of any material reduction of the duty on corn in England. The party making the observation, who is a leading corn merchant in Dantzic, said he had at that moment a cargo of Odessa corn in London which stood him in 49*s.* per quarter, and that he could purchase then Odessa wheat of similar quality at 48*s.* per quarter. The same apprehensions were expressed by others as to Odessa, exports from which place having already been largely made to Italy and other parts of the Mediterranean, and recently, it was added, several cargoes had been shipped to England. On pressing one of the most intelligent merchants in Dantzic to state what price was paid to the landed proprietor or farmer in Poland for a quarter of wheat on the estate where it was grown, or at the nearest market to that estate, he replied that it was generally bought by the Jews upon the estates from the landowners or their agents, and afterwards sold by the former to the merchants at Dantzic, deliverable at Dantzic; that in some instances the princes and great landowners sent their own commissioners to Dantzic to effect sales to the merchants; that a Russian prince who had 10,000 serfs had acted upon the principle very recently; that under such circumstances, it would not be right to take less than 35*s.* per quarter as the price at which wheat, when there was a fair average crop, could be delivered at Dantzic, from which, deducting 12*s.* per quarter, for the expense of bringing it from the place of growth to Dantzic, including waste, which is generally very considerable, cost of the boats, which are broken up and sold for a trifle compared with their original cost (amounting perhaps to 400 or 500 thalers, whereas they are only sold for about 40), the expense of the peasants and other persons navigating them for a voyage, sometimes of three or four months, and returning back to Poland on foot, there would be left 23*s.* per quarter, as the price paid to the proprietor at the place of growth, out of which he had to bear the expense of cultivation, to pay the interest and redeem the capital of any mortgage which might exist, the residue being what would remain for rent and interest of capital embarked in the soil. He added, that this was generally considered as an average estimate of the expenses, but that they would vary a little, dependant upon the distance, either greater or less, from which the corn was brought. A considerable quantity of bones are exported from Dantzic to Great Britain, many of which are collected and sent down from Cracow. Complaint was made to the Consul by the merchant principally employed in this trade, that a heavy transit duty of 2*s.* per cwt. had recently been levied for the nominal purpose of repaving the turnpike road that it was a heavy tax in proportion to the value, and that a representation from England was alone necessary to obtain its repeal.

Of the timber and staves shipped at Dantzic, nearly the whole comes from Russian Poland. Prussian timber is becoming scarce; and even that from the Russian territory that is of good quality is much reduced, and has of late not been so good as formerly. This is owing, principally, to most of the good timber that could be conveniently got afloat, having been felled There is, it is said, but little of good quality now to be had without going much farther back from the shipping places, which the discouragement given by the present timber duties prevents. It will hence be obvious taht, whenever any alteration takes place either in the corn trade or timber duties, Russia will be much more benefited than Prussia, so far as relates to the export of corn and timber from Dantzic.

At the present moment an experiment is in progress at Dantzic for making flour from potatoes. It was stated that 10 lbs of wheat flour, and 4 ½ lbs. of potatoe flour yielded 23 lbs. of bread, while 10 lbs. of wheat flour alone, yielded only 13 lbs. of bread.

The following information has been received from Dantzic respecting the octroi. A small loaf of wheat bread, weighing three ounces, bought at the baker's shop, cost half a silver groschen, which is equal to 3⅓ *d.* per lb. English weight and money. A loaf of rye bread of the finest quality, such as is used even among the higher classes, weighing 1 lb. 10½ oz. cost 1½ silver groschen, which is equal to 1 1/10 *d.* per lb. English weight and money. These are the prices, a little more or less, in 118 towns in Prussia, containing 1,728,376 inhabitants, who have to pay the excise and octroi of 3*s.* per cwt. for wheat, and 8*d.* per cwt. for rye. The remaining 12 millions of inhabitants are exempt from this excise, and eat their bread so much cheaper. The rye consumed by the soldiers and by the people is of a much coarser sort, and considerably cheaper than that of the first quality above mentioned. The klassen stener or poll-tax paid by the 12,000,000 who do not live in the cities, subject to the above excise, amounts, on an average, to 1*s.* 8*d.* per head. It is levied under rates which vary from 1*s.* 6*d.* (the lowest) to 21*l.* 12*s.* (the highest); the lowest rate is levied from the lower orders per head, with the exception of those under 16 and above 60, and the higher rates are levied from families.

ELSINORE.

ELSINORE.

The Danish rural economists estimate the average amount of corn annually raised in Denmark at 8,300,000 quarters, deducting for the consumption

Of the population - - - - - - - - - - -	3,580,000
For the consumption of animals - - - - - - - - -	2,720,000
And for seed corn - - - - - - - - - - -	1,150,000
	7,450,000

there remains a surplus of 850,000, which is exported either raw or in the form of flour, groats, hard bread, and corn brandy.

Of the quantity of corn raised, 400,000 quarters are presumed to be wheat,
2,150,000 rye,
2,500,000 barley, and
3,250,000 oats.

This gives some idea of the quantity of each species of corn which is considered to be an average crop. It would appear to be rather below than above the mark. No official return of imports is published; but by a table of exports, made out from official documents, it appears that the total value in 1839 was 2,642,360*l*. This table, however, is confined to articles the produce of the soil, and does not include the Danish transit trade, which, in a great measure, from defects in commercial legislation, has dwindled into utter insignificance.

During the last 10 years, it is said, a visible increase has taken place in the produce of Holstein, in consequence of improvements made in husbandry, and of large tracts of land having been brought under cultivation by an increasing population, pre-eminently agricultural.

The cultivators of land have hitherto raised but little corn with an immediate prospect of disposing of it in England—a market to which they have only had access occasionally, under particular circumstances; and therefore, independently of rye (the bread corn of the country) and barley, constantly in demand for the supply of Norway, the culture of rape-seed, peas, beans, and tares, the breeding and fattening of cattle, and the distilling of corn brandy for exportation, has more generally been resorted to than would otherwise have been done. If the British ports were permanently open for the importation of foreign corn, the important advantage held out by the regular supplies of the British market would no doubt induce the farmers to extend and improve their tillage.

Wheat of this year's crop is inferior to that of last year. It proves to be as follows, viz.:—

Holstein - - - - - - - - - -	124 lbs. to 129 lbs.
Zealand and Funen - - - - - - - -	128 to 126
Lolland and Falster - - - - - - - -	120 to 124 Dutch on an average.

The following is the number of vessels belonging to the kingdom of Denmark and duchies of Holstein and Sleswick Holstein:—

INFORMATION obtained at *Berlin*, *Magdeburg*, *Frankfort*, and *Cologne*,

QUESTIONS.	BERLIN.		
	1.	2.	3.
1. Could any considerable quantity of agricultural produce, exclusive of corn, be afforded for exportation from —— to Great Britain in case such an alteration of the commercial system of England was made as would cause a profitable trade in these articles?	13th Dec. -- There is a general improvement observable in every part of Prussia in the management of agriculture; but even with that advantage, considering that the population is rapidly increasing, it is not probable that any considerable increase of exports of the produce of the soil to Great Britain will take place for a considerable time, even under an alteration of the commercial system of England.	13th Dec. -- In substance the same as the preceding, and so were the answers 2, 3, 4, 5.	14th Dec. -- A great improvement has been going on in Prussia for several years past, but for want of capital it was slower than it ought to be. It is therefore not probable that any change in the commercial system of England will occasion any material increase of exports for some time.
2. What are the agricultural resources and capabilities of ——, beyond providing for its own population?	-- They are considerable of some articles of agricultural produce, which already find their way to England and other foreign countries, through Hamburgh, Stettin, Dantzic, Konigsberg, and other ports, but it is questionable whether any increase will take place at present.	The same - - -	-- The resources and capabilities of Prussia are great, and she already makes considerable exports of corn, timber, and other articles, not only to England, but to other countries. Her ability to extend those exports will in all probability increase, but it will be slowly. Land has increased in value greatly in every part of the Prussian territory, within these few years.
3. Are any circumstances foreseen which will tend to a future further development of those resources and capabilities?	-- The general improvements before adverted to develope the future capabilities of the country; but, owing to the deficiency of capital as compared with England, a considerable time will elapse before any material increase of produce takes place. The landed proprietors of Prussian Poland, and other Prussian provinces, though of late greatly enriched, are not yet wholly free from mortgages, and consequently not in a condition to use artificial manures to a great extent, as is the case with the British farmer. As to any material benefit from railroads, to convey produce from the place of growth to the nearest shipping port, it is not likely that any will arise for some years to come.	The same - - -	- A gradual increase of wealth, and an increase of population, the latter of which is taking place, but not so rapidly as in England, will certainly lead to a further development of the resources and capabilities of Prussia, although it may not be immediate; and the railroads in actual progress, as well as other roads which are contemplated in Prussian Poland, are likely to give facilities in conveying produce to market, or places of export, that will tend to an increase of export, especially if an impulse should be given by any change which may take place in the English corn laws.
4. Do any causes exist which are likely to tend to the future limitation of the quantities of agricultural produce which —— may have disposable for exportation?	-- This is an hypothetical question, which no one can answer satisfactorily.	- - - - -	-- No causes exist which are likely to have a tendency to diminish the quantity of agricultural produce raised at present.
5. What quantity of each description of corn was exported from each of the ports in ——, in each of the last seven years, and for so much of the present year as can be given?	-- The following quantity of wheat was exported from the kingdom of Prussia in the last three years; viz.		- - - - - -
		In Foreign Vessels. / *Qrs.*	In National Vessels. / *Qrs.*
	1838 - - - -	2,252,470	1,760,533
	1839 - - - -	3,004,509	3,523,288
	1840 - - - -	3,483,417	3,431,654
6. What quantity of grain of each kind could be exported to England from each of the ports of ——, if the trade in corn in England was made constantly open at a moderate duty?	-- Under the general improvement going forwards in every part of the Prussian territory in the management of land, which is, however, light and poor, a regular and steady demand would, in all probability, lead eventually to an increase of produce; but it would be a considerable time first, and that only after such an outlay of capital as a steady trade alone would warrant.	The same - - -	-- If the trade in corn with England was constantly open at a moderate duty, it is not possible to say to what extent corn could be exported. It would depend on several circumstances, the demand, the price, the competition of other countries, &c.

respecting CORN, BEETROOT, &c. between 13 and 22 December 1841.

BERLIN.	MAGDEBURG.		FRANKFORT.	COLOGNE.
4.	5.	6.	7.	8.
15th Dec. The answer was much the same as the last. There had been some improvement in agriculture of late years, and it was gradually but slowly going on, as was the population, but not so rapidly as in England. There was a great field for improvement; and as capital increased, which it had of late been doing rapidly, there would, no doubt, be an increase of produce.	17th Dec. The country in the neighbourhood of Magdeburg, as well as throughout the province, is already highly cultivated; and, therefore, it is not likely that any change in the commercial system of England would occasion any material increase of produce to be available for exportation beyond that which exists at present.	17th Dec. The answers generally were to the same effect as the preceding.	20th Dec. Some wheat could be sent, if the price in England would warrant its exportation. The price, at the place of growth, would be 45 *s.* per quarter; charges from Frankfort to Holland, free on board, 8*s.* 4*d.* Ordinary average price in 1834, 34*s.* 9*d.*; 1838, 34*s.* 7*d.*; 1840, 31*s.* 7*d.*	22d Dec. Not any. Cologne occasionally imports corn, and when there is any to spare it is always sent to Holland.
The answer was much to the same effect as the preceding.	The agricultural resources of Magdeburg, beyond providing for its own population, are considerable, as is proved by its present export of corn, wool, &c.	The same	Considerable in corn, all of which is sent to Holland. The quantity cannot be furnished.	It is not likely that any increase of the produce of corn will take place.
The answer was very much to the same effect as the preceding.	No circumstances are foreseen that will tend to a farther development of its capabilities of production.	The same answer	The canal which is cutting from Bamberg on the Maine to Kelheim on the Danube, and which is to be finished in 1842, will open a communication by water with countries which have hitherto been deprived of sending their disposable produce to market. The canal, when finished, will, it is stated, extend that water communication to the Danube, and from thence through the heart of Austria to the Black Sea, and open an intercourse with countries hitherto inaccessible by such easy means.	Not any.
Nothing is foreseen that is likely to tend to the future limitation of produce. It is much more likely to increase than to diminish.	None whatever. It is, from the improvements going on, more likely to increase than to diminish.	The same answer	None whatever	Not any.
	Produce is sent down to Hamburgh by the Elbe from other places in the province, and the exports from Magdeburg cannot, therefore, be given.			It cannot be furnished.
This is a question which is difficult to answer, it depends upon such a variety of contingencies; but it must not be lost sight of that other countries will be in competition with Prussia, in any alteration of the duties on corn which England may make. It is felt and acknowledged that she is their best and principal market.	The quantity of grain that would be sent to Hamburgh for exportation cannot be stated; but it is not likely that it would be less than it had been in previous years, except an increased growth of beetroot for sugar should take place, by receiving greater encouragement.	The same answer	It is not likely that any will be exported, unless a commercial intercourse takes place by means of the Maine and Danube canal.	Not any. *See* answer to No. 1.

QUESTIONS.	BERLIN.		
	1.	2.	3.
7. If there was a regular and steady demand in England for foreign corn, could the quantity produced in —— be materially increased without much difficulty in a short space of time, and in what districts?	13th Dec. - - It could not be materially increased in a short space of time. The capabilities of the country are great, but capital was wanting, and a steady regular demand could alone warrant the necessary outlay.	13th Dec. To the same effect - -	14th Dec. - - The quantity could not be increased in a short time in those cases where the present rotation of crops had to be attended to; but there is a vast quantity of fine land in Prussian Posen, that has not been exhausted by tillage, that would materially increase the quantity of corn likely to be produced under the influence of a regular and steady demand; and that land will most likely be brought under cultivation whenever roads are made to bring it to market, and an increased demand takes place. The forming of good roads has already been under consideration, and many years will not elapse before that important object is effected.
8. Are estates in the vicinity of —— worked for account of the proprietors, or rented by farmers?	- - For account of the proprietors generally; but there are many exceptions.	- - In the eastern part of Prussia the estates generally are worked for account of the nobility, who are the principal landowners; but on the Rhine, and other western provinces, where the population is more dense, it is not unusual for lands to be let to farmers, in the same manner as in England.	- - - - - -
9. Has the price of land increased lately?	- - - - - -	- - - - - -	- - - - - -
10. What articles are usually exported from ——, and by what ports?	- - - - - -	- - - - - -	- - - - - -
11. To what extent is beetroot for sugar cultivated, as compared with corn, and has it diminished the growth of the latter?	- - - - - -	- - - - - -	- - - - - -

BERLIN.	MAGDEBURG.		FRANKFORT.	COLOGNE.
4.	5.	6.	7.	8.
15th Dec. - - The quantity of corn produced might, and no doubt would be much increased if there was a regular and steady demand that would warrant the necessary outlay, but it would not be immediate, it would require some years.	17th Dec. - - The extent to which it might be increased under the circumstances stated, cannot be given, but it is certain that it could not be materially increased in a short time.	17th Dec. The same answer -	20th Dec. See answer to Question 3 -	22d Dec. - - No increase is likely to take place under any circumstances.
- Land is managed in both ways, but by far the greater part is worked for account of the proprietors.	- - Generally speaking for account of the proprietors, but there is much land in small slips belonging to the peasants or small farmers. Of the former, some of the estates are very large. One was mentioned where 17 teams of four horses each, or 68 horses, are kept, and there are many estates nearly as large as the one adverted to.	The same answer.		
- - - - - -	- - It has not increased much for many years past. The best land is worth 50*l.* per acre, and other land in proportion, according to its quality.			
- - - - - -	- - Corn, wool, beetroot, sugar, &c. All that is exported goes through Hamburgh.	The same answer -	- - - - - -	- - Wine, wool, and many other articles, but no corn, except occasionally to Holland.

CONCLUSION.

The Facts contained in the preceding statement appear to warrant the following conclusions, viz.:—

BELGIUM.

That Belgium, notwithstanding its high state of cultivation, is an importing rather than an exporting country; and that, in the event of any change taking place in the commercial system of England, whether by the revision of the provision laws or by an alteration of the corn laws, it is not probable that there would, either through Ostend or through Antwerp, be any material increase of those articles of agricultural produce which are exported to England at present, or of any other.

HOLLAND.

That the same remark, according to the information obtained at Rotterdam, is equally applicable to Holland.

BREMEN.

That, viewing Bremen as a depôt for Hanover and Hesse, it is probable that some increase of exports may take place from that port, but to what extent no reasonable conjecture can be offered.

HAMBURGH.

That, considering Hamburgh as the depôt of Holstein, Mecklenburg, and Lauenburg, as well as of the several countries bordering on the Elbe, it is probable that some increase may take place, under the circumstances stated, of the several articles of provisions and corn which are usually exported from thence at present.

KIEL.

That, considering the resources and capabilities of Holstein and Mecklenburg, it is probable that the exports from Kiel to England of those articles at present exported would, under the circumstances mentioned, be moderately increased; but it is questionable whether that increase would, in a reasonable time, be to so great an extent as 25 or 30 per cent.

LUBECK.

That the same remark is equally applicable to Lubeck, which receives its articles of export from the same provinces as Kiel.

ROSTOCK.

That the same remark is equally applicable to Rostock.

STETTIN.

That it is not probable that any material increase would, under the circumstances adverted to, take place in the articles usually exported from Stettin.

DANTZIC.

That it is not probable that any material increase of the production of corn, and consequently of the ability to export, would take place, under the circumstances stated, in any reasonable time; but there are large districts of fine land in Prussian Posen unexhausted by tillage, that would materially increase the quantity of corn likely to be produced under the influence of a regular and steady demand, whenever an increased demand takes place, and good roads are made to bring the produce to market.

ELSINORE.

That, considering the resources, fertility, and capabilities of Denmark, it is probable that an increase of the exports of agricultural produce may eventually take place to the extent of 25 per cent. upon her present exports; but that a considerable time will elapse before such event will take place.

FINALLY,

That the probabilities above stated are in each case based upon the assumption that the duties to be imposed will be moderate.

A general opinion prevails on the Continent, apparently a well-founded one, that whatever change takes place in England that has the effect of giving an impulse to the agriculturists on the Continent to raise, and to the merchants to export, the several articles required, it will at the same time have a powerful tendency to equalise the prices of those articles in both countries.

AGRICULTURAL PRODUCE AND SHIPPING IN NORTHERN EUROPE.

COPY of INFORMATION concerning the Cost and Supply of various Articles of Agricultural Produce, &c., in several Parts of Northern Europe, obtained by *James Meek*, Esq., under Instructions from Her Majesty's Government, dated 2d November 1841.

(Presented to Parliament by Command of Her Majesty.)

Ordered, by The House of Commons, *to be Printed,*
7 *Februray* 1842.

C O R N, &c.

RETURN (in part) to an Address of the Honourable The House of Commons, dated 3 February 1842;—*for*,

STATEMENTS of the TITLES and DATES of the several ACTS which have been passed for regulating the IMPORTATION and EXPORTATION of CORN in the United Kingdom; with Summariesof the Duties or Prohibitions, &c., imposed by them, since the Year 1660:

Of the Annual Average Price of WHEAT per Imperial Quarter, at *Eton* and *Oxford*, from 1646 to 1770:

Of the Annual Average Price of each Kind of GRAIN, in *England* and *Wales*, from 1771 to 1841:

Of the Decennial Fluctuations in the Price of WHEAT, as shown in the two preceding Accounts, from 1646 to 1815; from 1816 to 1828; and from 1829 to 1841; exhibiting the highest and lowest Annual Average in each Decennial Period, and the Per-centage Amount of Difference:

Of the Weekly Average Price, the Duty Average, and the Rate of Duty, with respect to each Kind of GRAIN; also the Quantities of each Kind paid Duty, and the Amount of Duty received thereupon, distinguishing FOREIGN from COLONIAL, in each Week, from July 1828 to December 1841:

Of the Quantities of each Kind of GRAIN, distinguishing FOREIGN from COLONIAL, Imported, paid Duty, and remaining in Warehouse, in each Month; together with the Average Monthly Price of WHEAT in *England* and *Wales*, from July 1828 to December 1841:

Of the Septennial Prices of each Kind of GRAIN as prepared for the Purposes of the Tithe Commission, in each Year, from 1835 to 1841:

Of the Fiar Prices of WHEAT in each County of *Scotland*, from 1828 to 1841:

Of the Annual Average Prices of WHEAT in *Dublin*, in each Year, from 1828 to 1841:

Of the Annual Average Prices of WHEAT in *Guernsey* and *Jersey*, with the Quantities Imported and Exported, in each Year, from 1820 to 1841;

Of the Quantities of WHEAT returned as sold in *England* and *Wales* by the Corn Inspectors in each Week and each Year, from July 1828 to December 1841:

Of the Total Quantities of WHEAT and WHEAT FLOUR Imported into and Exported from *Great Britain*, in each Year, from 1697 to 1841:

Of the Quantities of the several Kinds of GRAIN and MEAL Imported from each Country, and likewise of the Quantities Re-exported from the Warehouse to each Country, in each Year, from 1828 to 1840:

Of the Total Amount and Average Rate of DUTY received on each Kind of GRAIN, distinguishing FOREIGN and COLONIAL, in each Year, from July 1828 to 1841:

Of the Quantities of each Kind of GRAIN which paid the several Rates of DUTY during the whole Period, from July 1828 to December 1841:

Of the Total Quantities of each Kind of GRAIN, FOREIGN and COLONIAL, with the Total Amount of DUTY paid upon each Kind, and the Average Rate thereof, during the whole Period, from July 1828 to December 1841:

Of the Quantities of each Kind of GRAIN and of MALT Imported into *Great Britain* from *Ireland*, in each Year, from 1800 to 1841:

Of the Quantities of GRAIN of each Kind, distinguishing *British*, *Scottish*, *Irish* and Foreign, Imported into *London*, in each Year, from 1820 to 1841.

(*Mr. Gladstone.*)

Ordered, by The House of Commons, *to be Printed*,
11 *February* 1842.

14.—Quantities of Grain of each Kind, distinguishing *British*, *Scotch*, *Irish* and Foreign, Imported into the Port of *London*, in each Year, from 1820 to 1841 - - - p. 60

Note.—*The following are not completed, but will be presented shortly, and form a continuation of this Return, as Parliamentary Paper, No.* 18.—2.

* The Weekly Average Price, the Duty Average, and the Rate of Duty, with respect to each Kind of Grain; also the Quantities of each Kind paid Duty, and the Amount of Duty received thereupon, distinguishing Foreign from Colonial, in each Week, for the year 1841.

The Fiar Prices of Wheat in each County of *Scotland*, from 1828 to 1841.

The Annual Average Prices of Wheat in *Dublin*, in each Year, from 1828 to 1841.

The Annual Average Prices of Wheat in *Guernsey* and *Jersey*, with the Quantities Imported and Exported, in each Year, from 1820 to 1841.

The Quantities of each Kind of Grain which paid the several Rates of Duty during the whole Period, from July 1828 to December 1841.

— 1.—

STATEMENT of the TITLES and DATES of the several ACTS which have been passed for regulating the IMPORTATION and EXPORTATION of CORN in the United Kingdom; with Summaries of the Duties or Prohibitions, &c. imposed by them, since the Year 1660.

ACTS RELATING TO IMPORTATION.

Dates and Titles of Acts.	Description of Grain, &c.	Rates of Duty per *Imperial* Quarter.	s.	d.
1660: 12 Chas. 2, c. 4 -	Wheat and buckwheat	when the price was 45/4 ½ and under - - - -	2	– ¾
		when the price was above 45/4 ½ - - - -	–	4 ⅛
	Rye, beans, barley and malt.	when the price was 37/1 ½ and under - - - -	1	4 ½
		when the price was above 37/1 ½ - - - -	–	3 $\frac{3}{32}$
	Oats and peas - -	- - - - - - - - - - - -	–	2 $\frac{7}{12}$
	Meal of wheat or rye	per last of 12 barrels - - - - - -	3	1 ⅛
1663: 15 Chas. 2, c. 7 -	Wheat - - -	when the price was 49/6 and under - - - -	5	6
		when the price was above 49/6 - - - - -	–	4 ⅛
	Rye, peas and beans	when the price was 33/ and under - - - -	4	1 ½
		when the price was above 33/ - - - - -	–	3 $\frac{3}{32}$
	Barley and malt -	when the price was 28/10 ½ and under - - -	2	9
		when the price was above 28/10 ½ - - - -	–	3 $\frac{3}{32}$
	Oats - - -	when the price was 13/9 and under - - - -	1	4 ½
		when the price was above 13/9 - - - - -	–	2 $\frac{7}{12}$
	Buckwheat - -	when the price was 28/10 ½ and under - - -	2	– ¾
		when the price was above 28/10 ½ - - - -	–	4 ⅛
1670: 22 Chas. 2, c. 13 -	Wheat - - -	when the price was 55/ and under - - - -	16	6
		when the price was between 55/ and 82/6 - - -	8	3
		when the price was above 82/6 - - - - -	–	4 ⅛
	Rye and beans -	when the price was 41/3 and under - - - -	16	6
		when the price was above 41/3 - - - - -	–	3 $\frac{3}{32}$
	Barley and malt -	when the price was 33/ and under - - - -	16	6
		when the price was above 33/ - - - - -	–	3 $\frac{3}{12}$
	Oats - - -	when the price was 16/6 and under - - - -	5	6
		when the price was above 16/6 - - - - -	–	2 $\frac{7}{12}$
	Peas - - -	when the price was 41/3 and under - - - -	16	6
		when the price was above 41/3 - - - - -	–	2 $\frac{7}{12}$
	Buckwheat - -	when the price was 33/ and under - - - -	16	6
		when the price was between 33/ and 45/4 ½ - -	2	– ¾
		when the price was above 45/4 ½ - - - -	–	4 ⅛
	Wheat-meal - -	when the price of wheat was 55/ and under - p' qr.	16	6
		when the price of wheat was between 55/ and 82/6 -	8	3
		when the price of wheat was above 82/6 - - p' last	3	1 ⅛
	Rye-meal - -	when the price of rye was 41/3 and under - - -	16	6
		when the price of rye was above 41/3, p' last of 12 bls.	3	1 ⅛
1699: 9 & 10 Will. 3, c. 23	Wheat - - -	when the price was 45/4 ½ and under - - - -	18	6 ¾
		when the price was between 45/4 ½ and 55/ - - -	16	10 ⅛
		when the price was between 55/ and 82/6 - - -	8	7 ⅛
		when the price was above 82/6 - - - - -	–	8 ¼
	Rye - - -	when the price was 37/1 ½ and under - - - -	17	10 ½
		when the price was between 37/1 ½ and 41/3 - -	16	9 $\frac{3}{32}$
		when the price was above 41/3 - - - - -	–	6 $\frac{3}{16}$
	Beans - - -	when the price was 28/10 ½ and under - - -	17	10 ½
		when the price was between 28/10 ½ and 41/3 - -	16	9 $\frac{3}{32}$
		when the price was above 41/3 - - - - -	–	6 $\frac{3}{16}$
	Barley and malt -	when the price was 28/10 ½ and under - - -	17	10 ½
		when the price was between 28/10 ½ and 33/ - -	16	9 $\frac{3}{32}$
		when the price was above 33/ - - - - -	–	6 $\frac{3}{16}$
	Oats - - -	when the price was 16/6 and under - - - -	5	8 ½
		when the price was above 16/6 - - - - -	–	5 ⅙

Note.—On an examination of this Account, it will be found that in some instances the quantity of Wheat entered for Home Consumption in a particular week, computed at the rate of Duty then in operation, will not produce a sum corresponding precisely with the amount of Duty which is stated to have been received in that week; the disagreement in such cases is ascribable to the postponement of entries, the abatement of Duty on quantities damaged, and other causes connected with the practical regulations of the Custom House.

3.—STATEMENT of Weekly Average Price of Wheat, Duty Average, Rates of Duty, &c.—*continued.*

1841:

The Statement for 1841 *is not yet completed; it will, when presented, with the other Accounts not included in this Return, form Parl. Paper, No.* 18.—2.

—6.—

STATEMENT of the QUANTITIES of each Kind of GRAIN, distinguishing Foreign from Colonial, Imported, paid Duty, and remaining in Warehouse, in each Month; together with the Average Monthly Price of Wheat in *England* and *Wales*, from July 1828 to December 1841.

WHEAT AND WHEAT FLOUR.

	QUANTITIES IMPORTED.			QUANTITIES ENTERED FOR HOME CONSUMPTION.			QUANTITIES REMAINING IN WAREHOUSE AT THE END OF EACH MONTH.			Monthly Average Price in England and Wales.

* Previously to 1833, the Monthly Returns of the Importation and Consumption of Foreign and Colonial Corn were collected together, in annual periods, commencing on 1st January, and terminating on 31st December. From 1833, downwards, they have been made up, like the other Accounts of this department, in periods commencing on 6th January in each year, and terminating on 5th January in the year succeeding. This circumstance is necessary to be noted, inasmuch as it explains why the aggregate Imports and Consumption of the several years, from 1828 to 1832 inclusive, as exhibited in the present Statement, will be found to differ to a small extent from the quantities shown in other Accounts, which have been compiled, not, as in this case, from special Monthly Returns of the Corn Trade, but from the ordinary records of the general commerce of the country.

† *Note.*—The Returns for 1841 will be liable to alteration (although not to any considerable extent) when the Accounts of that Year shall have been finally adjusted.

—7.—

Aggregate te Average of Four Years	12	–	" "

PRICES of BARLEY and OATS at *Antwerp* on the 20th November 1841, as stated in a Summary of the Answers received from Her Majesty's Consuls up to that Date; viz.

	s.	d.
Barley	28	9
Oats	22	1

RATE of DIFFERENCE between the Four Years' Aggregate Average Price at *Copenhagen* and *Antwerp* as regards BARLEY, and also between the Four Years' Aggregate Average Price at *Stettin* and *Antwerp* as regards OATS.

Barley	74½ per cent. higher at *Antwerp*.
Oats	84 per cent. higher at *Stettin*.

Board of Trade,
23 March 1842.

Geo. Joyce,
Comptroller of Corn Returns.

CORN-LADEN SHIPS.

RETURN to an Order of the Honourable The House of Commons, dated 23 February 1842;—*for*,

RETURNS of the Number of SHIPS laden with FOREIGN CORN entered INWARDS at the Ports of the UNITED KINGDOM, between the 5th day of January 1841 and the 5th day of January 1842; specifying the KINDS and QUANTITIES of CORN, the PORTS of LADING and the PORTS of DISCHARGE, and whether in SHIPS of the UNITED KINGDOM or any other Nation, and to what Nation they belonged.

Custom-house, London,
5 April 1842.

Jn° *Covey*,
Reg^r Gen^l of Shipping.

(Mr. Wawn.)

Ordered, by The House of Commons, *to be Printed*,
12 *April* 1842.

A RETURN of the Number of SHIPS laden with FOREIGN CORN entered INWARDS at the Ports of the UNITED KINGDOM, between the 5th day of January 1841 and the 5th day of January 1842; specifying the KINDS and QUANTITIES of CORN, the PORTS of LADING and the PORTS of DISCHARGE, and whether in SHIPS of the UNITED KINGDOM, or any other Nation, and to what Nation they belonged.

17/9–18/8	15/7–16/5	31/8							
10/5–11/11	9/2–10/6	22/9							
The above are the average prices for the quarter.									

1st Quarter.

The severe winter has not injured the crops on the ground.

With the exception of Wheat, the arrivals from the interior, of every description of corn, have been considerable.

Stock on hand, small.

	Qrs.
Wheat	600
Rye	14,000
Barley	40,000
Oats	4,000

The greatest arrivals, however, consisted of Rye Meal, on account of the Russian Government, and amounting to upwards of 125,000 cwts.

2d Quarter.

Stock on hand much reduced.

The crops wear a very promising appearance.

Liebau,
30 June 1841.

Francis Kienitz,
Consul.

October.			November.			December.

16/11–18/2	14/10–16/	30/10						
10/9–11/7	9/6–10/2	20/11						
The above are the average prices for the quarter.								

3d Quarter.

Although the crops have been got in in good order, yet Wheat and Rye are shorter by one-fourth than last year, as respects quantity. The quality, however, is fine.

Barley and Oats are fine crops, both as regards quality and quantity.

Stocks on hand insignificant.

At present, trade dull; no demand from foreign countries.

4th Quarter.

Prices are likely to remain steady.

Stock on hand:

	Qrs.
Wheat	200
Rye	7,000
Barley	6,000
Oats	600

Liebau,
31 December, 1841.

Francis Kienitz,
Consul.

REMARKS.

1st Quarter.

On the 24th March (port being now free from ice) some purchases of Wheat were made, for loading ships long lying chartered.

Freights accepted at 6*s.* 6*d.* per quarter, for England, by ships on protest, in consequence of breach of former charters.

27,439 qrs. of Wheat were exported during March.

Stocks on hand in Town:

Wheat { Soft - 105,000 *Qrs.* / Hard - 20,000 „
Rye and Barley None.
Oats - - 15,000 „

2d Quarter.

The charges for purchasing and putting Wheat on board amount to about 2*s.* 4*d.* per qr. Coals being in great demand in the Mediterranean, freights appear likely to be permanently affected with regard to English vessels in the Black Sea; for ships, after discharging their outward cargoes, frequently run here, satisfied by obtaining a return cargo at very moderate rates.

The lengthened drought gives rise to serious fears for the crops; those within 90 to 100 miles of this port are considered as entirely lost.

In Poland it is expected that the crops of autumn-sown grain will be abundant, but the spring-sown scanty. In Bessarabia, the crops are very deficient. In the districts near the Asoph Sea, generally good. In the central provinces, the crops of Rye promise relief from great distress, in consequence of the failure last year.

Stock on hand (30 June) in Town:

Wheat { Soft - 135,000 *Qrs.* / Hard - 10,000 „
Oats - - 10,000 „

Exported to England during this Quarter: Wheat, 20,671 qrs.

Odessa,
30 June 1841.

James Yeames,
Consul-general.

3d Quarter.

Stock on hand:
About 250,000 qrs. Soft Wheat.

During this quarter 181,188 qrs. have been exported, of which, 27,493 qrs. were shipped for England.

The crops on the Steppe are unsatisfactory, consequently the Hard Wheat is deficient in quantity and quality; but this Wheat is in little demand, the sole inquiries in the market being for England, where the Soft Wheat is preferred.

The crops of Soft Wheat in the Governments of Kief and Podolia are reported to be abundant, but inferior in quality, particularly as regards weight, to the crops of last year.

The charges on the purchase and shipment of Wheat are about 2*s.* 4*d.* per qr.

4th Quarter.

Stock on hand:

Wheat { Soft - 220,000 *Qrs.* / Hard - 30,000 „
Oats - - 15,000 „

The want of British shipping is severely felt by purchasers, whose operations are thereby restricted.

Freight:
To England, 11*s.* 6*d.* per qr.

The Corn market dull, in consequence of the want of shipping, and as the winter may set in from day to day, the merchants fear to have their goods long on hand.

During this quarter, 190,047 qrs. of Soft Wheat have been exported, of which, 45,611 qrs. were destined for England.

Odessa,
31 December 1841.

James Yeames,
Consul-general.

	13. 5.	£. *sterl*							*1st and 2d Quarters.*
	s. d. s. d.	*s. d.*							In Denmark, the exportation of corn is allowed free of duty; and the importation is permitted at a duty not exceeding 2*s.* 3 *d.* sterling, per quarter, for Wheat.
- -	28/–31/	64/							Freights to England, 4*s.* 6 *d.* per Imperial quarter to the East Coast of England.
- -	21/4–23/4	35/7							The reports from England, respecting the prospects of the harvest, being less favourable than some weeks back, the tendency of the Danish Corn-market is towards a rise.
- -	12/4–14/9	32/8							The Stock of Wheat in this country is but very limited at the present moment. The new crops wear a promising appearance.
- -	10/–11/6	23/6							Elsinore, 30 June 1841. *Francis C. Macgregor,* Consul.
The above are the average prices for the quarter, and are those of the Copenhagen market.									
October.			November.			December.			
	13. 5.	£. *sterl.*							*3d Quarter.*
	s. d. s. d.	*s. d.*							The reports from the different parts of the kingdom, respecting the late harvest, not having as yet been received, it is hardly possible to form a correct judgment as to its actual result.
- -	34/–40/5	61/6							From the information, however, received, there is reason to believe, that, notwithstanding the wet summer, the crops of Barley and Oats have yielded plentifully; but those of Wheat seem to have suffered materially from rust. Less Wheat has been sown this year than last. Rye is reported as much below an average crop.
- -	25/–31/1	35/10							Owing to the demand, from England, prices advanced considerably during this quarter.
- -	14/–15/7	31/10							Freight to the East Coast of England, 3*s.* 6 *d.* sterling per Imperial quarter.
- -	8/6–9/4	21/7							Elsinore, 30 September 1841. *Francis Macgregor,* Consul.
									4th Quarter.
									The exportation of Corn from Denmark is allowed duty-free, but on importation it is liable to a moderate duty of 2*s.* 3 *d.* per quarter for Wheat. Prices are likely to keep up during winter, as, independently of the demand anticipated from England next spring, great apprehensions are entertained in this country about the next winter crops; the weather in the autumn having proved so unfavourable for all farming operations.
The above are the average prices for the quarter, and are those of the Copenhagen market.									Elsinore, 31 December 1841. *Francis Macgregor,* Consul.

1st Quarter.

Stocks on hand: Wheat, 42,000 qrs.; Rye 18,000 qrs.; other grain, 7,000 qrs.

2d Quarter.

During this Quarter the following shipments have been made:—

To Britain: Wheat, 68,930 qrs.; Rye, 1,610 qrs.; Barley, 20 qrs.; Flour, 4,844 barrels and bags.

To Guernsey and Jersey: Wheat, 1,410 qrs.

To Holland: Wheat, 16,370 qrs.; Barley, 190 qrs.; Flour, 5,249 qrs.

To other countries: Wheat, 2,120 qrs.; Rye, 28,380 qrs.; Barley, 640 qrs.; Flour, 35,413 qrs.

Stocks on hand (for shipping):

	Qrs.
Have been, Wheat –	130,000
„ Rye –	25,000
„ Barley –	3,000
„ Oats –	1,500

Stocks remaining in warehouse: Wheat, 80,000 qrs.; Rye, 20,000 qrs.; other grain, 7,000 qrs.

Freights: London, 3 *s.* 3 *d.* to 3 *s.* 6 *d.* per quarter, Wheat; Liverpool, 4 *s.* to 4 *s.* 6 *d.* ditto; Hull, 3 *s.* 3 *d.* ditto; Newcastle, 2 *s.* 6 *d.* to 2 *s.* 9 *d.* ditto.

Upon the whole there has been a favourable spring; Wheat and Rye, however, suffered during the winter, and they are expected to prove short. During the last fortnight speculation has revived, and large parcels of Wheat have changed hands; the chief supply has been from the neighbourhood. The quantity from the interior of Poland would be considerable, did not the shallows of the Vistula and Bug keep it back; and the want of water in the rivers will probably impede navigation till autumn, and prices are therefore likely to rule high.

Danzig, 30 June 1841.

H. R. Plaw,
Consul.

3d Quarter.

Since the date of the last report (30 June) there have been shipped,—

To Britain: Wheat, 240,200 qrs.; Rye, 1,720 qrs.; Barley, 3,550 qrs.; Oats, 10 qrs.; Flour, 6,513 barrels.

To Guernsey and Jersey: Wheat, 2,500 qrs.

To Holland: Wheat, 13,350 qrs.; Rye, 4,720 qrs.

To other countries: Wheat, 330 qrs.; Rye, 8,630 qrs.; Flour, 5,753 barrels and bags.

The supplies at market, for the same period, have been,—

Wheat, 200,000 qrs.; Rye, 35,000 qrs.; Barley, 6,000 qrs.; Oats, 2,000 qrs.

Stocks remaining in warehouse: Wheat, 30,000 to 40,000 qrs.; Rye, 25,000 qrs.; other grain, 14,000 qrs.

Freights: London, 3 *s.* 3 *d.* to 5 *s.* 3 *d.* per quarter, Wheat; Liverpool, 4 *s.* to 5 *s.* 6 *d.*, ditto; Hull, 3 *s.* 3 *d.* to 5 *s.*, ditto; Newcastle, 2 *s.* 9 *d.* to 4 *s.* 6 *d.*, ditto.

The general report as to the harvest, which may be considered as now finished, is,—Wheat and Rye very good in quality, but short in quantity; other descriptions of grain, "average crops." In Poland, it is stated that the crops are short, but of good quality.

It is expected that about 4,000 lasts (44,150 qrs.) of Wheat may still arrive before the shipping season closes, part of which will be of this year's growth.

The low water has been, and continues to be, a great cause of detention to craft along the Vistula.

At the present moment, scarcely any thing doing in the corn trade.

Danzig, 30 September 1841.

H. R. Plaw,
Consul.

4th Quarter.

Exported, during this Quarter:

To Britain: Wheat, 21,130 qrs.; Rye, 260 qrs.; Barley, 8,150 qrs.

To Guernsey and Jersey: Wheat, 2,650 qrs.

To Holland: Wheat, 6,050 qrs.

To other countries: Rye, 5,370 qrs.; Barley, 460 qrs.

Stocks on hand at close of shipping season: Wheat, 112,000 qrs.; Rye, 10,800 qrs.; other grain, 20,000 qrs.

Freights: London, 3 *s.* 10 *d.* to 5 *s.* 3 *d.* per qr.

The last harvest has proved short for most descriptions of grain. Wheat and Rye are reported to yield at least 1 *s.* 3 *d.* below an average crop both in this neighbourhood and in Poland.

The stocks in the interior are represented to be large.

The growing crops wear a very promising appearance up to the present time.

Danzig, 31 December 1841.

H. R. Plaw,
Consul.

									Wheat about 35,000
									Rye - - 15,000
									Barley - 10,000
									Oats - - 12,000
									Supplies from the interior of Prussia and from Poland stated to have been very inconsiderable. Formerly the Poles used to supply this market annually, from 100,000 to 200,000 quarters of grain; this year their barges have scarcely brought 4,000 quarters of all sorts. In the course of the next month, however, about 20,000 quarters of Volhynian Wheat may be expected; but this is *all* that is likely to arrive before harvest. Crops expected to turn out of good quality.
									Konigsberg, 30 June 1841.
									J. D. Brockmann, V.-Consul.

October.			November.			December.			3d *Quarter.*
	197½.	£. sterl.		197½.	£. sterl.		198.	£. sterl.

REMARKS.

1st Quarter.

During the winter, which has been long and severe, considerable purchases have been made of Wheat, for British account, and of Rye for the Russian Government; and preparations are now in progress to despatch the same to their respective destinations.

Stocks on hand:

Wheat, 44,000 qrs.; Rye, 17,800 qrs.; Barley, 8,200 qrs.; Oats, 7,200 qrs.

The stock in the country is considered to be extensive, therefore the Stettin market can be well supplied for some time to come.

Freight, *from 3s. to 4s. 6d.* the quarter to the East and West Coasts of Great Britain.

2d Quarter.

During this quarter the weather has, for the most part, been very propitious for the crops; and an early as well as a fine harvest may be expected.

Stock on hand:

Wheat, 131,000 qrs.; Rye, 47,500 qrs.; Barley, 8,000 qrs.; Oats, 18,000 qrs.

Nearly the whole quantity has been exported, Wheat to Great Britain, and Rye to St. Petersburgh; also some Barley and Rye to Norway; so that the present stock on hand is inconsiderable.

Freights on the decline; about *3s.* per quarter to London.

Stettin, 30 June 1841.

F. H. Petersen,
Vice-Consul.

3d Quarter.

The expectation of a fine crop of corn and grain in Pomerania, expressed in the last quarter's return, has been frustrated, owing to the rainy weather, which set in before and during harvest. The crop in this part is a deficient one, both as to quantity and quality, as regards Wheat, Rye and Barley. Oats are an average crop.

In Silesia, however, the crops of all kinds of corn and grain have been abundant, with the exception of Barley. The quality here is also superior, and large supplies may be expected from that country during the next year.

During this quarter, 114,000 qrs. Wheat, 28,500 qrs. Rye, 18,500 qrs. Barley, and 8,700 qrs., Oats, arrived at Stettin, and the whole quantity, together with that in store, have been exported; viz. the Wheat and Barley to Great Britain, and the Rye to Holland, Norway and Russia.

Stock on hand:

A mere trifle, but supplies are beginning to arrive from the interior and Silesia. Prices fluctuate according to the accounts from Great Britain. Trade has been very brisk this quarter; above 200 British vessels arrived.

Stettin, 30 September 1841.

F. H. Petersen,
Vice-Consul.

4th Quarter.

Owing to the low water in the Oder, the supplies from Silesia could not reach here, notwithstanding the rainy weather, otherwise the stocks on hand would have been considerable; as it is, they are very small.

The following is the amount of each sort of corn that arrived at this place during the year 1841:—

Wheat, 307,000 qrs.; Rye, 123,700, qrs.; Barley, 47,800 qrs.; Oats, 34,900 qrs.

The principal part of the Wheat was shipped for England.

Freights, to the East Coast of England, from *4s.* to *5s.* per quarter for Wheat.

Stettin, 31 December 1841.

F. H. Petersen,
Vice-Consul.

13/5	13/3	22/4	13/5	13/3	21/8	11/10	11/8	21/3	

1st Quarter.

The accumulation of all descriptions of grain during the last quarter has been very limited. The price of Wheat is nominal, as the demand for exportation has nearly ceased. Speculators, however, are inclined to purchase, as the accounts from England lead them to expect a demand thither before next harvest. Rye is in great demand for St. Petersburgh, to which place considerable shipments will be made on the re-opening of the navigation. In Barley and Oats but little is transpiring.

Freights continue low: To England: Wheat, 5 *s.*; Rye, 4 *s.* 6 *d.*; Barley, 4 *s.* 3 *d.*; Oats, 3 *s.* 6 *d.*; per quarter.

Sound Dues, per Quarter: Wheat, 5½ *d.*; Rye, 3 *d.*; Barley, 3 *d.*; Oats, 1½ *d.*

Stock on hand: Wheat, 1,575 qrs.; Rye, 13,125 qrs.; Barley, 2,625 qrs.; Oats, 3,675 qrs.

2d Quarter.

No stocks of corn having come to market, the stock on hand is next to nothing. Trade exceedingly dull, and Freights very much depressed.

Memel, 30 June 1841.

W. J. Hertslet,
V. Consul.

11/10	11/8	21/4	11/10	11/8	21/10	11/10	11/8	20/5	

3d Quarter.

There are no stocks of Wheat, and barely enough for home consumption. The harvest is now completed; Wheat and Rye are reported to have yielded far below an average, and as the prices are rapidly advancing, it is expected that shipments to foreign markets next season will be limited. Barley and Oats it is expected will turn out both abundant and of excellent quality.

4th Quarter.

The late harvest has turned out very indifferent, and the quantity is considered to be insufficient for the home consumption. Barley, Oats and Potatoes, however, have yielded abundantly and of good quality.

Memel, 31 Dec. 1841.

W. J. Hertslet,
Consul.

22/11–27/3	22/3–26/6	61/8	- -	The same as preceding week.	- -	21/9–31/	21/2–30/1	60/6	2d *Quarter.* About 8,000 qrs. of Wheat have been shipped for England this quarter. Stock on hand: *Qrs.* Wheat - - 5,000 Rye - - - 2,000 Barley - - 800 Oats - - nil. There has been a regular and continued demand for Wheat during this quarter, which has kept prices firm; and as the stock on hand shortens, prices are expected to rise further. The growing crops had a most promising appearance during the spring, and still look healthy, although the latest reports are not so favourable as those of an earlier date. Lubeck, 30 June 1841. *W. L. Behneke*, V.-Consul.

1st Quarter.

The operations in Corn during this quarter have been extremely unimportant, and there has been generally a decline in the prices of all qualities.

Stock on hand:

	Qrs.
Wheat, about -	50,000

2d Quarter.

Throughout the whole of this quarter there been a general inactivity, in this market, in the demand for Wheat.

From the best information hitherto collected, the harvest is reported as not likely to exceed a middling crop.

Stock on hand:

	Qrs.
Wheat, about -	40,500

3,120 quarters of Wheat have been exported to England during this quarter.

Marseilles,
30 June 1841.

Alexander Turnbull,
Consul.

3d Quarter.

It now seems to be pretty well ascertained, that although some demand may hereafter arise in the south of France, the harvest, in general, throughout the country has this year been an average one.

During this Quarter 26,000 qrs. of Wheat have been shipped for England.

Freight has ranged from 4*s.* to 8*s.* the quarter.

Stock on hand:

	Qrs.
Wheat, about -	21,690

4th Quarter.

Prices have undergone but little variation during this quarter, and the supply has been equal to the demand.

Stock on hand:

	Qrs.
Wheat, about -	55,000

Marseilles,
31 December 1841.

Alexander Turnbull,
Consul.

CADIZ; 1841.

None on hand at market throughout the quarter.									*1st Quarter.* The stocks on hand of flour and grain are large, but few shipments are, however, taking place. *Freights:* Nominal. The season is very wet, and the crops, in consequence, look very unpromising.
									2d Quarter. The crops now wear a fair and promising appearance. No grain shipping. Flour at a nominal freight of 3 *s.* 6 *d.* per barrel. Norfolk, 30 June 1841. *W. Gray,* Consul.

(No. 83.)

Copy of a DESPATCH from Lord *Stanley* to the Right Honourable Sir *Charles Bagot*, G.C.B.

Sir, Downing-street, 2 March 1842.

No. 1.
Despatch from Lord Stanley to the Right Hon. Sir Charles Bagot, 2 March 1842.

In the anxious consideration which it has been the duty of Her Majesty's Government to give to the important and complicated question of the importation of corn into this country, they have, of course, not overlooked the interest which is felt in this question by the province of Canada, and which has been expressed in Memorials from the legislative body, and from other parties, addressed to Her Majesty and the Legislature of this country, and although in present circumstances Her Majesty's Government have not felt themselves justified in recommending to Parliament a compliance with the general request of the various memorialists, that Canadian corn and flour should be imported at a nominal duty into the United Kingdom, I trust that the steps which we have taken, and the grounds upon which we have declined to advance further in the same direction, will convince the people of Canada that the course which we have pursued has been dictated by no unfriendly feeling towards the interests of Canada, and especially of Canadian agriculture.

The steps which have been taken, so far as they go, have been decidedly in favour of those interests. By the law, as it has hitherto stood, Canadian wheat and wheat flour have been admissible into Great Britain at a rate of duty estimated at 5*s.* per quarter, until the price in the English market reached 67*s.*, at which amount the duty fell to 6*d.* By the Bill which is now before Parliament, the duty of 5*s.* is leviable only while the price is below 55*s.*, and at 58*s.* falls to 1 *s.* only. But in addition to this reduction in the amount of price at which the lower duty becomes payable, it is proposed to take off the restriction which has hitherto been imposed upon the importation of Canadian flour into Ireland, and thus to open a new market to that which may justly be considered as one of the manufactures of Canada.

In the measures which they have adopted, not without the most anxious attention to the various interests involved, Her Majesty's Government have been desirous, while they gave a general facility of admission to the British market, of disturbing as little as possible the relative advantages possessed by the colonial and foreign suppliers of that market. In this sense, while they have continued to the Channel Islands the facilities which they have heretofore enjoyed, of a free importation of their own produce (limited as it necessarily is in extent) into Great Britain, together with the means which they at present enjoy, of having their own supplies furnished from the neighbouring and cheaper market, they have not felt themselves called upon to remove from the Isle of Man the restrictions which have been recently imposed on that island, as to its foreign imports, while it possesses the advantages of an unrestricted commerce with Great Britain. The same principle has guided Her Majesty's Government in the course which they have felt it their duty to pursue with regard to Canada.

It is impossible to be more fully convinced than are the Members of Her Majesty's Government of the importance to the interests, both of the colony and of the mother country, of maintaining between the two the most unrestricted freedom of commercial intercourse. Even a cursory examination of facts and figures must demonstrate the value to be attached in a commercial, and much more in a moral and political, point of view to the continuance and improvement of that rapidly-increasing intercourse; and Her Majesty's Government would have had much less difficulty in approaching the question of an unrestricted admission of Canadian wheat and flour into the British markets, if it had been in their power to look at that question as one of intercourse between Great Britain and her most important colony, and independent of all considerations of foreign trade. But it was impossible for Her Majesty's Government so to regard it,—it was impossible that they should not advert to the geographical position of Canada, in

reference to the great corn-growing States of the West of America,—it was impossible not to see that, however desirable it might be even to encourage the transit through Canada of the produce of those States, with the advantage to Canada of any manufacturing process which it might undergo in the transit, a relaxation of duty to the extent of free, or nearly free, admission would have been a relaxation not limited, as in this case it ought to be, to the produce of a British colony.

It is true that the Imperial Parliament, at the time that they admitted Canadian produce at a nominal duty, might constitutionally have imposed a corresponding duty upon the import of American wheat into Canada, and might thus have placed a check upon the undue influx of foreign, under the name of Canadian, produce; but looking back to the proceedings of the last Session of the Legislature of Canada, I find that such an impost was considered, and ultimately rejected; and whatever might be the view taken by Her Majesty's Government under a different state of circumstances, in which a tax imposed by Colonial authority, and of course receivable into the Colonial Treasury, upon wheat imported from the United States might secure the agriculturists of England against the competition of foreign growers, they have been unwilling to impose such a tax, by the authority of Parliament, upon a raw article which might be required for home consumption in Canada, and, in the absence of such a tax, have felt it impossible to propose to Parliament a further reduction than that which they have submitted in favour of wheat and wheat flour shipped from the ports of Canada.

I have to request that you will take an early opportunity, after the assembling of the Provincial Parliament, of laying before them so much of this despatch as may put them fully in possession of the principles on which Her Majesty's Government have proceeded in reference to wheat and flour imported from Canada, in the general consideration which it has been their duty to give, in the most impartial spirit, and with an earnest desire to consult and conciliate all conflicting interests, to the amendment of the laws regulating the importation of corn into the British Islands.

I have, &c.

COPY of a DESPATCH from the Right Honourable Sir *Charles Bagot*, G.C.B., to Lord *Stanley*.

No. 2. Despatch from the Right Hon. Sir Charles Bagot to Lord Stanley, 14 April 1842.

My Lord, Government House, Kingston, 14 April 1842.

I HAVE the honour to acknowledge the receipt of your Lordship's despatch of the 2d ultimo (No. 83), explaining the course which Her Majesty's Government have felt it their duty to adopt with reference to Canadian produce, in the measures which they have submitted to the Imperial Legislature for an alteration of the laws affecting the importation of corn into the United Kingdom. In obedience to your Lordship's commands, I shall communicate the substance of this despatch to the Legislature at their next meeting.

I have, &c.

(No. 234.)

EXTRACT of a DESPATCH from the Right Honourable Sir *Charles Bagot*, G.C.B., to Lord *Stanley*, dated Government House, Kingston, 11 November 1842.

No. 3. Despatch from the Right Hon. Sir Charles Bagot to Lord Stanley, 11 November 1842.

THE Wheat Duty Bill I have reserved for the signification of Her Majesty, because its provisions are mainly based, as its preamble declares, upon an anticipation that the Imperial Parliament may be induced to alter the law with regard to the duty on Canadian wheat and wheat flour imported into the United Kingdom. I shall have occasion shortly to address your Lordship further upon this important subject, and to transmit to you such information as may assist Her Majesty's Government in forming an opinion upon it.

Enclosure

Enclosure in No. 3.

(No. 134.)

AN ACT to impose a Duty upon FOREIGN WHEAT imported into this Province.

WHEREAS the free introduction of wheat and wheat-flour into the United Kingdom of Great Britain and Ireland from this Province would, by affording a market for these articles at all times certain and available, promote essentially the agricultural and commercial interests of Canada: And whereas foreign wheat is at present admitted free of duty into Canada: And whereas the intention of the laws of the United Kingdom aforesaid is to preserve the home market for Her Majesty's subjects by certain restrictions, and by the imposition of duties: And whereas the introduction of foreign wheat into the United Kingdom free of duty, after the introduction of the same into Canada free of duty, would be in manifest violation of the said intention of the laws of the said United Kingdom: And whereas the chief objection to the free admission of wheat and wheat-flour into the said United Kingdom from Canada arises from the free admission of foreign wheat into Canada: And whereas a certain despatch, addressed to the Governor of this Province by Her Majesty's Secretary of State for the Colonies, dated the Second day of March last, a copy whereof has been laid by his Excellency's command before the Legislature of this Province, affords the strongest ground for the confident belief and expectation that, upon the imposition of a duty upon foreign wheat imported into this Province, Her Majesty will be graciously pleased to recommend to Parliament the removal or reduction of the duties on wheat and flour imported into the said United Kingdom from Canada: Be it therefore enacted, by The Queen's most Excellent Majesty, by and with the advice and consent of the Legislative Council and of the Legislative Assembly of the Province of Canada, constituted and assembled by virtue of and under the authority of an Act passed in the Parliament of the United Kingdom of Great Britain and Ireland, and intituled, "An Act to re-unite the Provinces of Upper and Lower Canada, and for the Government of Canada," and it is hereby enacted by the authority of the same, That from and after the Fifth day of July next, there shall be raised, levied, collected and paid to Her Majesty, to and for the public uses of this Province, upon all wheat imported into this Province, except from the said United Kingdom, or any of Her Majesty's Possessions, and being the growth and produce thereof, a duty of Three shillings sterling money of Great Britain, for each imperial quarter of such wheat, and so in proportion for any greater or less quantity thereof. Encl. in No. 3.

And be it enacted, That foreign wheat imported by sea into this Province, for the use of the fisheries, shall be free of duty, and subject to the regulations expressed and enacted in regard to certain articles specified in the Eighth section of the Act of Parliament of the said United Kingdom, passed in the last Session of the said Parliament, and intituled, "An Act to amend the Laws for the Regulation of the Trade of the British Possessions Abroad."

And be it enacted, That the duties imposed by this Act shall be levied, recovered and received, under the same regulations, and in the same coins, to be received at the same rates, and according to the same weights and measures, and under the same penalties, to be enforced and applied in the same manner, and with the same restrictions and regulations for ensuring the payment or punishing the evasion thereof, as the duties imposed in and by the said Act, intituled, "An Act to amend the Laws for the Regulation of the British Possessions Abroad."

And be it enacted, That all sums which shall arise from the duty hereby imposed shall be paid over, by the officers receiving the same, to Her Majesty's Receiver-General for this Province and shall form part of the Consolidated Revenue Fund thereof, and shall, as shall also all fines, penalties and confiscations incurred under this Act, be accounted for to Her Majesty, Her heirs and successors, through the Lords Commissioners of Her Majesty's Treasury for the time being, in such manner and form as Her Majesty, Her heirs and successors, shall direct.

I do hereby certify the above to be a true copy of a Bill passed by the Legislative Council and Legislative Assembly of the Province of Canada, in the second Session of the first Provincial Parliament, and reserved for the signification of Her Majesty's pleasure, by his Excellency the Governor-General, on Wednesday, the Twelfth day of October, One thousand eight hundred and Forty-two.

COPY of a DESPATCH from Lord *Stanley* to the Right Honourable Sir *Charles Bagot*, G. C. B.

Sir, Downing-street, 1 February 1843.

No. 4. Despatch from Lord Stanley to the Right Hon. Sir Charles Bagot, 1 February 1843.

YOUR despatch of the 11th November last (No. 234), enclosing authenticated copies of the Acts passed by the Legislature of Canada during its last Session, and assented to by you in Her Majesty's name; together with copies of two Bills reserved for the signification of Her Majesty's pleasure, intimated your intention of transmitting by the next mail an explanation of the grounds of those measures. Especially with regard to the Wheat Duty Bill, you expressed your

intention of transmitting to me such information as might assist Her Majesty's Government in forming an opinion upon it.

I am well aware that, since the date of that despatch, the state of your health has furnished but too conclusive an impediment to your execution of the purpose which you thus announced to me; but as the time within which Her Majesty's decision on these laws ought to be pronounced is rapidly passing away; and as it is scarcely possible for me to proceed to that decision, unaided by the information which you have led me to expect; I would suggest to you that, if the state of your health should still prevent, as I fear it will prevent, the fulfilment of your intention, you should request the Executive Council of Canada to enter upon the consideration of the subject, and to furnish me with such information as to these enactments as may assist Her Majesty's Government in forming their decision. I would particularly direct your attention, in reference to the Wheat Duty Bill, to the exemption contained in the second clause, and request that you will consider how far that exemption might facilitate the commission of frauds upon the revenue; and especially report what security may be taken that, under it, foreign wheat may not be landed, converted into flour, and fraudulently re-shipped for importation, free of duty, into the United Kingdom.

I have, &c.
(signed) *Stanley.*

—No. 5.—

(No. 39.)
COPY of a DESPATCH from the Right Honourable Sir *Charles Bagot*, G.C.B., to Lord *Stanley*.

No. 5.
Despatch from the Right Hon. Sir Charles Bagot to Lord Stanley, 21 February 1842.

My Lord, Government House, Kingston, 21 February 1842.

I HAVE the honour to transmit to your Lordship herewith Petitions from the Board of Trade of Montreal to the Throne, and to the two Houses of the Imperial Parliament, praying the repeal of the duties now levied on the importation into the United Kingdom of certain articles of provision, the produce of Canada. I also enclose, for your Lordship's information, a copy of the Memorial to myself, which accompanied these Petitions, and of the Answer which I returned to it.

I have to request that your Lordship would lay at the foot of the Throne the Address to Her Majesty, and would intrust to Members of the Houses of Lords and Commons the Petitions addressed to those Houses respectively.

I have, &c.
(signed) *Charles Bagot.*

Enclosure 1, in No. 5.

To The QUEEN's most Excellent Majesty in Council.

The PETITION of the undersigned Merchants of Montreal, in Canada.

Encl. 1, in No. 5.

Humbly sheweth,

THAT the rapid increase of the trade and agriculture of Canada is in great danger of receiving a check from the want of a market for the produce of her soil.

That it is of the highest importance that the agricultural interests of Canada be fostered with the greatest care, as giving a means of subsistence to a numerous and rapidly-growing population, as well as of affording the best encouragement to the emigrant from the British Isles.

That the duties hitherto imposed on wheat and flour, although apparently moderate, act injuriously, inasmuch as, from the great distance from which those articles are transported, the remuneration afforded the Canadian farmer is not sufficient to allow even of the smallest impost: the duties on the coarser grains are almost prohibitory; while on beef, pork, butter, lard and cheese, they are completely so.

That the expense of inland transport, and freight across the Atlantic, is greater, in proportion to the produce of the soil in Canada, than are the rent and taxes paid by the farmer in Great Britain to the produce of the soil there; wherefore your Petitioners submit he is already sufficiently protected.

That the inhabitants of Canada, a British province, produce in abundance those articles which the mother country particularly requires, and take in return almost exclusively articles of British manufacture; therefore their produce ought to be regarded with especial favour.

Your

Your Petitioners would also respectfully suggest, that as the trade of Canada is carried on exclusively in British ships, the prosperity of that province is intimately connected with the maritime interests of the empire.

Wherefore your Petitioners most humbly pray, that your most Gracious Majesty will be pleased to recommend to Parliament the repeal of all duties now levied in the United Kingdom upon beef, pork, cheese, butter and lard, as well as upon wheat, rye, Indian corn, barley, oats, buck-wheat, beans, peas, and other grain, and the flour or meal made therefrom, such being imported from Canada.

And as in duty bound your Petitioners will ever pray.

Montreal, 1 February 1842. (Here follow the signatures of 159 persons.)

Enclosure 2, in No. 5.

To his Excellency the Right honourable Sir *Charles Bagot*, G. C. B., Governor-General, &c. &c. &c.

The MEMORIAL of the Board of Trade of the City of Montreal,

Respectfully sheweth,

THAT your Memorialists, considering it would be highly advantageous to the prosperity of Canada if the produce of its soil were allowed to be imported into the United Kingdom free from duty, have joined their fellow-citizens in a Petition to Her most Gracious Majesty and both Houses of Parliament, to grant the privilege prayed for. Encl. 2, in No. 5.

That your Excellency's expression of your desire to have the prayer of their Petition granted would, no doubt, have great weight with the Legislature of the empire.

Wherefore your Memorialists respectfully pray your Excellency to forward the same, accompanied by such remarks as to your Excellency may seem fit.

And as in duty bound your Memorialists will ever pray.

(signed) *J. T. Brondgeest*, Chairman,
and others.

Montreal, February 1842.

Enclosure 3, in No. 5.

ANSWER.

Gentlemen,

I SHALL lose no time in transmitting to the Secretary of State the Petitions which you have addressed to Her Majesty and the two Houses of Parliament, praying the repeal of the duties on certain provisions, the produce of Canada, on importation into the United Kingdom. I feel quite confident that this Petition, affecting as it does to so great an extent the interests of this Province, will receive an attentive and respectful consideration from Her Majesty's Government. Encl. 3, in No. 5.

Sir, Downing-street, 3 April 1842.

No. 6.
Despatch from Lord Stanley to the Right Hon. Sir Charles Bagot, 3 April 1842.

I HAVE received your despatch (No. 39) of the 21st February, enclosing Petitions to the Queen and to the two Houses of Parliament from the Board of Trade of Montreal, praying the repeal of the duties now levied on the importation into the United Kingdom of certain articles of Canadian produce.

I have to instruct you to inform the Petitioners, that I have had the honour to lay their Petition to the Queen before Her Majesty, and that Her Majesty was pleased to receive it very graciously, and to direct it to be referred for the consideration of the Lords of the Committee of Her Privy Council for Trade.

The Petition to the House of Lords will be intrusted to the Earl of Ripon for presentation; that to the House of Commons will be presented by myself.

I have, &c.

COPY of a DESPATCH from the Right Honourable Sir *Charles Bagot*, G.C.B. to Lord *Stanley*.

No. 7.
Despatch from the Right Hon. Sir Charles Bagot to Lord Stanley, 28 April 1842.

My Lord, Government House, Kingston, 28 April 1842.

I HAVE the honour to transmit to your Lordship herewith, in order that it may be laid at the foot of the Throne, a Petition from the merchants, millers, agriculturists, and others of the Home District of the late Province of Upper Canada, praying for the admission into the United Kingdom, duty free, of Canadian corn, and the imposition of the foreign duty upon American corn upon its importation into Canada.

This Petition is very numerously signed, and was presented to me on my late visit to Toronto. Although I fear that it will arrive too late to receive the consideration of Her Majesty's Government before the measures now before the Imperial Parliament for the alteration of the Corn Laws shall have become law, I have not felt myself at liberty to refuse the request of the Petitioners, that it might be transmitted to your Lordship.

I have, &c.
(signed) *Charles Bagot.*

Enclosure in No. 7.

To Her most Gracious Majesty VICTORIA, Queen of Great Britain and Ireland.

The PETITION of sundry Merchants, Millers, Agriculturists and others.

May it please your Majesty,

Encl. in No. 7.

WE, your Majesty's most dutiful and loyal subjects, merchants, millers, and other inhabitants of the Home District, in the Province of Canada, humbly beg to represent to your Majesty, that the agricultural interests of this province are frequently subjected to great depression, from the impossibility of procuring for the surplus grain, and other articles of provision which form the staples of our trade, such prices as will repay the labour and expense necessary for their production.

If these recurrences, so severely felt by your Majesty's Canadian subjects, were solely attributable to the peace and abundance which for many past years have prevailed throughout the greater part of the civilized world, we should be compelled to make up our minds to yield to the pressure of circumstances, and to take our chance of those changes which must at intervals be produced by the fluctuation of seasons, and by the operation of other causes equally uncertain; but we persuade ourselves that the evils which we feel admit of a remedy, through your Majesty's gracious interposition, and without injury to any of those great interests which it is the anxious care of your Majesty to protect.

The cultivation of wheat is undoubtedly the object to which, more than any other, your Majesty's subjects inhabiting this fertile region are destined to devote their exertions. The climate and the soil are alike favourable to its growth; the labour which it requires furnished ready employment, of the most desirable kind, to the multitudes which emigrate annually from the British islands; and while in each year it converts thousands of acres of barren wilderness into fertile fields, it supplies to a numerous, intelligent and loyal people that occupation which is of all others the most favourable to virtue and happiness, and to that manly independence of character which is necessary to the preservation of rational freedom.

Whenever a period occurs in which the farmer can obtain a fair price for this commodity, prosperity is every where visible; he is encouraged to extend the sphere of his industry by reclaiming larger tracts from the wilderness; the lands of the province immediately rise in value; our fellow-subjects from Europe are led to employ their capital in a pursuit which yields them an adequate profit; an increased consumption of British goods produces a revival of trade beneficial alike to the parent state and to the colony; an augmented revenue affords us the means of prosecuting those improvements in our roads and inland navigation to which the inhabitants of Upper Canada are as much tempted, by the natural advantages held up by a kind Providence to their view, as any people that can be named.

We should be ungrateful, indeed, if we doubted for a moment that it is the anxious wish of your Majesty, and of those who, under your Majesty, are intrusted with the powers of Government, to give to this province, of which the value is now well known, the earliest and most ample enjoyment of such advantages as our position in the empire can be made to confer. Your Majesty's royal predecessors have constantly given proofs that the welfare of Canada was an object earnestly desired by them; and at the very commencement of a reign, which we fervently pray may be long and glorious, it has been our happiness to recognize, in the powerful exertion promptly made for our protection in the liberal arrange-

ment

ment of the Government, which has given to the British American Colonies the advantage of a direct intercourse with England with the aid of steam, and in the reduction of the rate of postage (an amount little more than nominal), the most convincing assurance that we shall experience under your Majesty's rule no diminution of that fostering care under which we have hitherto flourished.

We have observed the discussions which have taken place in Great Britain of late years upon the important and interesting question of the Corn Laws; and, however difficult it may be to reconcile the opinions which are entertained respecting them, it is yet evident that no class of persons endeavours to vindicate restriction upon the trade in grain on any othe footing than that of absolute necessity.

But we can scarcely believe it possible that the most zealous defender of the Corn Laws, if he will apply his mind fairly to the subject, can imagine that the regulation, to which we now earnestly entreat your Majesty's attention, can be maintained in its application to this province by any such argument.

As the law now stands, the average price of grain in England is such as generally subjects the wheat of this country to a duty of Five shillings per quarter upon importation. It can hardly be supposed that such a duty can form a real and substantial protection to the English farmer; and yet it is sufficient to make the article of wheat in general a precarious and hazardous remittance from this country; and it disables the merchant from giving the price for it which is necessary for repaying to the farmer the cost of its production.

If it be apprehended that, under such encouragement, the surplus quantity of grain raised in the Canadas and exported to England, would interfere inconveniently with the English agriculturist, we are convinced that a slight examination of the subject will show the apprehension to be unfounded. The quantity of bread required for consumption in England is so immense, that the proportion which this province could furnish for many years to come would be too small to be felt as an injury to any interest; and yet the privilege of a free market for wheat, which would, in fact, supply but a very few days' consumption, would speedily elevate this province to a condition she must otherwise be very long in attaining.

If the ground of alarm should be, that a large quantity of the wheat grown in the United States would find its way through Canada into the British market, and be received free of duty to the prejudice of the home-grower, the answer is, that such an inconvenience may be obviated by collecting in Canada, upon all grain of foreign growth, when it is introduced into that province, the same imperial duty to which such grain floured in Canada is now subjected when imported into Great Britain, or by making the trade subject to such other regulations in that respect as Parliament may deem expedient; and your Majesty may be assured that it would be the disposition of the people of this province to assist, for their own sakes, in carrying into execution strictly, and in good faith, whatever regulations might be prescribed for securing to their own productions a discriminating advantage in the market of the mother country.

We do most earnestly entreat your Majesty, that the experiment may be made of a policy, which is certain to be attended by the following benefits to this rising colony:—It would bring rapidly into cultivation large tracts of wilderness, which will otherwise lie for a much longer period unproductive to the empire. It would enrich the province by a great annual accession of wealth won by patient labour from the soil. It would spread content and habits of industry throughout the land, by holding out a certain and adequate reward for exertion. It would strengthen the ties between the parent state and her colony, by augmenting largely the demand in this country for British goods; and by encouragement which it would hold out to emigration, it would relieve the English landholder, by diminishing the direct burthen of the poor's rates, and the many indirect taxes upon industry which are necessarily occasioned by a multitude of unemployed poor.

When we enumerate among the advantages of a free trade in grain the increased demand for British manufactures, which it would assuredly create, we speak of no doubtful or unimportant benefit; for the official information in possession of your Majesty's Government will show, that even at this early period, and under present circumstances, the provinces of Canada alone purchase a larger amount of British manufactures, and furnish employment to a much greater number of British ships, than several of the most populous kingdoms in Europe combined.

We shall anxiously hope to find that no class of your Majesty's subjects will be opposed to a relaxation which we sincerely believe would bring advantage to many, and injury to none; and, assuring ourselves of your Majesty's earnest desire to advance the welfare of the Canadas, and to accede to the reasonable wishes of Her people, we shall confidently look for a favourable answer to our prayer through your Majesty's most gracious interposition.

We beg to renew on this occasion our assurances of entire devotion to your Majesty's Person and Government.

(2,336 Signatures.)

COPY of a DESPATCH from Lord *Stanley* to the Right Honourable Sir *Charles Bagot*, G. C. B.

No. 8.
Despatch from Lord Stanley to the Right Hon. Sir Charles Bagot, 29 May 1842.

Sir, Downing-street, 29 May 1842.

I HAVE received your despatch (No. 93) of the 28th April, enclosing a Petition to the Queen from the merchants, millers, agriculturists and other inhabitants of the Home District of Western Canada, praying for the admission into the United Kingdom, duty free, of Canadian corn, and the imposition of the foreign duty upon American corn on its importation into Canada.

I have to instruct you to acquaint the Petitioners, that I have had the honour to lay their Petition before the Queen, and that Her Majesty was pleased to receive it very graciously.

Previously, however, to the arrival of this Petition, the Bill for amending the Acts regulating the corn trade had passed into a law.

I have, &c.

COPIES or EXTRACTS of CORRESPONDENCE relating to the DUTIES on WHEAT imported from the United States into *Canada*, or from *Canada* into the United Kingdom, since the 1st January 1842.

(*Mr. Charles Wood.*)

Ordered, by The House of Commons, *to be* 13 *February* 1843.

CORN LADEN SHIPS.

RETURN to an ORDER of the Honourable The House of Commons, dated 9 February 1843;—*for*,

A RETURN of the Number of SHIPS laden with FOREIGN CORN, entered Inwards at the Ports of the United Kingdom, between the 5th day of January 1842 and the 5th day of January 1843; specifying the Kinds and Quantities of Corn, the Ports of Lading and the Ports of Discharge, and whether in Ships of the United Kingdom or any other Nation, and to what Nation they belonged.—(*In continuation of Parliamentary Paper No.* 167, *of Sess.* 1842.)

Ordered, by The House of Commons, *to be Printed*
30 *March* 1843.

Under 3 oz

EXTRACT of a DESPATCH from the Right honourable Sir *Charles Bagot*, G.C.B., to Lord *Stanley*, dated Government House, Kingston, 27th January 1843, No. 20.

Extract of a Despatch from the Right hon. Sir Charles Bagot to Lord Stanley, 27 January 1843.

THE BILL for imposing a duty on Foreign Wheat will form the subject of a separate Despatch.

(No. 19.)

—No. 2.—

No. 2.
Extracts of a Despatch from the Right hon. Sir Charles Bagot to Lord Stanley, 27 January 1843.

EXTRACTS of a DESPATCH from the Right honourable Sir *Charles Bagot*, G.C.B., to Lord *Stanley*, dated Government House, Kingston, 27 January 1843.

I HAVE the honour herewith to transmit a Petition addressed to Her Majesty by the Board of Trade at Quebec, praying that the Royal Assent may be withheld from the Bill passed in the last session of the Canadian Legislature, by which a duty was imposed on the importation of foreign wheat into Canada, until the Imperial Parliament shall have passed a law authorizing the free admission into the United Kingdom of all grain and flour exported from this province.

As the preamble of this Bill asserts, and the proceedings in both Houses attest, this measure was passed under the expectation, that if the Canadian Legislature consented to lay a tax upon American produce, the British Government would be willing to recommend to the Imperial Legislature to remove all duty upon grain and flour received from Canadian ports.

To this anticipation they were led by the statements made by Ministers in the House of Commons during the discussions upon the Corn Laws and the Colonial Customs Duties Bill, and by your Lordship's despatches upon this subject, particularly that of the 2d March 1842, No. 83.

For Lord Stanley's Despatch, 2 March 1842, No. 83, vide Papers ordered by the House of Commons to be printed, 13 Feb. 1843, No. 18, p. 3.

It is a boon for which the producers and merchants of this province have long sought, and they hoped that when a change was made in the duty in England on foreign produce, they might, as far as Canadian produce was concerned, look to such an amount of favour as would keep undisturbed their relation to the foreign producer.

When they found that the chief obstacle to such an arrangement was the free admission of American produce into the province, they did not delay passing the measure which had been suggested and was deemed necessary to obtain it.

* * * * * * *

The attention which your Lordship and Her Majesty's Government have so lately given to this subject, renders it almost unnecessary for me to offer any observations or arguments upon it; I will, therefore, rather endeavour to supply such information with regard to prices and cost of transport as will enable you to judge whether any injury can arise to British interests from the desired concession.

Herewith I transmit a copy of a Report of a Special Committee of the House of Assembly of last session, upon a free trade with Great Britain in agricultural products. * * * * * * *

The rate of duty which the Canadian Legislature has fixed upon American wheat is that which was originally proposed by the Vice-President of the Board of Trade on the introduction of the Colonial Customs Bill. It is not excessive, nor likely to be burthensome on the Canadian consumer, while it exceeds the average of the duty now payable by Canadian wheat in England.

* * * * * * *

Enclosure 1, in No. 2.

Encl. 1, in No. 2.

To The QUEEN's most Excellent Majesty.

The PETITION of the PRESIDENT and COUNCIL of the QUEBEC BOARD of TRADE, incorporated by Act of the Legislature of Canada.

Humbly sheweth,

THAT during the last Session of the Imperial Parliament, a law was passed, imposing a duty of Two shillings per barrel on all foreign flour imported into any of the British possessions in North America, after the Fifth of July next; and that the Legislative Council and Legislative Assembly of this province have since passed an Act, to impose a duty of Three shillings per Imperial quarter on all wheat imported into Canada, after the same date, which Act was reserved for the signification of your Majesty's pleasure thereon.

That hitherto, foreign wheat and flour have been permitted to be imported into this colony free of duty, and that by far the greater part of the flour consumed therein, and exported therefrom, has been so imported, or manufactured from wheat the growth of those parts of the United States bordering on the Great Lakes and Rivers of Canada.

That the transport of such wheat and flour has afforded the chief means of employment to the vessels and craft belonging to your Majesty's subjects on the lakes, rivers and canals of this province, extending more than Three thousand miles above Quebec, as well as to the vessels engaged in the intercolonial trade, and that the whole of such vessels and craft are owned and manned by your Majesty's subjects.

That in the humble opinion of your Majesty's petitioners, the vast improvements made, and now in progress, in the internal communication of the province, would be rendered unproductive and nearly useless, were this trade destroyed or materially interrupted.

That the commercial interests of the province are now depressed and suffering to an unprecedented extent, chiefly in consequence of the measures lately adopted by the Imperial Parliament, withdrawing or greatly limiting that protection which its principal products formerly enjoyed in competing with foreigners in the markets of the mother country and your Majesty's other colonies.

That in consequence of these measures, your Majesty's subjects in this province, from their greater distance from these markets can only now successfully compete with foreigners therein under the most favourable and rare circumstances; and should your Majesty assent to the said Act of the Legislative Council and Assembly of Canada, without at the same time conferring on your Majesty's subjects in this province some countervailing privilege in their trade with other parts of the empire, your Majesty's petitioners firmly believe that the result will be the utter prostration of the trade of the country, and the ruin of those engaged in it.

That it appears from the preamble of the said Act, that it was enacted upon an express assurance by persons representing your Majesty's Government in the Legislature, that some such countervailing privilege would be granted, and that, without such an assurance, it would not have been passed.

Wherefore your Majesty's petitioners humbly pray, that your Majesty may be graciously pleased to withhold the Royal Assent to the said Act, until a law shall have been passed by the Imperial Parliament, authorizing the admission into the United Kingdom and the other colonies, free of duty, of all grain and flour exported from this province.

Wm Walker, President.	William Price.
G. H. Parke.	James Dean.

Enclosure 2, in No. 2.

Encl. 2, in No. 2.

REPORT of a SPECIAL COMMITTEE of the LEGISLATIVE ASSEMBLY of Canada, on the subject of a Free Trade with Great Britain in the Agricultural Productions of British North America, and of a Protection to those Productions from the Competition of Foreigners in the Colonial and Home Markets.—Ordered by the Legislative Assembly to be printed, 10th October 1842.

The Special Committee to which was referred the Petition of the Right honourable the Earl of Mount Cashell and others, Members of the North American Committee of the Colonial Society in London; the Petition of the Municipal Council of the District of Niagara; and the Return to the Address of the House of the 22d September last; with the several Despatches on the subject of the Importation of Wheat and Wheaten Flour, with power to report from time to time, have the honour to Report:—

THAT they have examined the several documents referred to, and feel gratified to witness the interest manifested by their fellow-subjects in Britain in the prosperity of Canada. (*See* Appendix, No. 1.)

Originating

Originating any measure relating to the alteration of duties, as recommended by the despatch of Lord Sydenham (*see* Appendix, No. 2) in the Provincial Assembly, by Bill, subject to the approval of the Imperial Parliament, as pointed out under the provisions of the forty-second clause of the Union Act, would remove the practical inconvenience and uncertainty which attend the practice heretofore adopted by Addresses.

The despatch from Lord Stanley, No. 83, dated 2d March 1842, has also engaged their attentive consideration.

For Lord Stanley's Despatch, 2 March 1842, No. 83, *vide* Papers ordered by the House of Commons to be printed, 13 Feb. 1843, No. 18, p. 3.

From our peculiar geographical position; from the relative and nearly balanced advantages possessed by the two rival communications with the Atlantic—the St. Lawrence and the Hudson Rivers; from the magnitude of the object and the various interests involved, your Committee have availed themselves of such statistical information as would enable them to comprehend the practical operation of the proposed duty.

First, with regard to the protection of the English grower:—

From the Statement in Appendix, No. 4, it appears that the cost of conveying a barrel of flour from the Welland Canal to any port in the United Kingdom, by way of the St. Lawrence, is 14*s.* 6*d.* It also appears that wheat must command from 4*s.* to 5*s.* currency, or 4*s.* 6*d.* sterling, per bushel, to remunerate the Canadian grower. (*See* Appendix, No. 6.)

After the completion of our communications, a reduction will be made in the transit of 2*s.* 6*d.* per barrel. Flour must still command, in Britain, 33*s.* sterling, per barrel, to ensure our growers a remunerating price, which will afford ample protection to the English grower, and as it is entirely the result of natural causes, it can only be effected by Imperial legislation.

As it respects the admission into Canada of American products from the Western States, it appears that the freight of a barrel of flour from Cleveland, Ohio, to Lake Ontario, is 1*s.* 6*d.*, which, added to the above, with the proposed duty, will sufficiently protect the home producer against all American competition from this quarter, through the channel of the St. Lawrence.

With regard to the carrying trade:—

All the grain grown in Canada will not supply the consumption of British North America, and, if it were all shipped to England, and the population of our commercial towns were supplied from the United States, the quantity of our own so exported would be very limited for many years to come.

By reference to Appendix, No. 5, it will be seen that the cost of transit on a barrel of flour to Liverpool, through the Erie Canal, is 3*s.* 1½*d.* less than by the way of the St. Lawrence; when this is added to the proposed duty, it will give 5*s.* 1½*d.* in favour of New York. By reference to the table of duties, it will be found that this difference only accrues when wheat averages between 61*s.* and 62*s.* per quarter. (*See* Appendix, No. 7.) And whenever prices in Britain exceed that average, the products of the Western States will be conveyed by the Erie Canal. After the enlargement of the Erie Canal shall have been completed, which is our most formidable rival, notwithstanding the reduction heretofore mentioned by the St. Lawrence, the cost of transportation through the two channels will be so nearly equal, that to the transit through the latter a decided encouragement should be given by the Home Government for at least a few years. If grain cannot be exported to England at a profit to our grower, unless flour reaches 33*s.* per barrel, and wheat from 60*s.* to 61*s.* per quarter, the transit of Western flour will be diverted through the Erie Canal, and it follows that unless prices in England steadily range from 55*s.* to 61*s.* per quarter, our growers cannot benefit by the home market, and our carrying trade will become so uncertain, that few, if any, will embark in it, and the vessels and craft now engaged must be continued at a hazard of employment.

By reference to the despatch, it will be seen that the loss of this trade has never been contemplated by the Home Government: its preservation and encouragement must, then, become a subject of both Imperial and Colonial legislation.

It is most desirable to place this branch of commerce on a certain and permanent footing, which, in the opinion of your Committee, can be effectually accomplished, as far as this Legislature is concerned, by allowing a drawback at Quebec or Montreal, whenever the price of flour exceeds 30*s.* sterling, per barrel, at the ports of Quebec and Montreal, which, by adding the price of transportation, will bring the average in Britain, at 77*s.* 11*d.* per quarter.* By this arrangement both the English and Canadian grower will be effectually protected, without hazard, loss or injury to any other interest.

With regard to the agricultural interest of Canada:—

One of the most striking advantages which this measure confers upon the Canadian grower is, that although he cannot, for reasons already assigned, successfully compete with the grower in England, still he will realize the full benefit of the home market, as well as that of British

---

* *Note.*—The Imperial quarter is equal to 9 bushels and 20 lbs. wheat, at 60 lbs. to the bushel.

	£.	*s.*	*d.*
The barrel of flour of 5 bushels in Montreal or Quebec	1	10	–
Freight thence to England	–	7	11
Would bring the barrel to	£. 1	17	11

or 3*l.* 10*s.* 9*d.* sterling per quarter of wheat.

British North America, from which he has hitherto, under the existing system, been too successfully excluded by his more fortunate rival—the American grower.

It appears from the Minutes of Evidence, as well as from the numerous Addresses of the Legislature to the Home Government, that the agricultural interest, as well as the trade of the country, is in a very depressed state.

The protection which will be afforded by the proposed duty will ensure to the Canadian grower a higher price for his products, and induce the investment of capital for agricultural purposes in this province in preference to the United States. It will transfer the duties on the articles when imported from the mother country to articles which compete with what he produces. It will also preserve our carrying trade, by securing the transportation through Canada when prices are high in England, when otherwise it would be directed through the Erie Canal. It will have a direct tendency to create an extensive home market, by the increasing employment in navigating our waters; and it will materially lessen the price of transportation, by diminishing the price of tolls and conveyance through our canals by the increased trade thus created.

The value and importance of the trade with the Western States:—

From the despatch alluded to, it is evident that the value of this trade, together with the advantages to Canada of every manufacturing process which it might undergo in the transit, has been under consideration.

The proposed duty of 3*s.* sterling, per Imperial quarter, on wheat, is equal to $4\frac{4}{10}$ *d.* per bushel of 60 lbs. The duty of 2*s.* per barrel on flour imposed by the British Possessions Act, is equal to $5\frac{1}{4}$ *d.* per bushel; this difference is insufficient to secure this advantage we now possess, but may be provided for in the scale of duties hereafter to be proposed. If the raw material, say wheat, shipped in Cleveland, is worth 3*s.* 9*d.* per bushel, or 18*s.* 9*d.* per barrel of flour, the remainder of the cost to the consumer in Britain is secured by this trade to British subjects, in the shape of duties, labour, milling, transit, shipping and profit.

If the colonies of the British Empire are maintained at a great expense for the sake of their trade, the securing and controlling that of the Western States, and making them in effect colonies for the like purposes, is an object of no ordinary moment, particularly when it can be obtained without expense or even negotiation. The removal of all existing duties between the ports of the mother country and Canada, so soon as sufficient revenue can be raised from duties on foreign articles, tolls on our canals, and other sources, will not only secure this trade, but supply the Great Western States with the manufactures of Great Britain, and by reducing the price of outward freight, it would enable us successfully to compete with any other channel of trade to Great Britain from the Continent of America.

To accomplish this great object, and to secure Her Majesty's subjects in Canada the full benefit of the declaration of the enlightened statesman who presides over the Councils of the United Kingdom, your Committee recommend the following Resolutions for the consideration of your Honourable House, with a view, if approved, to form an Address to Her Majesty theron:

Resolved,—That this House feels every confidence that the public declaration made by the enlightened Statesman who presides over the Councils of the mother country will be carried into effect, and that Canada will hereafter be treated as though she were an integral part of the empire.

Resolved,—That this desirable object can only be attained by removing all duties on the products of Canada, particularly all descriptions of grain and meal, when admitted into the ports of the mother country; and in strict conformity to that principle, the Legislative Assembly will take the earliest opportunity, so soon as the finances of the province for the support of the Government and its engagements for the security of the public debt will admit, to recommend the removal of all duties on the manufactures of the mother country when admitted into the ports of Canada from sea.

Resolved,—That they have every confidence that the revenue arising from foreign commerce and the tolls on our canals will enable the Provincial Government to make this reduction in a few years after our great leading communications to the ocean are opened.

Resolved,—That with a view of securing the transit of the Western States of America through those waters, it is indispensable to allow a drawback on all grain and flour shipped to Britain from the ports on the St. Lawrence whenever the price of flour exceeds 30*s.* sterling per barrel at the ports of Montreal and Quebec.

Resolved,—That an humble Address to Her Majesty be founded on the above Resolutions.

All which is respectfully submitted.

8th October 1842. *Wm. Hamilton Merritt*, Chairman.

MINUTES OF EVIDENCE.

WILLIAM HAMILTON MERRITT, Esquire, in the chair.

Friday, 30 Septem er 1842.

The following QUESTIONS were submitted to several gentlemen engaged in the forwarding Trade, and their joint replies thereto are annexed :—

1. What is the present price of wheat on the shores of Lake Ontario and Lake Erie?
2. What is the expense of transportation of a bushel of wheat to Montreal?
3. What are the charges from thence to Britain including all charges?
4. Notwithstanding American grain has been admitted free from duty and exported as colonial, has the capital invested in milling and purchase of grain yielded a profit?
5. What should be the price of wheat on Lake Erie to remunerate the grower?
6. Do you think the statement of cost of transportation on a barrel of flour (Appendix Nos. 4 & 5) correct?
7. After the completion of the St. Lawrence Canal, what reduction will take place in freight?
8. At the present rate of duties on flour in Britain, what must be the average price of wheat to ensure the transit from the Western States through the St. Lawrence?
9. What is the price of a bushel of wheat from Cleveland to Liverpool, *via* New York?
10. Is there a sufficient quantity of bread stuffs grown in Canada to supply the consumption of British North America?

ANSWERS to the preceding QUESTIONS.

1. The present price of wheat on the shores of Lake Erie, 2*s.* 9*d.*; Ontario, 3*s.* 1½*d.*; freight from Chicago, Michigan, to St. Catherine's, Welland Canal, 9*d.*; from Cleveland, Ohio, to St. Catherine's, Welland Canal, 6 cents, thence to Kingston, 2 cents.
2. Freight from Kingston to Montreal, 7½*d.* per bushel.
3. Freight from Montreal to England of a bushel of wheat, 2*s.* to cover all charges.
4. Milling and wheat speculations with very few exceptions within our knowledge, for the last 20 years, have been unprofitable.
5. The price of wheat on Lake Erie, to remunerate the grower, ought not to be less than 4*s.*
6. The statement of transport, as shown in Nos. 4 and 5, we consider correct.
7. The completion of the St. Lawrence Canal must reduce the rate of freight to Montreal 33⅓ per cent.
8. The averages in England must be 60*s.* per quarter, to ensure the trade by the St. Lawrence; when over that, the Americans can send their own wheat more advantageously to England, *via* New York.
9. The freight of a bushel of wheat from Cleveland to Liverpool, *via* New York, is 1*s.* 8*d.* per bushel.
10. No.

Macpherson & Crane.
Hooker, Henderson & Co.
Sanderson & Murray.
McGibbon, Ferguson & Co.
H. C. S. Jones.

Mr. W. S. McDonald, of Gananoque, being interrogated, answered :—When the average of wheat in England is 57*s.* sterling per quarter, our duty advances to 2*s.* sterling per quarter.

	£.	s.	d.
At 57*s.* per quarter, 60lbs. of wheat is worth	–	6	1
Add exchange and difference of currency	–	1	2
Value in currency	–	7	3
One bushel wheat free on board in Montreal at	– 5 –		
Freight and other charges to Britain	– 2 –		
	–	7	0
Only a margin of	£. –	–	3

Now, at 5*s.* per bushel, free on board in Montreal, the farmer on the shores of Lakes Erie and Ontario cannot obtain more than 3*s.* to 3*s.* 6*d.* currency per bushel for his wheat; a price at which it cannot be grown and pay the producer.

The above statement is made to show that the present duty in Britain is not of serious consequence, as we cannot export wheat when the price in England is so low as to bring a duty on colonial.

STATEMENT showing the effect upon the Canadian Miller as compared with the American, when the Duties both on Flour and Wheat are levied.

AMERICAN.

5 bushels wheat at Circleville, Ohio, at 50 cents		$ 2	50
Freight of 1 barrel flour to Cleveland	62½ cents.		
Ditto - - ditto - - Kingston	37½ „		
Ditto - - ditto - - Montreal	40 „		
		1	40
Duty proposed		—	50
		$ 4	40

Equal to 22*s.* per barrel, delivered in Montreal.

CANADIAN.

5 bushels wheat at Circleville, at 50 cents		$ 2	50
Freight of 1 bushel wheat to Cleveland at 20 cents		1	—
Ditto - - - ditto - - Kingston at 8 cents		—	40
Freight of 1 barrel flour to Montreal		—	40
Duty per bushel at 5*d.*		—	41
		$ 4	71

Equal to 23*s.* 7*d.* per barrel, delivered in Montreal.

Difference in favour of the American miller, 1*s.* 7*d.* currency.

When the average in England of wheat is 66*s.* sterling per quarter, which is about the price at which the trade can be carried on profitably to all parties in Canada, the following shows the comparative cost of a barrel of flour taken at Cleveland, and sent to England, *via* New York, and of five bushels of wheat, taken at same place, sent to Gananoque, ground, and the flour shipped *via* Montreal.

AMERICAN ROUTE.

1 barrel flour, freight to Oswego	37½ cents.			
Ditto to New York	50 „			
	87½ cents.	£.	4	4½
New York to England		—	1	1½
Duty 3*s.* 7*d.* sterling		—	4	4
		£.	9	10

CANADIAN ROUTE.

Freight 5 bushels wheat to Gananoque,	40 cents			
1 barrel flour to Montreal	40 „			
	80 cents.	£.	4	—
Montreal to Britain		—	4	6
Duty 7*d.* sterling		—	—	9
		£.	9	3

Difference in favour of the Canadian route only 7*d.* per bushel; this may be increased to 1*s.* 9*d.* to 2*s.* when our improvements are finished, but completely destroyed by the imposition of the proposed duty.

List of Appendix.

No. 1.—Petition of the Right honourable the Earl of Mount Cashell, and others.
No. 2.—Extract from a Return to an Address of the Legislative Assembly of the 22d September 1842.
No. 3.—Extract from the same, being copy of a despatch from Lord Stanley to Sir Charles Bagot, G. C. B., dated 2d March 1842.
No. 4.—Freight and charges on one barrel of flour from Cleveland to Liverpool, *via* Montreal.
No. 5.—Statement of charges on a barrel of flour from Cleveland to Liverpool.
No. 6.—Question submitted to the Members of the Legislative Assembly, as to the price wheat should command in their respective districts to yield an interest on the capital invested in land, or to remunerate the grower.
No. 7.—Extract of the scale of Duties under the late Corn Law passed in the last Session of the Imperial Parliament.

Appendix, No. 1.

Petition of the Right honourable the Earl of Mount Cashell, and others.

To the Honourable the Commons House of Assembly of Canada, in Provincial Parliament assembled.

We, the undersigned Members of the North American Committee of the Colonial Society, having recently addressed a memorial, of which the annexed is a copy, to the Right honourable Lord Stanley, Her Majesty's Principal Secretary of State for the Colonies, setting forth the importance of a free trade with Great Britain in the agricultural productions of British North America, and of a protection to those productions from the competition of foreigners in the colonial and home markets, humbly entreat the consideration of your Honourable House to the importance of such protection, so that objections may no longer be urged to the admission of those productions free from any duty, in the home market, and that there may be but one imperial interest between the British American provinces and the mother country.

The memorial hereto annexed contains the opinions of the petitioners on this very important subject; and in submitting it to the consideration of your Honourable House, the object of the undersigned is to pray for the adoption of such legislative measures in the Provincial Parliament as may be deemed best adapted to promote the most intimate union of interests between Great Britain and British North America, which the undersigned consider particularly deserving of attention at this time, when a very extensive emigration is taking place to Canada. It appears to the undersigned that the only certain means of enabling this large population to establish themselves in Canada, with advantage to themselves and the province, and of insuring a full stream of emigration to the colony hereafter, is to give every possible encouragement to the cultivation of the soil, by the measures recommended in the annexed memorial.

Copy of the Memorial referred to in the preceding Petition.

To the Right Honourable Lord *Stanley*, Principal Secretary of State for the Colonies.

My Lord,

The North American Committee of the Colonial Society considering the extensive emigration now proceeding from this kingdom, which has existed for many years past, and which may be expected still to increase in consequence of the superabundant population beyond the means of employment, and considering the infinite importance to the empire that this surplus of its population should be so directed as to increase its general wealth and prosperity, have ascertained the amount of emigration in the last two years, and the different countries to which it has proceeded, by referring to the Parliamentary Returns for the years 1840 and 1841, from which it appears that a very large proportion, amounting to 156,116 out of 209,335 persons, who emigrated in 1840 and 1841, proceeded to North America, of which 85,659 went to the United States, and 70,457 to the British provinces. The fact of the great number going to North America, amounting altogether to three-fourths of all those who emigrated, and that without public assistance, serves to show that North America is considered to offer greater advantages to British emigrants than any other part of the world, which may be ascribed to its vicinity, the cheap and easy communication with this country, its soil and climate, so well adapted to the health and enjoyment of the inhabitants of this kingdom, and the identity of its language. It appears, also, that the proportion of persons who proceed to the United States is much larger than of those who establish themselves in the British American provinces; and as

this proportion consists in great degree of the class of persons having capital, the Committee have been anxious to ascertain the causes which lead to a result so injurious to the best interests of the empire. There appears to be no reason for supposing that the Government, laws or manners of the United States offer any temptation to Britons; or that the climate or soil have any advantage over those of the British Provinces. They have taken every pains to ascertain whether any real causes exist in Her Majesty's North American Colonies to prevent the introduction and settlement therein of emigrants, particularly those having capital.

In pursuing this inquiry they find that great dissatisfaction has long existed in Canada on a subject which appears not to be correctly understood by the British public. In the Address to Her Majesty from the Legislative Assembly of Upper Canada, dated 4th January 1840, reasons are assigned for the depression of agriculture, which, if well founded, as we believe they are, deserve the most serious attention. It appears that not only the principle of protection extended to the growers in Great Britain is withheld from the agriculturists in Canada, but that whilst the market in Canada is open to the whole world, including the neighbouring States of America, for the importation of agricultural productions, free from any duty, the productions of Canada are subject to a heavy duty on importation into the United States and into the mother country, being the only markets upon which they can depend, as they are deprived of the advantage of the intercolonial markets, particularly that of the West Indies, which was formerly of great importance to Canada, by the alteration of the colonial duties of late years. The natural advantages of situation possessed by the United States, for supplying the British West Indies, were always greatly in favour of the United States, which, added to the alteration of duties, will destroy the trade of British North America with those Colonies.

In 1833, the Commons House of Assembly of Canada addressed the Home Government, praying for relief; and among other reasons assigned for the free admission of their products in the markets of Britain, were the great distance of the wheat-growing districts in Canada from the sea, and the high price of transportation, always affording a natural and certain protection to the British grower, which is fully borne out by the annexed statement marked (A.), showing the expense to the Canadian grower of the transportation of wheat to this country, to be 26*s.* 2*d.* currency, or 23*s.* 7*d.* sterling, per quarter. A further expense attends the transmission of wheat from the Western parts of the United States, and this natural protection the inhabitants of Canada are desirous of increasing, by imposing a duty on American grain and other produce, on their frontier, so as to protect their own home growth in their own as well as the British market. Strong expressions of this opinion have been made recently in Canada, for which reference may be made to the petition from the merchants of Montreal, and to that from a very large body of agriculturists in Western Canada, recently forwarded through the Canada Company; the sentiments contained in which have been brought under your Lordship's notice very recently; and similar addresses and representations have been repeatedly sent home of late years, all tending to show the importance attached by the inhabitants of Canada to an open trade with Great Britain, and to protection in their own market from the competition of the rest of the world, and of the United States in particular, who themselves protect their home growth by duties.

The Committee believe that the great objection entertained in this country to the admission of the agricultural productions of Canada into the home market free of duty, is the fear that it would not be limited to the articles grown in the colonies, but that the grain and other productions of the United States would be introduced through the colony, as if they were Canadian. To obviate this, and to protect their own agriculture, the colonists are willing to impose a sufficient duty on their frontier forthwith; but doubts have been expressed whether this trade would not be conducted by smuggling across the frontier, notwithstanding any regulation in the Canadian ports. The Committee have made inquiry into this question, and they believe that no such smuggling would take place, for the following reasons:—

First. The inhabitants of Canada, whose prosperity depends entirely on agriculture, are very anxious for a protection which a duty levied on their frontier would afford them; and they would unanimously support the execution of a law for that purpose.

Secondly. The growth of wheat in the United States, the chief article respecting the introduction of which through Canada any anxiety exists, is confined to that part of the country bordering on Canada to the west, where the boundary line between the two countries is formed by the lakes; and the produce must necessarily therefore be shipped, and landed on the Canadian ports or shores; if in the former, which are few in number, the duty would always be levied; and if attempted on the latter, which would be difficult, the expense of transportation, the landing in boats, and taking up the country, would be attended with such expense, as to render it worth while to the parties to pay the duty at the ports in preference.

Canada has now become an exporting country, and will be capable gradually of supplying Great Britain with any quantity of corn that may be required, if the British market is open to her productions.

The Committee are desirous of drawing your Lordship's attention to the importance of encouraging the importation of corn from a country which will assuredly receive payment for it in British manufactures, and to the great advantage to this country of such an exchange; particularly considering that the cultivators in Canada are persons settled there, who were unable to maintain themselves at home, but have now become growers of food enough for

for their own support, and a surplus to exchange for the labour of their fellow-countrymen at home; and every part of this trade, from the cultivation of the farm to the navigation of the Atlantic with the produce home, directly supports the British manufacturer and mariner.

The Committee would, therefore, strongly recommend, that the agricultural productions of the North American Colonies should be admitted to the home market free of duty; that the colonists should be encouraged to impose such duties on foreign productions as they think desirable for the protection of their own growth, and the British agriculturists; and that the intercolonial duties should be so regulated as to give an advantage to the colonists in the intercolonial trade over the inhabitants of the United States and other foreigners. Canada and the British North American Colonies would then really become an integral part of the British Empire, and rise rapidly in wealth and importance, and the most beneficial effects be produced; perfect confidence would be reposed in the future prosperity, peace and welfare of those valuable colonies, and every British subject seeking a new settlement in North America would at once decide upon establishing himself in the British territories.

The present system of duties never gave satisfaction to Her Majesty's subjects, either in the colony or the mother country; their continuance must inevitably direct the attention and energies of the colonists to encourage manufactures for the purpose of creating a home market for the produce of their soil: this can only be effected by imposing increased duties on our manufactures, and must lead to the establishment of the same adverse interest which exists in the Eastern States of America.

If taxes were imposed by the colonists on foreign productions imported, particularly wheat and flour from the United States, for the purpose of raising revenue to defray the expenses of the local government; the taxation on manufactured or other articles imported from home might be reduced in a proportionate degree, and the coasting trade of Britain might be more easily extended to the utmost limits of Canada, without other restrictions than those which exist between London and Dublin, or Edinburgh.

Not only would the colonists receive their supplies of manufactured goods from the mother country, but the inhabitants of the Great Western Country of the United States would find it for their interest to obtain their supplies of goods by the Canadian frontier; and for all purposes of commerce, this country would derive the same advantages as if that Great Western land continued to be a colony of the empire.

Instead of the continued doubt and uncertainty which prevails in British North America, every inhabitant would be made to see and feel, from the increased value of his products and the diminished cost of the articles he consumes, as well as from the rapid extension of their internal trade, the full value of his connexion with the mother country, and a far more certain and permanent reliance might be placed on the connexion of those valuable colonies by such measures than by the expenditure of millions in the erection of fortifications and the maintenance of troops, as every man's hand and heart would be engaged in supporting the interests of the empire, and the colonists would set at defiance all the efforts of foreign opposition or ambition.

Your Memorialists, considering the whole subject of the greatest possible importance to the welfare of the empire, and entertaining the most sanguine expectation that the measures they have recommended would promote the mutual interests of the mother country and the North American Colonies, have transmitted a similar representation to the Legislature of Canada, urging them to adopt the measures herein recommended; and your Memorialists humbly pray that your Lordship will be pleased to take their opinions into consideration, hoping that you will think it right to recommend their adoption to the Cabinet so soon as in your Lordship's opinion a favourable opportunity arises for the purpose.

Statement (A.) referred to in the preceding Memorial.

From the printed Returns laid before Parliament, we find the following charges for conveying one bushel of wheat from Hamilton, the upper part of Lake Ontario, to Montreal, the nearest seaport:—

	£.	s.	d.
Storage and shipping at Hamilton	–	–	2½
Burlington Bay Canal toll	–	–	–¼
Freight through Lake Ontario	–	–	3
Freight from Kingston to Montreal, River St. Lawrence	–	–	7½
Insurance 1 *d.*, storage in Montreal 2 *d.*	–	–	3
Commission and guarantee	–	–	3½
Making in all for one bushel of wheat	–	1	7¾
Eight bushels of wheat to the quarter gives	–	13	2
The charges from Montreal to London are estimated from 13*s.* to 16*s.* per quarter; by taking the least	–	13	–
It leaves a protection to the English grower of	1	6	2

without adding the additional price of labour on the original cost of the article.

Appendix, No. 2.

EXTRACT from a Return to an Address of the Legislative Assembly of the 22d September 1842.

EXTRACT from a DESPATCH from the Right Honourable *C. P. Thomson*, late Governor-General of Canada, to Lord John Russell, dated Government House, Montreal, 26th May 1840, in as far as the same relates to the transmission of an Address from the Legislature of the late Province of Upper Canada, praying for the introduction of Canadian Corn into Great Britain, free from duty, and to empower the Legislature of this Province to originate measures relating to the Colonial Trade generally.

"THE House of Assembly have transmitted another address, praying for the introduction of Canada corn into Great Britain, free of duty, and they further pray that the Local Legislature may be empowered hereafter to alter the trade regulations of the colony, in those cases in which they may be affected by the Imperial laws relating to colonial trade generally, subject however to the restriction that such laws shall not receive the assent of the Crown until they have been laid before both Houses of Parliament, and shall have been suffered to pass without address from either.

"Upon the first of these objects, it is needless for me to offer any remark. The question can only properly be considered with reference to the whole subject of the Corn Laws, and I certainly do not think that, looking to the average price of corn in ordinary years in Great Britain, the colonies have any right to complain of the footing on which they now stand.

"The second point is an extremely important one. I am undoubtedly of opinion that the regulation of the principles on which colonial trade is to be conducted ought to be reserved entirely to the Imperial Parliament. The power of regulating it is one of the principal advantages resulting from colonial possessions, and, if justly exercised, affords one of the main compensations for the expenditure which the mother country is compelled to incur for the defence and protection of the colony. But whilst I admit this, to its fullest extent, I have at the same time been obliged to observe the great inconvenience, and even loss, which results to the colony from the necessity which now exists for all changes in this respect originating in England. There are a vast number of small points seriously affecting the interests of colonial trade, and not at all disturbing the general principle or objects sought to be established by Imperial Legislation, in which a change is frequently found to be desirable. Great difficulty exists, in the first place, in explaining these points at home, and, next, in proving that they are of sufficient importance to demand legislation there; but even if this be done, I know myself, from experience in that department, too much difficulty and delay unavoidably arise in carrying such measures through Parliament. I am therefore very much disposed in favour of the middle course now suggested by the Assembly. If the Local Legislature be permitted to originate measures of this description, I entertain no doubt that they would be able to introduce many improvements very beneficial to the trade of the colony, and not at all injurious to Imperial interests. These, when sent home, could receive the assent of the Crown and Parliament, whilst, if they meddled improperly with matters affecting the general interests of trade, their work would be without effect, and be open to immediate rejection. If your Lordship shall concur in this view of the case, and shall be inclined to grant this extension of power to the colony, subject to the restriction I have stated, it would be better perhaps to pass an Act specially for the purpose than to incorporate it in the Union Bill."

EXTRACT from a DESPATCH from the Right honourable Lord *John Russell*, of the 1st July 1840 (No. 171), to the late Governor-General of Canada, in as far as the same relates to the transmission of an Address from the Legislature of the late Province of Upper Canada, praying for the introduction of Canadian Corn into Great Britain, free from Duty.

"WITH regard to the address on the subject of the introduction of Canada corn into Great Britain, and regarding the proposal to invest the Provincial Legislature with the power of regulating, under certain restrictions, the trade of the empire at large, so far as it affects Canada, I have, in obedience to Her Majesty's commands, communicated that address, with your remarks upon it, to the Lords of Committee of Privy Council for Trade, for their Lordships' consideration."

(No. 267.)

My Lord, Downing-street, 1 December 1840.

I ENCLOSE the copy of a letter which I have received in which a suggestion is offered with respect to the admission into this country, free of duty, of Canada wheat, flour, and other agricultural produce; and I request that you will give this subject your consideration.

I have, &c.

The Right honourable Lord Sydenham. (signed) *J. Russell.*

(No. 320.)

(No. 320.)

My Lord, Downing-street, 3 March 1841.

ADVERTING to your Lordship's despatch, No. 115, of the 26th May 1840, in which was enclosed an Address to the Queen from the House of Assembly of Upper Canada, respecting the trade regulations of the province, and the repeal of the duties levied upon agricultural produce imported from Canada into the United Kingdom, to my answers thereto of the 1st July, No. 171, and to your Lordship's recent proposition for altering the clause of the Royal instructions, which prohibits the provincial legislature from legislating on subjects connected with the trade of the British empire, I have to inform your Lordship that the Lords of the Committee of Privy Council for Trade have considered the recommendations contained in your despatch, and the Address, and I shall communicate to your Lordship by the first opportunity the decision of Her Majesty's Government thereupon.

The President of the Board of Trade will bring before the House of Commons on Friday, the 12th instant, several propositions connected with this subject, and I regret that they are not sufficiently matured to enable me to transmit them to you by the present mail.

It will be the object of the Queen's Government to free the trade of Canada from restrictions which are unnecessary, and at the same time to do justice to the industry and manufactures of the United Kingdom.

I have, &c.

(signed) *J. Russell.*

The Right honourable Lord Sydenham,
&c. &c. &c.

QUESTIONS submitted to the Members of the Legislative Assembly, as to the price wheat should command in their respective districts, to yield an interest on the capital invested in land, or to remunerate the grower.

What price should wheat command per bushel in your district, to yield an interest on the capital invested in land, or to remunerate the grower?

NAMES.	DISTRICT.	Price per Bushel. s.	d.	REMARKS.
Boulton, Henry John	Niagara	4	–	- - But I think it should command 5*s.*
Boswell, G. M.	Northumberland, (South Riding)	5	–	
Boutillier, Thomas	St. Hyacinthe	5	–	
Cameron, Malcolm	Lanark	5	–	
Chesley, S. Y.	Cornwall	6	3	
Child, Marcus	Stanstead	5	–	- - Ours is not a wheat country.
Christie, Robert	Gaspé	10	–	
Cook, John	Dundas	5	–	
Delisle, A. M.	Montreal	5	–	- There is not enough grown for home consumption on account of the fly.
Derbishire, S.	Bytown	5	–	- - When it can be raised free from the fly.
De Witt, Jacob	Leinster	5	–	
Dunlop, William	Huron	5	–	- - Even at that price the remuneration is small, as labour is higher in my district than in any other in the province.
Forbes, C. J.	Two Mountains	5	–	- Not growing wheat on account of the fly.
Foster, S. S.	Shefford	5	–	- - Ours is not a wheat country.

* *Note.*—The charges in Liverpool are equal; the difference between Montreal and New York and Liverpool arises in freight and insurance, the former being 4*s.* and 6*d.* 3-8; the latter 1*s.* 6*d.* and 4*d.*

Appendix, No. 6.

QUESTION submitted to the Members, &c.—*continued.*

NAMES.	DISTRICT.	Price per Bushel.	REMARKS.
		s. *d.*	
Gilchrist, John	Northumberland (North Riding)	5 –	-- When wheat is at 5*s.* at Cobourg, only 4*s.* 6*d.* can be obtained with us, in consequence of transport.
Hale, Edward	Town Sherbrooke	5 –	
Hamilton, J. R.	Bonaventure	10 –	
Hincks, Hon F.	Oxford	5 –	
Hopkins, Caleb	Halton (East Riding)	5 –	
Johnston, James	Carleton	5 9	-- To 6*s.* 3*d.*; this will merely pay in a good season.
Kimber, René J.	Champlain	5 –	
Macdonald, J. S.	Glengary	5 –	
M'Lean, Alexander	Stormont	5 –	
Moore, John	Sherbrooke	5 6	
Parent, Etienne	Saguenay	– –	-- It depends upon the quantity raised; and that depends upon the frost and the fly.
Parke, Thomas	Middlesex	5 –	
Roblin, J. P.	Prince Edward	5 –

COPY of a DESPATCH from Lord *Stanley* to the Right honourable Sir *Charles Bagot*, G.C.B.

No. 3. Despatch from Lord Stanley to the Right hon. Sir Charles Bagot, 2 March 1843.

Sir, Downing-street, 2 March 1843.

I HAVE received your despatch (No. 19) of the 27th January, enclosing a petition addressed to the Queen by the Board of Trade at Quebec, praying that the Royal Assent may be withheld from the Bill passed in the last session of the Legislature of Canada, by which a duty was imposed on the importation of foreign wheat into that province, until the Imperial Parliament shall have passed a law authorizing the free admission into the United Kingdom and the British Colonies of all grain and flour exported from Canada.

I have to acquaint you, in answer, that I have laid this petition before the Queen, and that Her Majesty was graciously pleased to signify Her readiness to take the prayer of it into Her consideration when the proper time shall arrive for deciding upon the provincial enactment.

I have, &c.

(signed) *Stanley.*

—No. 4.—

No. 4. Extract of a Despatch from the Right hon. Sir Charles Bagot to Lord Stanley, 24 February 1843.

(No. 35.)

EXTRACT of a DESPATCH from the Right honourable Sir *Charles Bagot*, G.C.B., to Lord *Stanley*, dated Government House, Kingston, 24 February 1843.

I HAVE had the honour to receive your Lordship's despatch of the 1st instant, No. 320, desiring to be furnished with a report in explanation of the grounds upon which the Wheat Duty Bill was passed by the Canadian Houses of Assembly during the past season.

For Lord Stanley's Despatch, 1 Feb. 1843, *vide* Papers ordered by the House of Commons to be printed, 13 Feb. 1843, No. 18, p. 5.

Your Lordship will have already received a despatch upon this subject, which I transmitted by the last mail, accompanying reports upon the other Bills of the same session.

To these I have now to add a copy of a Minute of my Council drawn up on this document.

The Minute of the Committee of Council will furnish your Lordship with the information required in the concluding paragraph of your despatch relative to the possible effect of the exemption contained in the second clause of the Bill in admitting frauds upon the revenue, and an abuse of the privilege which may be accorded in the United Kingdom to wheat which shall have paid the provincial duty.

Enclosure in No. 4.

Encl. in No. 4.

EXTRACT of a REPORT of a Committee of the Executive Council, dated 23d February 1843, on the subject of the Bill passed last Session, for imposing a Duty upon American Wheat.

WITH respect to the inquiry contained in the last clause of his Lordship's despatch, regarding the exemption from duty of wheat and flour introduced by sea for the use of the fisheries, and the facility which such an exemption may give to the commission of frauds upon the revenue, which inquiry, the Committee observe, is not anticipated in your Excellency's despatch, the Committee beg respectfully to observe,

1st.—That Canada is very little concerned in the fisheries on the coast, as the fish taken there are exported directly to foreign countries; and the supplies are derived directly from England, in the shape of fishing-tackle, sails, rigging, and other like necessaries; and the provisions are imported, by sea, from the ports in the United States.

2dly.—That the British fisheries trading with foreign countries and having no protection, would be absolutely ruined by any financial measure which would increase their expenses, and thus place them at a disadvantage as compared with the foreign fisheries, particularly as the former do not enjoy the encouragement of bounty on the exportation of fish, afforded by the eastern colonies and by the Americans.

3dly.—That the exemption was introduced to favour a trade in which British shipping and British capitalists are interested; and that the only possible interest which the interior of Canada could have in the question would be in favour of a duty on foreign supply

supply to the fisheries, and in forcing them thus to take the supplies from the provinces; but, for the reasons above stated, it is not desired to acquire such an advantage at the expense of the fisheries.

4thly.—That the exemption was introduced in accordance with the policy of all the Canada Trade Acts, which contain the same exemption in favour of the fisheries.

5thly.—That the geographical position of the fisheries is such as to prevent it from being the interest of persons disposed to defraud the revenue to import, by sea, wheat from a foreign country, and to send it illicitly into Canada, there to acquire the character of wheat or flour of Canadian growth, or of the same articles which had paid the duty.

6thly.—That wheat or flour introduced *by sea* for the use of fisheries not on the sea-coast, would not bear the expense of transportation to the interior for the purpose of avoiding the duty.

7thly.—As to the danger of wheat being introduced by sea at the fisheries on the coast, which may there be converted into flour, and thereby acquire the character of colonial produce or manufacture, the Committee would observe, that the country on the coast not being wheat growing, any importation or manufacture of wheat for exportation would immediately be observed by the officers of the Customs, and the traders in the article, on importing what evidently was not for the use of the fisheries, or on attempting to export it to England, would be liable to have the property seized, and would be subject to the pains and penalties of the British Trade Act, re-enacted by the Bill in question.

And, lastly, as the exemption was introduced into the Bill in favour of British interests, any act removing or lessening the duty on wheat and flour imported from Canada may contain any precautionary enactments regulating the details of importations for the use of the fisheries, which may be devised by the Commissioners of Customs, and which would effectually prevent the fraud of which his Lordship apprehends the probability.

—No. 5.—

(No. 43.)

COPY of a DESPATCH from the Right honourable Sir *Charles Bagot*, G.C.B., to Lord *Stanley*.

Government House, Kingston,
My Lord, 20 March 1843.

No. 5. Despatch from the Right hon. Sir Charles Bagot to Lord Stanley, 20 March 1843.

WITH reference to your Lordship's Despatch of the 2d March, No. 330, relative to the petition addressed to the Queen by the Board of Trade at Quebec upon the subject of the Wheat Duty Bill, passed by the Provincial Legislature in its last session, I deem it expedient, although I am confident that Her Majesty's Government will allow no unnecessary delay to occur in determining upon the course which they will adopt with regard to this measure, to transmit to your Lordship a copy of a communication from the same body, pointing out the importance of an early decision upon this matter with reference to the trade of the approaching season.

I have, &c.

(signed) *Charles Bagot.*

Enclosure in No. 5.

Office of the Council of the Quebec Board of Trade,
Sir, Quebec, March 4, 1843.

Encl. in No. 5.

I AM requested by the Council of the Quebec Board of Trade respectfully to inquire if any information has yet been received regarding the fate of a Bill passed in the last session of our Provincial Legislature, imposing a duty of 3 *s.* per quarter on wheat imported into the British Possessions in North America from the United States, and which was reserved by his Excellency the Governor-general for Her Majesty's pleasure thereon. When the aforesaid Bill was passed by the Legislature, it seemed to be generally understood that it was the intention of the Imperial Government to permit the importation of wheat from Canada into Great Britain at merely a nominal duty; and as the season of business is now approaching, it is of great importance to the inhabitants of the province generally that they should receive authentic information on these questions with the least possible delay.

I have, &c.

(signed) *W. Walker,* Chairman.

RETURN of the PRICES of WHEAT and FLOUR at the different BRITISH PORTS in NORTH AMERICA, for the latest Five Years now in the COLONIAL OFFICE.

(*Mr. W. Miles.*)

Ordered, by The House of Commons, *to be Printed,*
5 *May* 1843.

WHEAT AND WHEAT FLOUR.

RETURN to an Order of the Honourable The House of Commons, dated 1 May 1843;—*for*,

AN ACCOUNT of all WHEAT and WHEAT FLOUR imported into the UNITED KINGDOM from the BRITISH COLONIES in *North America*, from the Year 1800 to the 5th day of January 1843; distinguishing the Quantities of Wheat and Wheat Flour respectively; and also, the sum Total, in Quarters, imported in each Year; together with an Account of the Rate of Duty to which Wheat and Wheat Flour, the Produce of the *North American* Colonies, were liable in such Years.

AN ACCOUNT of the RATES of DUTY payable upon the Importation of WHEAT and WHEAT FLOUR into the *Canadas*, from 1800 to 1843.

(*Mr. Francis Baring.*)

Ordered, by The House of Commons, *to be Printed*,
8 *May* 1843.

AN ACCOUNT of all WHEAT and WHEAT FLOUR imported into the UNITED KINGDOM from the BRITISH COLONIES in *North America*, from the Year 1800 to the 5th day of January 1843; distinguishing the Quantities of Wheat and Wheat Flour respectively; and also the Sum Total, in Quarters, imported in each Year; together with an Account of the Rate of Duty to which Wheat and Wheat Flour, the Produce of the *British North American* Colonies, were liable in such Years.

Inspector-General's Office,
Custom House, London,
5 May 1843.

WILLIAM IRVING.

AN ACCOUNT of the RATES of DUTY payable upon the Importation of WHEAT and WHEAT FLOUR into the *Canadas*, from 1800 to 1843.

From 1800 until 1822, no Duties were payable upon Wheat or Wheat Flour so imported.

3 Geo. 4, c. 119: From 1822 until 1825, Wheat Flour was subject to a Duty of 5*s.* per barrel upon importation from the United States of America by land or inland navigation, and Wheat was Duty free.

3 Geo. 4, c. 45: During the same period, Wheat and Wheat Flour imported into Canada from Foreign Europe or Africa were subject to a Duty of 12 per cent. ad valorem.

6 Geo. 4, c. 114: From 1825 to 1831, Wheat was charged with 1*s.* the bushel; and Wheat Flour the barrel, of 196 lbs., with 5*s.*

1 & 2 W. 4, c. 24: In 1831, Wheat and Wheat Flour became exempt from Duty, and continues so at this time.

Custom House, London,
5 May 1843.

J. Woodhouse,
Inspector Plantation Accounts.

WHEAT AND WHEAT FLOUR.

AN ACCOUNT of all WHEAT and WHEAT FLOUR imported into the UNITED KINGDOM from the British Colonies in *North America*; and, of the Rates of Duty payable upon the Importation of WHEAT and WHEAT FLOUR into the *Canadas*, from 1800 to 1843.

(*Mr. Francis Baring.*)

Ordered, by The House of Commons, to be Printed,
8 *May* 1843.

CORN.
